GEORGE DRAWBAUGH, Sr., of West Pennsborough township, received from a friend six ounces of early rose potatoes, which he cut in pieces and planted on the 7th day of May, and raised them on the 2d of August—the yield therefrom being 38 pounds and 11 ounces.

PAY UP.—*Those candidates who have not yet paid for their announcements in the paper, and for their tickets, are requested to do so at once.* Gentlemen who can afford to spend several hundred dollars in a campaign, must not forget the printer, as they may have occasion for his services some time again. Printers are as justly entitled to a prompt settlement of their claims as are livery men, hotels, beer shops and other incidental expenses of a campaign. Fork over, gentlemen.

FESTIVAL.—Our Mt Holly friends intend holding a festival in Major Given's new warehouse, at that place, for the benefit of the Methodist Church, next week. They hope to have an extra train to run out on the South Mountain railroad, which passes the warehouse. The object is a commendable one, and we hope to see the festival liberally encouraged.

CONCERT AT THE GARRISON.—Several hundred persons visited the Garrison, on Sunday evening, to listen to the open air concert by the band, and to witness the dress parade. We understand it is proposed to continue these concerts so long as the weather remains fair.

MUSIC.—The Carlisle Brass Band treated our townsfolks to some excellent music, in the College campus, and on the public square, on Saturday evening. The streets were thronged with people.

GOING UP.—The new Good Will Engine house is going up rapidly, and will soon be under roof.

DICKINSON HARVEST HOME.—Our Dickinson friends are making extensive preparations for the "Harvest Home," to be held in Moore's woods, on Thursday, the 19th inst. There will doubtless be a full turn out and a gay time. Everybody and his wife and children are expected.

HARVEST HOME.—The Harvest Home of the Cumberland County Agricultural Society will be held on the grounds of the Society, on Saturday, August 14, 1869. Refreshments will be furnished on the grounds.

☞ Send the VOLUNTEER, for the campaign to your Republican friend. That is the way to make Democratic votes.

CAMP MEETING.—Crowds of people from Carlisle and vicinity visited the Methodist Camp Meeting, at Oakville, on Saturday and Sunday. The camp is one of the largest that has been held in this County for many years.

A GHOST.—They have got a real live ghost in York, which frequently visits the Potter's field, near the Catholic grave yard. It comes dressed in pure white, with a veil over its face and carrying a taper in its left hand, and, from its outlines, it is impossible to determine to what sex it belongs. Several persons have followed it, but it has always mysteriously disappeared from them.

☞ Send the VOLUNTEER for the campaign to your poor neighbor.

NORTH STREET.—The grading of the extension of North Street, from East Street to the Poor House road, is being rapidly pushed forward to completion. It is a much needed improvement.

KICKED BY A HORSE.—On Wednesday morning last, while a son of Mr. Swigert, of Frankford township, was walking through the stable of the Franklin House, he was kicked on the forehead and back part of the head by a horse standing in one of the stalls. The wounds, although painful, are not considered dangerous.

NOTICE.—A meeting of the Cumberland Fire Company will be held in their hall, on next Saturday evening, (August 14,) at 7½ o'clock. Every member is requested to be present, as the propriety of getting a steam engine will be taken into consideration.

E. D. QUIGLEY, *Sec'y.*

ROBBERY.—A. O. Brougher, of Upper Allen township, lost his pocket book, on Thursday night last, by burglars who entered his house.

LARGE YIELD.—Capt. J. T. Zug last spring planted one pound of Early Rose potatoes and has realized from the same one hundred and sixty-five and a-half pounds, nearly three bushels. Can this be beaten in Cumberland county or elsewhere?

TRUE.—When a youth has a half dozen hairs on his upper lip he imagines he is a man; when a half dozen appear on his cheek he knows more than his father; but when he gets old enough to have his face covered with full-grown whiskers, he finds what a silly fellow he previously was.

☞ See the prospectus of the campaign Volunteer.

SPASMS.—Spasms in infants, which are frequently brought on by teething and also by other causes, can be instantly relieved by the administration of a small quantity of fine table salt.

ATLANTA papers are discussing the question whether an editor ought to make a public acknowledgment of a present of whisky. It might as well be read in his paper as in his nose.

☞ All orders for campaign subscribers must be accompanied by the cash.

—A Boston despatch says: the accomplished daughter of Professor A. Molyneaux Heath, of Harvard University, was led to the altar by Fred Douglass, Jr., son of the colored orator. A grand reception came off in the evening.

—The telegraph announces that Ben. Butler, as administrator of his brother's magnificent estate, the assets of which were stolen from the parlors of New Orleans, "has rendered his final account." The country waits the time when Ben. shall render a "final account" of a different sort.

