DRIFT WOOD.—There is one great truth itten on the hearts and in the faces o en everywhere, and that truth is that is life-of ours, with all its happiness, hopes and its aspirations, is a continpous struggle with opposing nature. We see it written on the brawny arms and onzed faces we meet upon the street.hey tell of ceaseless toil and endeavordays and nights of labor and sweat. y proclaim that the decree which in beginning doomed man to labor as a lot is still remorselessly enforced. e and there may be some favored hid of fortune, born with the silver on of luxury in his mouth, whose inty hands may never be soiled with est toil; but even in his excepand all the valuable discoveries in the onal case, if he is unwilling or unlimitless fields of science which have le to undergo the labor of managing made this age richer in its material prois estate, his broad acres, and palatia gress than all the ages which have gone ision, and silver plate, and coach and nr. will soon find their way into the ands of his greedy creditors. It seems be an unalterable rule that great wealth elevate the character of human labor ver remains in the same family beond three or four generations. Gather hoard as parents may, thieves will ake through to steal, and fire will n, or there will come some prodigal n who will waste his substance in rioalmost annihilated space and time.us living. This seems to be one of the With the solar microscope, science analsest provisions in the moral governyzes the light of the sun, and demonnt of the universe. That the miser ho gloats over his ill-gotten gains. elements necessary to sustain human uld be followed by a spendthrift delife, and then launching boldly into the ndant who scatters them broadcast limitless space beyond, it analyzes the roughout the community from whose light of the fixed stars and demonstrates ssities they were wrung by the hand that they contain precisely the same elethe extortioner, seems to be a compenments, and must in all probability be ting arrangement of Providence. True, surrounded by planetary system speo s revels have ruined body and soul, and pled with millions of human beingsfortune has been dissipated in the each system revolving around its central othel and the gambling house-and sun, and all in turn swinging, in grand et the men who have ruined him are accord with the music of the spheres, ldom permitted to grow rich off the around the great source and centre of rice of the souls they send to hell; and power, the throne of the Eternal. If this nder this compensating arrangement progress in science and the mechanic arts he hoarded dollars of old Dives ulticontinues, the sphere and the results of ately find their way into the hands of human labor will be immeasurably ene tradesman, the butcher, the baker, larged, and the wildest dreams of the an farmer, the artisan, the day laborercient philosophers may yet be realizedad it is much better they should thus man may discover the philosopher's reward honest toil, than be locked stone which commands the wealth of in Dives' strong boxes, where they the universe; and overcoming the resistuld be of no manner of use to anybody. ance of nature, by his own strong arm since, then, the exception itself goes to may wield the lever that moves the ove the rule, we claim it as universalworld true that life is a scene of ceaseless

Now labor in itself possesses few atactions for any of us, and were it not or this unalterable necessity which comels us to earn our daily bread by toil of 21st ult. aind and body, the world would be full f idlers. Is it not true then that this

nexorable rule of life, at which we are l disposed to grumble so much, is in relity a blessing in disguise? It forms he great bond of human fellowship, the ation stone of social society, and in s wondrous results affords the widest. ost rational and most exquisite enjoyent of human life. Without it there rected the jury to return a verdict of (not ould be no tie which could be called guilty," which was done. the finite towards the infinite. - What then could be more dignified and ennofollowing letter from Adam Titus, now bling than human labor? What higher awaiting execution for the murder of or nobler aim than that the creature Henry Stahm has been sent to us for should fulfil the design of his creation ! publication : In this view of life, it were better that a To the Editors American Volunteer-Gentlemen: Will you please insert the following lines in your local columns, and receive the thanks of a doomed man: man were guilty of positive crime, than that he should go through the world, with his hands folded behind his back, as if there were nothing for him to do. He ought to be a man, fulfilling the purpose of his existence, and not a mouse All history goes to prove that every

and receive the thanks of a doomed man: To my friends in public-Ladies and Genilemen.—i, knowing that my days are numbered, and they are few and short, and firmly believing in the blood of Jesus Christ, that through him God will forgive my sins, and judge me in the spirit for my sins committed in the flesh, and heartily repenting my past life, I de-sire to say to and ask my friends to for-give me for any and all my misdeeds to-wards them in deed or spirit. As I hope to be forgiven by God, I earnestly pray you to forgive me, and to pray to God to forgive me for all my great sins I com-mitted on this earth. And to jmy en-mies, (if any I have) I humbly beg for pardon from them, and ireely forgive them myself. I de-ire, when my end shall come, to feel at peace with all men, at them the set the set of the set the set of the se age of the world has been characterized by some peculiar power which has controiled the thought, and left its impress upon the history, character and progress of the times. The controlling idea-the ruling power of the present age seems to be scientific discovery and mechanical invention. Beyond all other influences they seem to be shaping the progress of the age. They have taken hold upon public thought and evolved the appliso that I may meet my God and hear him say through his son, "Thy sins are forgiven thee." I bring these few lines to a close, and bid all my friends and enemies a hearty farewell. cation of steam to purposes of locomotion, the electric telegraph, the cotiton gin, the cylinder printing press, the reaper and mower, and all the thousand and one inventions of human ingenuity,

