Hair Vigor,

Ayer's

For restoring Gray Hair to s natural Vitality and Color. A dressing which

is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color

with the gloss and freshness of youth Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous.

Its occasional use will prevent the hair from turning gray or falling off, and on Desirable Property at low rate consequently prevent baldness. Free Liberally Adjusted ke some preparations dangerous and

benefit but not harm it. If wanted PROMPILY PAID t the office of the CARLISLE AGENCY, No HAIR DRESSING, othing else can be found so desirable ontaining neither oil nor dye, it does at soil white cambric, and yet lasts SAMUEL K. HUMRICH,

Hail's superior method of treating diseases.
Health we consider to be an equilibrium of the
electric condition of the hum an system, and the
more perfect the equilibrium, the more perfect
the health. Disease, on the contrary, is either a
plus or minus of the whole, or a portion—making
one part plus and the hot disqualed of the vital
finitive of System, the connecting link between
high and matter, and the most subtle sub-tance
known. It circulates the blood; is the cause of
voluntary and involuntary motion; produces
al the chemical changes in the system—the decomposition and recomposition—and always cooperates with vitality in imparting health and
strength to the human system, if Electricity is
the generating agent of animal life, how important then it must be in the continuance of hat
life, as also in the preservation of health. We
would here state, for the benefit of those unacquainted with the subject, that the application
of Electro-disgnetism Galvaniem and Electricity
thas been applied by the learned and unlearned—hap-hazard, without any assurance of
scomplishing the desired object; and when
successful, was looked upon as the result of
grod luck, rather

to the body.

This discovery is the result of many years hard and selentific investigations. Its great superiority over all other systems for the cure of discasses has been practically tested in different parts of the country. Thousands of invalids have been treated, suffering from almost every form and condition of disease common to all

and others, which he guarantees to give satisfac-tion in every respect. His PARLOR AND OFFICE STOVES, are unsurpassed for beauty of design, durability and economy of fuel. He also offers to the pub-lic the justly celebrated

EMPIRE GASBURNER. He would call attention to a few of its merits.

i. It has no brick to be replaced once or twice year. 2. Heating downwards, its rays of heat are effected to the floor, heating the feet instead of the face.

3. The burning of the gas by a second supply of fresh air is complicte. The device is not found in other Stoves, consequently the air is always oure.

4. It is a perpetual burner.

5. It makes no klinkers.

8. Is perfectfully clear from dust, the arangement is covered by patent and is perfect in its

operation.
7. Its ventilation is complete, and in every respect is a first class flove and warmted to give satisfaction. Numbers of references can be given as to the merits of this stove, but he would ask those who wish to get a desirable stove to call at his shop and see it in operation.

He offers among other Parior, Duning Rooms, and Clamber , toves, the

'BEACON LIGHT," a beautiful, economical and powerful heating Stove, patented 1889; also PAHLOR HEATERS, for heating two or more Rooms, Portable Fur-naces, &c. TIN AND SHEET IRON WARE

constantly on hand. SPOUTING, ROOFING, and JUBBING made to order of best material, and at reasonable prices.