THE ROLL OF HONOR.—*Editors Volunteer*: Many additional names having been received and added since your last publication, the Soldiers Roll of Honor now stands as follows, and comprises the names of 19 officers and 289 non-commissioned officers and privates.—The list has also been revised and corrected, but there may be names inaccurately published. The Roll will be no longer published, but new names may still be sent in to the Secretary, who will add them to the record, and all will appear in due time on the enduring tablets of the monument.

The publishers of the VOLUNTEER have the warmest thanks of the officers of the Association for their frequent and gratuitous publications of the Roll.

E. BEATTY,
Corresponding Sec'y.

"Why," said the little girl, "it is a day the governor makes—something like Thanksgiving. We have to keep still, go to church, and not play out of doors. It is like the lower part of Thanksgiving Day."

—The Southern negroes look with disfavor upon the approaching John Chinaman. A negro State Senator in South Carolina recently told a large assembly of his black constituents: "The white people say they are going to bring coolies and white emigrants to this country. But this country is ours; we've got the Legislature, and we won't allow it—and we won't. We'll put the white men ten feet under ground, and as to the coolies, we'll put them twenty feet."

THE BEST.

THE BEST BITTERS: Tonics have of late years gained rapidly in public estimation, and are far more generally employed by first-class physician than they once were. The reason for this is that it is a generally established fact that wholesome tonic used in moderation daily for years do not lose their virtue, neither do they injure the system. They act in fact like air and exercise, and not as "medicines," which are intended solely for attacules of illness. The bitter principles, especially those of vegetable origin, all possess the common property of stimulating the appetite, strengthening the nervous system, and of imparting strength. Women generally derive benefit from them even more than men, their system being more liable to debility and exhaustion. We have again and again in our experience seen the good effects of tonics where the eyes had grown dim and the checks pale, and the entire frame showed every indication of exhaustion, nervous suffering and debility.

The best established bitters before the American public are beyond question those of Dr. Stoever, and this is equivalent to declaring that they are the best, since among the scores of really excellent bitters now current, a poor article has no chance of success whatever. The most ignorant person can tell at once by its effects, almost from a single dose, whether any bitters are good or bad. These of Stoever have been sold for thirty years, are composed of sixteen of the safest roots and herbs of a well-known tonic virtue, so skillfully selected and compounded with regard to their mutual effects, that it may be doubted whether any more perfect form of this medicine can be made.

Thousands of persons are exposed to or afflicted with fever and ague, bilious ague or other results of malaria. Let them remember that these bitters are admirable in such cases, as for diarrhœa and cholera morbus, or any ordinary derangement of the stomachs Try them and be satisfied that they should be in the stores of every family, and the trunk of every traveler.

It is a favorable feature in the adver tisement of the proprietors of Dr. Stoever's Tonic Herb Bitters, that no claim are made that they will cure every ill that flesh is heir to. The weakest intellect can hardly be imposed upon when told that this or that remedy will remove every form of disease in every stage, and yet we can not take up the majority of journals without encountering an advertisement declaring that this or that medicine is a nostrum which is a perfect apothecary's shop and a whole college of physicians in it self, rendering all other cures useless What is claimed for Dr. Stoever's Bitters is simply that will act as a good tonic, and are capable of doing as much good as a preparation of bitter principle can. They will not cure incurable diseases, but they will often prevent a certain class of disorders from becoming incurable. The reference and certificates issued in their favor are all true and honest, and of these there are hun

FROM THE MEDICAL PROFESSION.

LANCASTER, July 25, 1868.

KRYDER & Co.—Gentlemen: In reply to yours of the 22d inst., I would say that I have used Dr. Stoever's Tonic Herb Bitters extensively in my practice during several years past. I do not hesitate to say that I have found it to possess remarkable efficacy in cases of Dyspepsia, Indigestion, Loss of Nervous Energy, as well as Fever and Ague, Diarrhœa, Headache and other diseases proceeding from a disordered stomache; and especially has it proved of inestimable value in general debility of the system, when other tonic medicines have failed to produce the desired effect.

Though reluctant to appear as recommending any particular advertised medicine, a sense of duty to the public and the medical faculty will not allow me to withhold my testimony to the merits of the Bitters in question. yours, respectfully,

Special Notices.

☞ Our readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "raise one from the dead," should be universally known and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—*Daily Journal*, Syracuse.

STILL ADVERTISING!—What's the use of advertising a place so well known to the entire community as is the great Clothing House of Wanamaker & Brown? This is a question often asked, and the editor of this paper, as it is a question which intimately concerns him, answers

1st. There is still *a few* people who are not yet customers at Oak Hall and Oak Hall is after them.

2d. Much as the people know of the "Largest Clothing House," there are improvements constantly being made and new features ever being introduced, with which they must be made acquainted.

3d. The proprietors like above all things to gratify the people, and they know that next to buying new clothes at Oak Hall, the people like to read about it and its ever increasing success and popularity.