I am, my friends, very respectfully yours, ADAM. A. TITUS

DEATH OF PROF. CLEVELAND. before. (The obvious effect of this ad-Professor Charles D. Cleveland, died sudvancement in science and the mechanic denly, in Philadelphia, last week from arts has been to enlarge the sphere and heart disease. He was born on December 2d, 1802, at Salem, Massachusetts, Man is a greater power in the world toand was the son of Rev. Charles Cleveday than he was fifty years ago. With land, of Boston. He was elected in 1830 the aid of steam, one man to-day can do Professor of the Latin and Greek Lanwhat it required a thousand men to do but guages in Dickinson College, and in yesterday. The electric telegraph has 1832 Professor of the Latin Language and Literature in the University of New York. In 1834 he established in Philadelphia a young ladies' school, strates that it contains iron and other which enjoyed a high reputation for the thoroughness of the discipline and the extended course of studies. In 1861 Professor Cleveland was appointed Consul at Cardiff, Wales, and after serving for several years resigned this position and returned to the United States. He subsequently revisited. Europe, and passed some time travelling through Germany and over the continent. He had only returned to this country a few days before his deccase.

STATE FAIR.-It will be seen upon reference to our columns that the next exhibition of the Pennsylvania State Agricultural Society is to be held in Harrisburg, opening on Tuesday, the 28th of September, and continuing until the 1st of October. The premium list is more than usually liberal, amounting to about \$10,000. As the society is about to hold consecutive exhibitions at a fixed local-

COURT PROCEEDINGS .- The August term of our Courts of Oyer and Termin er. Quarter Sessions and General Jail delivery convened on Monday morning Com. vs Phillip Ligget. Arson. The

of the Cumberland County Agricultural Society will be held on the grounds of the society, on Wednesday, Thursday and Friday; October 13th, 14th and 15th,

. .

The premium list, which holds out unusually large inducements, is published in pamphlet form, and may be obtained from any of the officers of the society, The annual address will be delivered by Sentenced to an imprisonment of 3 Hon. John H. B. Latrobe, of Baltimore, months in County jail, and to pay a fine on Thur-day afternoon. The energetic of \$1 and costs, Maglaughlin for Com., and liberal management of the society is a sufficient guarantee that this will be

LETTER, FROM ADAM TITUS,-The CARLISLE, Aug. 27, 1869.

THE CARLISLE SPRINGS .- Quite a number of persons, during the senson, have arrived here, with the intention of visiting the Carlisle White Sulphur Springs, and have learned with deep regret that the buildings were destroyed by fire. We do hove that before another season comes around, new and commodious buildings will be erected to accome d te the patronage of that well known summer resort.

THE sun last week ruled with an iron rod, and that rod contained all the elements of heat and was applied to the bodies of humanity with disagreeable severity. Fans were in great demand, soda water had an excellent run, lager beer was freely imbibed, fancy drinks were despised and umbrageous foliage (not women) was much courted.

WE have received quite a number of ew subscribers to our list during the past week. Now is a good time to subscribe when an important election campaign is at hand-one in which the peoble will again restore power to the hands of the Democracy. Send in your names. we have plenty of room for them on our lists.

A STRIKE. Owing to some disagree ment with the foreman, a large number of hands were recently discharged from the shoe factory, and their places filled by new employees. The remaining hands struck for higher wages, on Tuesday morning. They ask to be paid. by the piece and not by the day. UNDER WAY .- The brick work on the

new depot of the South Mountain railroad will be completed during the present week. It will be a neat and tasty structure, one story high, built between the two roads, with a broad platform running around the building and extending to the railroad track on either side.

SOLDIERS SENT AWAY .- A large detatchment of soldiers left Carlisle Barracks, on Monday morning, by way, of the Cumberland Valley Railroad, for California and other points in the far. west. The were headed by the Garrison band, and attracted together quite a crowd of spectators.

