THE TEACHERS, INSTITUTE.—The mberland County Teachers, Institute in annual session, in Literary Hall, wville, on Monday, 15th inst. We ke the following abstract from an offi- l report of the proceedings published the *Star of the Valley*. At half past o'clock, P. M., the Hall was well d with a highly intelligent audience, posed of Professors, Teachers, School rectors and others, and the convention s called to order by the county Super- ndent, Prof. Lindsey. Prayer was red by Rev. McKnight, after which a el address was delivered by the coun- Superintendent. Messrs Shoemaker, ner and Sharpe were elected Vice sidents; Prof. Bergstresser, Secretary; S. Taylor Sheaffer Asst. Secretary. M. C. Gring was chosen Treasurer.— e morning sessions were ordered to tinue from nine until twelve o'clock, afternoon sessions from half past one ll five o'clock, and the evening ses- n's to commence at half past six lock.

n the evening a comprehensive and ructive essay was read on physical graphy by Dr. Whistler. After ich the question; "*Are teachers who ch more than six hours a day doing t is right?*" was discussed by D. M. Gring, Mr. McCormick and F. A. n; who maintained that it was a posi- e injury to keep children confined in school room more than six hours a ; and by J. H. McKeehan and Danl eley who argued that in some cases it s absolutely necessary to do so, to do tice to all the scholars, though it might advisable to dismiss the smaller school- earlier. After the discussion, Prof H. McElwaine delivered an address written Arithmetic.

Tuesday morning's services were open- with prayer by the Rev. Mr. Keith.— fter which the question: "*How may a tinued interest be promoted in our mon schools?*" was discussed by W. Palm, A. Cowrey, W. H. Snyder and f. McElwaine, who severally contend- for the cooperation of parents and di- ctors, for hard work on the part of the cher, for a kind, respectful and as- ing demeanor on the part of the cher. Prof. McElwaine believed in viding the schools into societies and couraging them to compete. Prof. elly then delivered an address on ool government.

In the afternoon Prof. G. W. D. Eckles ivered a lecture on moral culture, owing the relation of the moral nature the other faculties, arguing its import- ce to the individual and to society, d indicating the best method of ma- ting it. A lecture was then delivered Prof. Shoemaker, of Chambersburg, school government, in which he gave me admirable examples of well con- cted and of badly conducted schools, d was pretty severe upon incompetent chers.

In the evening Prof. McElwaine con- luded his remarks upon written arith- etic; and was followed by Prof. Shoe- ker who spoke of language—of the wer and influence of words when spok- or written. Two of the finest qualifi- tions a man could possess were to be le to read well, and to be able to ex- ess his thoughts clearly in written or oken language. He argued the import- ce of a thorough study of English ammar, as the basis of correct speaking d writing.

On *Wednesday* morning the spelling atch was held. One hundred words ere given by the county Superintend- t, which were written by those competi- g for the prize. Subsequently the com- ittee on spelling reported as follows:

Best, Miss Sadie E. Black,
d " " Emma J. Weakly,
d " " Emma J. Hall,
h " " Ella M. Rebuk,
h " Mr. John L. Henry,
h " Mr. Frank Albert.

In the afternoon J. Zeamer delivered a cture on Teaching, urging the necessi- of cl aniness, and maintaining that e wanted heart-culture as well as head- lture. The teacher should inculcate proper taste for reading amongst his pils. In the evening an essay was ad by Miss Hall, on "Light behind the oud," which was much admired. Sub- quently Miss L. Fleming read an essay, bject "Thoughts by the wayside," hich was highly commended. Prof. Ickersham, State Superintendent of ommon schools, then delivered an ad- ess in which he paid a noble tribute to e memory of Ex-Gov. Joseph Ritner. e then urged parents and directors to ke a deeper interest in the cause of com- on schools. They ought to be careful the kind of men they sent to Harris- rg to legislate for them—they should cure the best men in their community r school directors—they ought to pro- ide good school houses, surrounded ith pleasant grounds—schools should ave good apparatus and ought to be raded. It was highly important that here should be a norma' school in this istrict.

