THE NEW YORK ELECTION-FORNEY

Forney, the paid bugleman of the Radical-negro party, squirms like a wounded snake over the Democratic victory in New York. Two days after tained an article on the subject, the first sentence of which reads thus:

"The election day-before yesterday in New York is a fair sample of what we may always expect under a Democratic government. That party as it is at present constituted exists only by lawlessness and writer?"

When we remember that the Radical party is the child of crime, that it grew upon crime, and is now sustained by crime, it requires a good deal of brass for a follower of this infamous, lawless faction of linertines, thieves, vagabonds and negroes to talk about "lawlessness and crime." There never was a party outside the infernal regions that existed so entirely upon crime as this blackand tan Radical party. There is not a crime in the calendar, from murder down to petty larceny, that cannot be charged home upon this treasonable organization. It is a party whose leaders are infidels, (Lincoln himself was an infidel,) and it has caused more wicked ness in the world than ever the prince of darkness caused. Forney himself has been conspicuous in deeds of villainy and robbery, and at this very hour a committee of the Senate is unearthing some of his plundering operations.

"Bitter things I write,
"Because my soul is bitter for your sake
"Oh! Freedom." It is not to be wondered at that the paid minions of Grant's gift enterprise feel sore over their disastrous defeat in New York. Previous to the election these political vampires predicted that the negro vote, added to the white Radical vote, would give them glorious New York. They expected a Radical victory, but the white freemen of the proud old Empire State rallied to the polls and literally annihilated the pie-bald conspirators. Where the "wards of the nation" (the negroes) were most numerous, there the Democratic majority was greater than ever before. Glorious New York !—all hail her Democratic majority of \$8,000! That State furnished more men and more money to put down the rebellion than all the New England Yankee States combined, but she never furnished a man or a dollar to fasten upon an unwilling people that spawn of Radicalism, the so-called Fifteenth Amendment; never a man or a dollar

in favor of negro equality. The result in New York is an evidence of the temper of the people. Like. Connecticut, she has placed her seal of condemnation upon the weak and willainous Grant administration-an administration distinguished for nothing but its dishonesty and disregard of public sentiment. Yes, New York has spoken in tones of thunder against negro voting and negro equality. She is a power within herself, and the next thing she ought to do, and we hope will do, is to put at defiance the Fifteenth Amendment and , hang the cowardly. scoundrels who dare attempt to enforce its fraudulent provisions. A little more pluck on the part of white freemen would soon bring New England cowards to their knees and cause them to

sue for mercy. Would that we had a State election in Pennsylvania this fall. We feel satisfled we would carry it by twenty-five or fifty thousand majority. We would teach New England infidels and mis cerenationists that the old Keystone too feels the insult that has been placed upon her escutcheon, and, like Ne. York, is ready to cast from her shoulders the foul blot of negro equality.

Steady, Democrats; keep up your organization, nominate men of political and moral integrity for the various positions in the gift of the people, and we will sweep the Radical negro party out of existence.

JOHN COVODE says he is the father of the House of Representatives, which, if true, accounts for the number of scala wags which infest it. "Honest John Covode," whose notoriety consists in having slandered some of the purest and best men in the country, who has been guilty of more frauds than any other man we know of declines to be considered any longer a candidate for Congress. He well knows his own party is disgusted with his imbecility and utter worthlessness, and it is within the range of possibility, that his conscience may have been touched, for hibase conduct as Chairman of the late Republican State Committee, for it i confessed by Republicans in the confidence of that Committee, that the Demorracy was robbed of success in the late Gubernatorial contest by the foulest means, instigated and endorsed by Covode; indeed we are informed, he has exhibited evidences of compunction in this matter. It is past curing now, so attending the recent McFarland trial. far as the party is concerned, but not for repentance for the individual, as we are assured the vilest sinner may return.

THE NEW YORK ELECTIONS.-From latest advices, the Democrats have carried that State by large majorities, but at considerable loss over previous elections. It is said the colored men voted, with but few exceptions, the Republican ticket, showing that they are determined. to stand by their friends.—Shippensburg

"The colored men voted, with few exceptions, the Republican ticket," says the News. This is true, and we are glad stick; that Fisher then tripped him, the negroes voted as they did. Democrats have, from the first, opposed negro suffrage, and we are not going to stul-tify ourselves by asking negroes to vote with us now. Let them vote with the Republicans; we shall never ask them are ignorant and uneducated, and it is right and proper that they should affiliate with the men who associate with them. The Democratic party is the white man's party—the party of the Constitution-and if we cannot sustain our organization without negro aid,

then let us go under. THE Radicals made a desperate effort to carry the town of Elkton, Md , the other day. It is the home of the Ex-rebel Post Master General. He THE TARIFF SHELVED.

Congress voted the other day to post-pone the further consideration of the tar-iff, and this is considered virtually a iff, and this is considered virtually a shelving of the subject for the present session. The Democrats, true ito their record, voted consistently throughout the consideration of the bill, against affording protection to the American manufacturers. These fellows have a great fondness for taking care of the interests of poor men, provided those poor men are the citizens of some rival and foreign government.— Carlis'e Herald.