BOROUGH AND TOWNSHIP ELECTIONS. We would remind our readers that the elections generally known as the "Spring ity, its officers have had leisure to perfect conveniences, which will add much to the Elections" for borough and township officers will hereafter take place on comfort of both exhibitors and visitors. A new feature in agricultural exhibit ions 'the Second Tuesday of October, instead is introduced into the regulations of this of in March. By the general registry act, year, indeed it is but an experiment it is provided in the 15th section that :

"All elections for city, ward, borough, township and election officers shall here-after be held on the Second Tuesday of October, subject to all the provisions of the law regulating the elections of such officers not inconsistent with this act; the persons elected to such offices at that time shall take their places at the acpirawhich we hope will prove a successful time shall take their places at the expiration of the terms of the persons holding the same at the time of such election; but no election for the office of assistant assessor shall be held under this act until the year 1870,"

GOING .- A week or two only remains of summer. This season is the most delightful portion of the year to be in the country. Nature is yielding up her treasures, and everything blds man to rejoice. in the munificence and never-wearying kindness of his Creator.

Our Democratic friends should care fully examine the registration lists now posted at the election places, and see that heir names are on them. If not ther

"ALISMA."-It is not often that we have the time to spare, or the inclina-tion, to notice any of the thousand and

Found Him.—The St. Louis papers are advertising to find the judges of their Courts, all of them having gone out of town.—*Exchange.* We met one of the runaways—our tal-ent d'friend and college-mate, Judge Vastine, up in the mountains of Eastern Pennsylvania, a few weeks ago. He then contemplated a descent upon Cape May and Long Branch. Twelve years out of college and a full fledged judge, is "not bad for Joseph, oh, no, no."

Concerning the efficacy of one of these remedial preparations—and one which has become celebrated of late—we can speak from personal experience, and con-scientiously say it is good. We refer to "Alisma," an article for restoring and preserving the hair, manufactured by Messrs. Seward & Bently, Chemists and Druggists, No.189 Main street, Buffalo.--Buffalo Commercial Adv. No slow sa'es for Seward's Cough Cure.

the In this age of sceptiolsm, facts are required to inspire confidence in the minds of the people; but with good in-dorsers, they are willing to test any arti-

dorsers, they are willing to test any arti-cle claiming extraordinary merrt. The proprietors of Halls & Vegetable Sicilian Hair Renewer offer the following indorse-ment of the merits claimed by them for their preparation, by the Pittsburg, P., "Christian Advocate;" viz., "The pub-lic have so often been deceived. by the use of Worthless preparations for the hair, that an article of this kind, to gain their favor and secure their patronage, must possess *rcal merit*. We are glad to assure our readers that Hall's Vegetable Siaillan Hair Renewer is meeting with the success which its merits so justly de-serve; and we have reliable evidence, that it will perform all that is claimed for it, in restoring gray hair to its natu-

or it; in restoring gray hair to its natu-al color, and, as a permanent dressing, DICKINSON COLLEGE .- The fall session

of Dickinson College opens on Thursday, with a large accession of students.

HALL & CO., Nushna, N. H., Proprietors, Aug. 20, head-in.
THE BEST BITTERS.—TONICS have of late years goined rapidly in public estimation, and are nar-more generally employed by first-class physi-class than they once were. The reason for his is that it is a generally established fact that whole-some tonics used in moderation daily for years do not lose their virtue, neither do they injure the system. They act, in fact, like air and excr-cise, and not as "medicines," wh ch are intenda-oid coilely for attacts of tillness. The bitter prin-ciples, especially those of vegetable origin, all possess the common property of stimulating the appetite, strengthening the norvous system, and of inputting strength. Women generally de-tibel' systeme being more liable to debility and exhaustion, we have again and again, in our experience, seen the good effect of tonics where the system being more liable to debility. The best established bitters before the Ameri-can public arc, beyond question, those of Dr. Stoever, and this is equivalent to declaring that they are the best, since, among the scores of really escellent bitters now current, a poor att-cie has no chances when or a may bitter in our chance of success when or a may bitter in the strength when again and again.
The best established bitters before the Ameri-can public arc, beyond question, those of Dr. Stoever, and this is equivalent to declaring that they are the best.
Stoever and gues, when or a may bitter in the othance of success when or a may bitter in the strength when again the strength of the safest roots and heres of stoever more been so do from a transmost descere of runs descere of the root of the root strength of thirty selected and compounded with figured to their mutual effects that it may be doubted whether may more perfect form of the safest roots and heres of a well known tonic virtue, so skulfatily selected and compounded with fever and agaie, billights aged or differed with fover and tents and feed upon wild meat, the making his way into Mr. E's sleeping the latest styles of type from the celeto pay a fine of \$1 and costs.