On Thursday morning, the Institute, n invitation, attended thanksgiving ser- ices at the United Presbyterian church. n the afternoon, Prof. Byerly, of the illersville state normal school, deliver- d a lecture on English Grammar, main- aining its importance and the difficulty f teaching it understandingly. He was llowed by Prof. Heiges, of York, wh delivered a highly interesting lecture on he metric system. In the evening Prof. yerly read an essay on "Our Common chools," and by Miss Greason also in an ssay. Prof. Heiges concluded the even- g's entertainment by an address on Mistakes of Teachers."

The exercises throughout were varied nd enlivened by the admirable lectures, eadings and delineations of Prof. Kidd, he celebrated elocutionist of Cincinnati. He occupied a portion of each session and as listened to with the closest attention nd the most unmistakable manifesta- ons of delight. He is undoubtedly one f the best elocutionists in the country.

The Institute adjourned on Friday morning. The reunion was a very pleas- ant one, and doubtless resulted in mutual benefit to all who participated. It is gratifying to see such a deep interest taken in them by teachers, directors and citizens generally.

COURT PROCEEDINGS—SECOND WEEK.—The first case on the list for the second week was Margaret Barber *vs* Gustavus and Theodore Mindil, doing business as Mindil & Co. It was a feigned issue to test the validity of proceedings in execution, and occupied several days. Verdict, judgment for defendants. Motion for a new trial entered, and reasons filed.—Todd, Herman and Parker for plaintiff; Miller and Penrose for defendants.

Frederick Watts *vs* Philip Baker.—Action of debt. Verdict, judgment for defendant. Motion for new trial entered and reasons filed. Henderson & Hays for plaintiff; Penrose and Maglaughlin for defendant.

Fred'k. Watts *vs* Saml Neff. Action of debt. Verdict, judgment for defendant. Motion for new trial entered.—Henderson & Hays for plaintiff; Penrose and Maglaughlin for defendant.

This case was not concluded on Saturday, and was continued until this week, and a jury was also empaneled in the case of Jno. M. Good *vs* C. W. Ahl *et al.* Trespass on the case—which is on trial at the time of concluding our report.

SALES OF REAL ESTATE.—R. McCartney, Auctioneer, made the following sales of Real Estate last week:

A BARGAIN.—L. T. Greenfield, has just opened a full line of splendid alpacas in all colors, at 37½ cts. per yd. The above are certainly the cheapest dress goods ever offered in this market, also a new lot of Furs, just received at very low prices. Bargains in all kinds of goods, at No. 4, that cannot be found elsewhere, Call and be convinced.

READ Mr. Wanamaker's very interesting note in another column. It is clear and conclusive, and shows very plainly that the present move at Oak Hall is based on true business principles, and is sure of large success. We are only anxious that our patrons come in for their full share of the spoil.

LECTURE.—Prof. Kidd gave one of his elocutionary entertainments in Rheem's Hall, on Wednesday evening last. He began by roundly abusing the community for not turning out in larger numbers to hear him; and his remarks, however just, served to put his audience and himself in the best possible humor with each other, and prepared his hearers to fully enjoy his readings, which were passably good.

CHURCH DEDICATION.—The basement room of the St. Paul's Evangelical Church, on Louther Street, will be dedicated at 11 o'clock, on Sunday, November 28. Ministers from a distance will be present.

CONCERT.—The "Continentals" paid us a flying visit, on Tuesday evening last. Two of the troupe were temporarily absent, and the performance did not give the most unbounded satisfaction.

A SPECK OF WAR I I

Seizure of Gunboats at New York.

DECISIVE MEASURES BY THE GOVERNMENT.

(Special Dispatch to Morning Patriot.

WASHINGTON, Nov. 23.

