THE VOLUNTEER FOR THE CAMPAIGN

Reduction In Price We will furnish the Volunteen from the 5th

of August until the 2d of December-NONTHS—at the remarkably low figure of FIFTY CENTS PER COPY.

We design that our friends shall have the oppor-tunity of placing a sound, reliable Democratic paper in every household, and have put the price so low that it scarcely more than pays, for the white paper used. We have thus done our part, now let our friends in the country do their part. There is no better way to insure succ than to scatter Democratic truth brondcast amongst the people. Political meetings and great demonstrations may serve a purpose, but it is the newspaper, in the quiet of a man's ho which makes converts. For clubs we make

JOHN UMBERGER, our condidate for Director of the Poor, is an honest, intelligent farmer of Lower Allen township. He comes highly recommended by his immediate neighbors as a gentleman of varied information, sound judgment and considerable force of character. He will make an excellent officer.

The county will be fortunate in securing the services of Mr. C. V. KELLY, of Newton, as Auditor. Mr. Kelly is one of those gentlemen whose accuracy, fidelity and promptness in business matters secure them plenty of business from their neighbors in the way of settling decedents' estates and matters of that kind. No better man could be found to superintend the financial af fairs of the county.

WENDELL PHILLIPS is one of thepecultarities of the "Hub," and one of the most radical of the many Radicals who shed their influence over Massachusetts, and keep it loyal to their cause. He is a political gladiator, and periodically enters the ring for a fight; and the Radicals love to have him do battle for their cause, so boldly and valiantly he talks; but it is questionable whether they will extract a great degree of pleasure from the things said in the subjoined paragraph. But they cannot complain drawn, though they may dislike to see the picture. As this is by a native aran excellent opportunity of comparing sage, transmitted to the legislature, our second Washington with the first Washington, after whom his friends delight to call him. The following is the picture drawn by hillips. Look upon this picture, and then upon that. He says Grant is—

But, posting a copying clerk here and there, to keep the machine in motion, he hurries off to idle a week at a watering place, act Dummy at a monster show, or Helpless at a steamboat excursion. The Presidency must indeed be a sinecure, if, in such an hour as this, a man bred in a camp and tanyard can properly discharge its duties three hundred miles from the capital in the intervals of the race-course and the half hours left after theatres and concerts." Who are the Thieves?

The Harrisburg Patriot makes the charge that during the fiscal years 1867 and 1868, upwards of Seven Millions of Dollars were squandered by the State Government in appropriations outside of those made for payments on the the discharge of public and private State Debt. The grounds back of the White House have heretofore been kept open for the accommodation of the public, and many citizens and visitors might be seen enjoying the open air there, sitting In groups or singly upon the seats under the trees. Reconstruction in South Carolina. South Carolina is a reconstructed State, and how reconstruction works here is shown by the following state of

At the present term of the Court of General Sessions, which commenced on Monday of last week, out of thirty-one oetit jurrors summoned 23 were negroes and only 8 white men. Of the Grand Jury twelve were negroes and seven white. As but eighteen of the pent ju-rors answered to the summons, thirteen rors answered to the suithmous, conference extra jurymen, all of them negroes, were drawn from the bystanders. The first jury was made up of ternegroes and two whites; THE SECOND HAD NOT A WHITE MAN ON IT. Of the last mentioned jury only one negro was found who could write his name, and he, by order of the Judge, was appointed foreorder of the Judge, was appointed foreman.

Williamsburg District is adjacent to have been applied in payments on the Charleston. The war turned over the impoverished planters to the tender accounted for in appropriations for the mercies of ignorant negroes, and as the negro vote is as two to one, juries impartially drawn-leaving capacity and intelligence out of the question entirely -would consist of one third white men. Such, however, is the way justice is manipulated in the Williamsburg District, that out of twenty-four jurors ultimately selected at the present term of court, only two white men were chosen. Of course, then, with a Radical judge on the bench, and a negro jury before whom cases are to be tried, no white man will succeed in his suit, however just it may be. Again, a majority of the cases coming before this court—and indeed before all the courts of South Carolina—are negro cases. The Judge owes to negro votes his elevation to the bench, and with negro jurors, offences for trial become a mockery. Such is reconstruction before the courts in South Carolina. Republicans of Pennsylvania, what do you think of it?

Who Are to be Bought?