Why didn't the Herald go on and the election his paper, the Press, con- give the vote which consigned the tariff. to the shelf? The vote stood yeas 92, nays 77. Of those who voted in the affirmative—that is, in favor of "shelving the subject for the present session"-35 were Democrats; and 57 were Radicals, Beast Butler, the recognised leader of the Radicals of the House, being one of

them. The Radicals, having a two-thirds majority in both House and Senate, it is not very fair, not very "smart" in the Herald attempting to hold the Democrats responsible for the defeat of the tariff. Whatever opinion the Herald may entertain of the intelligence of its own readers, we take it for granted that they are not all fools. When they see the tariff "shelved for the present" in the House, where two-thirds of the members are Radicals, they cannot, by, any kind of legerdemain, be made believe that the Democrats were at fault. No. no : even our " new made citizens" are not quite green enough to be deceived by clap-trap like this.

For many years the tariff question has been the question on which the opposition in this State have descanted with so much warmth. Indeed, it is about the only subject they attempted to advocate before the people. "We are for a tariff, so that our manufacturers may be sustained, our resources developed, and our working people provided with employment, at good wages, the year round." This was their cry, and by this cry they inveigled into their support hundreds and thousands of well disposed men, who had not capacity sufficient to investigate this tariff swindle for themselves. But now that the tariff has been literally kicked out of Congress, those workingmen who voted for the Radicals because they supposed the Radicals were tariff men, are asking the aucstion—"How is this?" They feel that they have been cheated, lied to, humbugged, and they demand an explanation. The Herald's explanation will not do. It adds insult fo injury.

ANOTHER GRAB AT THE TREASURY There is a bill before Congress to indemnify "loyal" Southerners for losses sustained during the late civil war. Without discussing the intrinsic merits of this bill, we may say that, should it pass, and become a law, it will enable certain Congressmen, and their allies outside, to make immense fortunes. In adjudicating and paying the various claims, which will probably amount in the aggregate to many millions of dollars, a rich harvest will be afforded for the gentlemen who exercise influence at Washington, and this consideration, we dare say, will have more force in carrying the measure through Congress, than any sincere regard for the persons who are professedly to be benefitted, or for the justice of their respective claims.— Very handsome profits were made out of the pardon-brokerage business, and as that is almost played out, a new is now proposed in this project to make the national treasury responsible for damages suffered by alleged "loyal" men in the South during the rebellion.

He amassed a large fortune in the county in which he lived and died. Many years ago he bought large quantities of land in that section of the State, and disposed of them at cheap rates to actu-al settlers, he added very materially to its population and wealth.

He was a printer in early life. He also read law and was admitted to the Bar, and practiced with success. He was an intimate friend of Silas Wright, James Buchauan, Thomas II. Benton, Andrey Johnson, Caleb Cushing, Charles J. In-gersoll, Horatio Seymour and other eminent Democratic leaders. Ho was a man of most excellent judgment and his council was sought by such men as we have named because they considered it of great value.

Mr. Ward was an ardent Democrat He was not only a gentleman of the old school, but he was a Democrat of the old school. Mr. Buchanan offered him high honors during his Presidential term, but he declined them. In 1864 he was chairman of the Democratic State Central Committee, and: conducted the McClellan campaign with vigor In private life he was held in highes esteem. He was fond of literature and devoted himself to his books out of pure love for them. He was inflexi bly honest in his business transactions. The death of such a man is indeed a loss to the State. True, he had ceased to mingle actively in political affairs, but when death came to him, he struck a shining mark at which the younger men of the Commonwealth might well have looked as an example of purity, wisdom and patriotism.—Valley Spirit.

The election in the State at large was held under the judiciary amendment to the Constitution which was ratified last fall, at the same time that a revised Constitution as a whole was rejected by the people. The election was conducted in a peculiar manner, devised for the purpose of preventing either of the great political parties from obtaining entire control of the court of last resort. The Chief Justice was to be voted for by every elector, but for the positions of Associate Justice, each elector was to cast his vote for four candidates only, and the six who received the largest number of votes are to be declared elected. Whichever party, therefore, carries the State, the opposite party is bound to be represented on the bench of the Court of Appeals by at least two judges.

ALBANY, May 21.—The Argus of to day figures up a majority of over 80,000 votes for the Democratic ticket on Tuesday for the Democratic ticket on Taesday last. The reaction against radicalism is sweeping and complete. Every dispatch from the rural districts is better and better. The farmers of Cayuga, Jefferson, Cortland, Wayne, Schuyler, Erie, Genesee, Orleans, Monroe and in fact everywhere, gave Governor Church their solid strength. In one rural district in Cayuga county where fifty-three farmers voted, only four of them voted the Republican ticket.

will be over \$0,000. The Radicals took pains to have the negroes registered. Not a name was omitted from the lists. They were also instructed as to the importance of showing their strength on this occasion, and making their influence fet at the ballot box. Further than this, they were told to drive from the ground any black man who dared to vote the Democratic ticket, and the Tribune chronicles, pleasantly, the fact that some heads were punched belonging to coloped without the same heads. All these facts beruld in a most overwhelming victory Democratic candidates. All these facts herald in a most overwhelming victory for the Democratic party.