The indications are that the complications arising out of the Cuban question and the Spanish gunboat seizure, or detention, will soon bring matters to a focus. It appears that eleven of the gunboats are now ready to be turned over to the Spanish government, and the minister who represents that Government at Washington is every day expected to make a formal demand for their release. This will bring the case into court, to be decided according to the neutrality laws. The Peruvian minister has contended that if these gunboats were released they would be sent to Cuba to release others, which would immediately proceed to Peru and operate against his government. It was at the instance of the Peruvian minister that the government placed them under surveillance, and if the Peruvian government insists on the detention the government cannot do otherwise than comply. The Spanish minister had an interview with the secretary of state this afternoon and came away much dissatisfied. It is said he left for New York this evening. Mr. Fish gave him to understand that the government had determined upon what course to pursue and nothing could now change it in any particular. The Spanish minister has telegraphed to Madrid, giving the result of the interview and stating that the United States was determined to seize and hold the gunboats. He will take no further action until he receives instructions from his government. A strong protest is expected from Spain. Some prophesy a peremptory demand, with a declaration of war as the alternative, but this is not probable. Those who profess to be acquainted with the idea of their president and cabinet assert that the object in libelling the vessel is for the purpose of bringing the case into court, with a view to release them. Thus the matter stands. Public opinion is greatly divided as to what will be the final result.

—News of a most awful tragedy come from Tabiti, by way of San Francisco.—Three hundred Coolies rose against the master of the vessel, in which they were being carried to slavery, murdered him and his officers, in revenge for which the mate, who succeeded in escaping into the hold, blew up a keg of gunpowder, killing nearly all on board.

THE EARL OF DERBY.—The foreign journals contain a letter from Lord Stanley, declining a public funeral for his deceased father, the Earl of Derby. Lord Stanly says that his father, in his lifetime, repeatedly expressed a wish that the observances attending his decease should be of a strictly private character, and left written directions to that effect. The funeral was therefore attended by only a few of the neare-t relatives.

INCENDIARY fires have become so numerous in Newburyport, Mass., that its authorities offer a reward of $10,000 for the detection of the incendiaries.

CAUTION.—Extended success in any department of business justly awakens competition, and owing to defective mental and moral structure often begets envy. Now these are to be expected and may be met by energy and determination; but not unfrequently the bounds of legitimate rivalries are overstepped and base misrepresentations even stoop to use the patronage of others to further their nefarious purposes. With the assistance of science, and by means of industry and honesty, in PUBLISHING a proprietary remedy, Dr. Stover's Old Standard Tonic Bitters, have attained unparalleled celebrity, having been before the public for the last thirty years.

Whenever they have entered the sick or complaining household, their effects have even exceeded expectation, and so far surpassed all we have ever claimed for them by circular, card, or otherwise, that the public confidence in the medicinal qualities of the Bitters is unbounded. We do not fear the competition of the empirical throng who attempt to palm off remedies upon the people, which are not scientifically compounded, and are destitute of curative qualities. Their empiricism will be discovered in the end and the inefficiency of their preparations found out. We would rather be reviled for merited success than applauded for failure, however ungenerous it may be for man either to envy or despise. Against another and a worse class of individuals we wish to caution the people, to allude to those who take advantage of our popularity, and attempt to gain public favor and confidence by counterfeiting, in Old Standard Bitters, barely imitating the label, or making other approaches to its preparation calculated to deceive, and in a manner of course, in so far as they succeed, to bring our excellent Tonic into disrepute. The public are hereby warned against all such machinations. In order to further protect ourselves and save the afflicted from imposition, we have concluded to change our Label so as ever hereafter to sustain our individuality, and keep the reputation of the Old Standard intact. We incur great expense by so doing, but the end warrants the means. The new label along with the caption, directions and neat ornamentation will present an excellent steel portrait of C. H. Kryder, the senior member of the firm. This will be the badge of its genuineness, as well as a guarantee of the quality of the Bitters. The label will be duly copyrighted, and thus placed beyond the reach of counterfeits. By no fault of ours shall the public confidence ever be abused or the reputation of the "Old Standard" be allowed to suffer. None genuine unless signed

Special Notices.