In view of the fact that the Radi cals express great concern lest a portion of Mr. Packer's wealth should be used to carry the election for the Democracy, the question arises "Who are to be bought?" Democrats, certainly, have no need to be purchased to support Mr. Packer, and, of course, if there is any buying to be done, it must be Radical votes that are for sale. On this subject the following remarks from one of our exchanges are full of pith: "Who is lo be bought with Packer's money ?-The Radicals profess to believe that the coming gubernatorial election will be carried by money; that voters are to be bought up by Packer. Who are in the market? It certainly is not the Democrats, for they will all vote "the ticket, the whole ticket, and nothing but the ticket ;" and that without being bribed to do so. Are the Radical voters up for sale? We know that many of the leaders sell themselves as often as a purchaser can be found. Grant was bought up by Stewart, and Borie, and Hoar, and other rich men. Geary was purchased time and again by the lobby and the legislative ring. Thad. Stevens died with two hundred thousand dollars of Pacific Railroad bonds in his possession; and to this day his Executors have declined to file and swear to an inventory of his property. The Radical Congress has been repeatedly bought up by whisky rings, railroad rings, New England tariff rings, internal improvement rings, and multitudinous other rings. Simon Cameron purchased a seat in the United States Senate two years ago; and last year the Pennsylvania Railroad bought the place vacated by Buckalew for its pet solicitor John Scott. Radical members incurred by the Tallapoosa is not great and dead in the Treasury, when that ring the last session as low as five dollars a piece. However unwise, unjust, and unconstitutional it may be considered, it should not deter any man from obeying its requirements, or keep him from registering. On the contrary, it should awaken to increased vigilance, and induce every Democrat, native and foreign, to see that his case is all right, and that the objects of the law, which were to cripple the Democratic vote and throw obstacles in the way of the foreign vote, are defeated in his own case. The law must be obeyed until it is lawfully changed, and if every Democrat will do his duty it will be shortly wiped from the statute books, and not a letter be left of this record of partizan infamy.

Pennsylvania Road Laws .-- We have received a copy of the General and Special Pennsylvania Road Law, a book just issued by Col. F. C. Hooton, District Attorney of Chester county.-The book gives a short statement of the method of obtaining a new road. It gives the power and authority of Road Jurors; the duties of Supervisors under the General and Special Laws, and the duties of Road Contractors. Every Supervisor, Justice of the Peace, and Road Contractor should have a copy. Upon sending fifty-four cents to George F. Worrall, West Chester, Pa,, a copy of the book will be sent to the address free of charge.

The Eclectic Magazine, for Séptember, contains a splendid steel portrait of the ate Henry J. Raymond, with an ediorial sketch of his life, labors and charcter. Its table of contents embraces articles from-all the leading foreign ne riodicals—articles contributed by the first minds of Europe, and which, we are forced to admit, are far superior to the ephemeral contributions to our own current magazine literature. The present number contains essays on " The Language of Light," " Poaching on Mount Blanc," " Madam de Pompadour," " The Ever Widening World of Stars," " Social Superstitions," " Marie de Medicis," "A New Theory of the Universe," "The Human Intellect," "The Leaning Tower of Pisa," together with a continuation of Anthony Trollope's new novel " He Knew He Was Right," No one who pretends to keep pace with the progress of the age should e without the Eclectic. Littel's Living Age continues to visit our sanctum with the regularity of clock-work. We are at a loss for fitting terms in which to speak with justice of this venerable, standard publication which has been the delight and luxury of the literary and scientific world for half a century. Its reputation was es tablished amongst the fathers of its present readers; it has seen the rise and fall of hundreds of periodicals in this country and in Europe; and yet with all the stability and character of age, it combines the freshness and vigor of youth. It seems to grow more readaole every year, and naturally takes its place, in bound volumes, along side of the standard works of every age. It is published by Littell, Brown & Co, Boston.

The reasons filed, so far as they apply to the law as stated by the court to the jury, in their charge, and answers to the points presented by the prisoner's counsel, have been stated, but not urgently insisted upon, because, as properly remarked, any error in law cannot prejudice the prisononer; it will be corrected by a superior tribunal, if any error exists.

my mind, are decisive against the motion. Granting new trials does not depend on the whim or caprice of the judge, but upon well-established and fundamental principles of law. In the trial of issues of fact, the court judges of the competency, the jury of the effect of the testimony. But after verdict, when the motion for a new trial is considered, the court must judge, not only of the competency, but of the effect of evidence. If with the newly discovered evidence before them, the jury ought not to come to the same couclusion, then a new trial may be granted; otherwise they are bound to refuse the application. And it is ruled in considering the motion, the court will not inquire whether taking the newly discovered testimony, in connection with that exhibited on the trial, a jury might be induced to give a different verdict, but whether the legitimate effect of such vidence would require a different verdict. The question therefore is, supposing all the testimony, new and old, before another jury, not whether they might, but whether they ought to give a different verdict. It is manifest, therefore, if these principles are correct, granting a new trial would be almost, if not quited."

Applying these legal principles to the present case the new avidence is verticed. tion. Granting new trials does not de

In Commonwealth vs. Flanagan, 7 W & S., 421—Judge Rodgers quotes the language of the late Chief Justice Gibson, as follows: "Motions for a new trial are to be received with caution, because there are few cases tried in which something new may not be hunted out, and because it leads very much to perjury, to admit new evidence, after the party who has lost the verdict has had an opportunity of discovering his adversary's strength and his own weakness." To this Judge Rodgers adds: "If this is to be feared in ordinary cases, where the right of property only is concerned, how much more would it be dreaded in a case such as the present, involving the lite of a human being, and where such extraordinary means have heave reserted to the care the reserved.

Applying these legal principles to the present case, the new evidence is entirely cumulative, and it is not after-discovered evidence, for it was as accessible to the prisoner before as after the trial; and we may further add, that a careful review of the evidence, and the argument of the prisoner's counsel on the motion for a new trial, have failed to satisfy us that the verdict of the jury is not susthat the verdict of the jury is not sus-

This is not only my opinion, which by itself would be worth nothing before this tribunal, but this is the opinion of all the eminent and experienced physicians of this country, who, free of prejudices, carefully and attentively examined my case, and who are alone competent to answer the question: 'what was the cause of the death of this lady?' And therefore the right and the truth are on my side, and the right and the truth cannot be killed by taking my life. If people just killed by taking my life. If people just now do not see this, yet time will come when every people will see it—perhaps when my bones will already long time have moulded in the grave."

The Motion For a New Trial Overviled.

The motion for a new trial in the case of Dr. Paul Scheepe, charged with the murder of Maria M. Stinnecke, came upin an adjourned court of Oyer and Terminer, on Thursday last.

The reasons for a new trial embraced the following points: The verdict of the jury was against the evidence—death from other than natural cause was not proven—it was not proper for the jury to infer a cause of death, in the absence of positive proof—that ene of the jury conversed with persons in the audience while a legal question was being argued—one of the jurors went to the post office, with the constable, got a letter and read it, without exhibiting it to other jurors—that evidence had been discovered since the trial, showing the fallacies in the Take.

You Paul Scheepe he taken nounce the sentence of the law upon you,

which is: That you, Paul Schoeppe, be taken hence by the Sheriff of Cumberland county to the jail of said county from whence you came, and from thence to the place of execution, within the walls or yard of said jail, and that you there be hanged by the neck until you are dead."

The Judge then addressed the usual prayer: "And may God have mercy on your soul!"

We have received the following letter from Dr. Schoeppe, with the request that we give it a place in our columns, and do not feel disposed to deny the request of the unfortunate man. We must, however, take occasion to say that his comments upon the remarks of his honor Judge Graham are entirely uncalled for -as the will itself was given in evidence-and his assertion that his honor manifested any feeling against the prisoner, or endeavored to excite any prejudice against him, is entirely unsustained by the facts, as every unprejudiced person who witnessed the trial in all its stages will be willing to testify. We give the letter for what it is worth:

what it is worth:

WM: KENNEDY, ESQ.

Attorney at Law,

Attorney at Law,

Attorney at Law,

Attorney at Law,

"Dear Sir." His honor Judge Graham made, before he pronounced the death sentence upon me, some remarks concerning the will to which my father is a subscribing witness. He said that this will is a forgery was beyond a doubt, because we had not examined F. Shoeppe, the subscribing witness, in regard to his signature when he was on the witness stand." I hereby protest against such proceedings of the Court. It is not for the court to decide whether the will is a forgery or not. The decision of this fact belongs to a jury. Secondly, the reason why this will, in the opinion of Judge Graham, is a forgery, is too ingenious to make a long remark necessary. That we, in a case of murder, did not examine a witness in regard to his signature under a will, shall be evidence that this will is a forgery. Thirdly, What connection had the question of the genuineness of the will with the sentence of death to be passed upon me? I cannot but believe that his honor Judge Graham, by the words which he made use of in regard to this will, only wanted to give the prejudice which with chesists in certain circles against

words which he made use of in regard to this will, only wanted to give the preju-dice which exists in certain circles against me, a pretended legal basis.

I am a man under sentence of death, whose life is forigited, if he cannot find justice before a higher tribunal, and there-Justice before a nigner tribunal, and therefore a zero and a nothing against Judge Graham. But such proceeding of the Judge who tried me, shows too clearly his feeling against me to allow me to omit it by silence. I leave it to every honest man to judge whether I am wrong or

not.
You would oblige me very much, Mr.
Editor, if you would please publish these
few words by your distinguished paper.
Very respectfully yours,
DR. SCHOEPPE.