PHILADELPHIA, November 23, 1869.

Editors Volunteer,

DEAR SIRS:—We enclose you an extra advertisement, which you will please substitute, for a few days, for our regular standing advertisement. You, as business men, will easily appreciate the position of affairs as stated by us in the enclosed, and will doubtless approve of the remedy we have adopted. Every one anticipated an unusually brisk trade this season, and every one has been disappointed. We, perhaps, have been the most fortunate of Philadelphia merchants, our business showing a large increase over last year's; but we have made such prodigious preparations that we cannot hope in the ordinary way to dispose of our purchases and manufactures. But two courses are open to us,—either to carry over all this stock into next year, to our great inconvenience, if not loss; or to clean it out by a sweeping sale being content to recover the money we have invested in this surplus stock, *we have adopted the latter.* You have already spoken to your readers of our present stock,—its immense size, its excellence, and its cheapness, and many of your neighbors are among our most valued customers. Will you please now call their attention to our proposed sale, and say to them that with the single exception of our "Executor's Sale," last Winter, there has not been in the life of any of them so good a chance for a bargain in clothing. Get them to read *every word* of our advertisement, and then if they have any regard for their own interests, we will be sure to sell at least one suit to every man of them.

Yours very respectfully,

They penetrate the secret abode of this terrible disease, and exterminate it, root and branch forever.

They alleviate more agony and silent suffering than tongue can tell.

They are noted for curing the most desperate and hopeless cases, when every known means fail to afford relief,

No form of dyspepsia or indigestion can resist their penetrating power.

DR. WISHART'S PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained. It invigorates the degestive organs and restores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the poison which scrofula breeds on the lungs. It dislodges the mucus or phlegm which stops the air passages of the lungs. Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with positive assurance of its power to cure the following diseases, if the patient has not too long delayed a resort to the means of cure: *Consumption of the Lungs, Cough, Sore Throat and Chest, Bronchitis, Liver Complaint, Bleed and Bleeding Piles, Asthma, Whooping Cough, Diptheria, &c.*

A medical expert, holding honorable collegiate diplomas, devotes his entire time to the examination of patients at the office parlors. Associated with him are three consulting physicians of acknowledged eminence, whose services are given to the public *free of charge.*

PRETTY WOMEN.—A comparatively few ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish, and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a Refined sparkling Beauty to the Complexion, pleasing, powerful and natural.

No Lady need complain of a red, tanned, freckled or rustic Complexion who will invest 75 cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To preserve and dress the Hair use Lyon's Kathairon.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

AMONG the many hair preparations in the market, it is no easy matter to decide which one of them is most desirable for use. HALL'S VEGETABLE SICILIAN HAIR RENEWER has been before the public about nine years, its virtues tested and certified to by many leading and influential physicians of New England, among whom we may name Walter Burnham, M. D., formerly Professor of Surgery in the Worcester Medical Institution, and in Penn University of Philadelphia, who says, "I have used it for restoring the hair, where inveterate eruptions had resisted various kinds of treatment, and found that not only was the hair beautifully restored to its original beauty, but also the disease of the scalp completely cured;" also Geo. Gray, M. D., of Nashua, N. H., the leading physician of the place where this RENEWER is manufactured, speaks of the preparation in this way: "I have seen its effects in very many cases. It will certainly restore the hair to its original color, it cleans the head of dandruff, and leaves the hair soft, glossy and beautiful. I do not think its use in any way injurious, but on the contrary, beneficial. I can, therefore, cheerfully recommend it to the public." A. A. Hayes, M. D., State Assayer of Mass., having analyzed it, assures the public by certificate, that it is the *best* preparation for the intended purposes of the many he has examined."

With these assurances from such high sources, surely those who desire a perfect and reliable hair restorer can do no better than use HALL'S VEGETABLE SICILIAN HAIR RENEWER.
