

American Volunteer

CARLISLE, PA., Tuesday Morning, June 2, 1870.

RATES FOR ANNOUNCEMENTS OF CANDIDATES.

As the several candidates for the various offices to be voted for this fall will be inserting their cards shortly, we deem it proper to publish our rates for their insertion for the two months prior to the August primary election.

For one insertion, \$1.00; for two insertions, \$2.00; for three insertions, \$3.00; for four insertions, \$4.00; for five insertions, \$5.00; for six insertions, \$6.00; for seven insertions, \$7.00; for eight insertions, \$8.00; for nine insertions, \$9.00; for ten insertions, \$10.00.

A FRAUD AND A LIE FROM THE FENIAN.

The Republican Radical negro party established its existence by double dealing and every principle, every name, every idea now advocated by the leaders of that pie-holed party, was denied, repudiated and condemned during the campaign preceding Lincoln's first election.

Perhaps there never was in the history of parties, in this or any other country, a more perfecting, a more dominating, a more Republican-Radical fact than this very Republican-Radical fact.

The Fenians have made another raid upon Canada and met with another glorious defeat. They concentrated at St. Albans, Vermont, to the number of five hundred; and at several other points along the line, numbering all told, about two thousand men.

The Congressional Committee on the District of Columbia have agreed to report favorably upon the question of mixed schools. In other words, negro children are to be forced on the same bench with white pupils, and social equality established by compulsion.

The PEOPLE WILL RULE.—In city and country the Democratic party is a unit in opposition to the fraudulent and infamous Fifteenth Amendment. Yes, there is not a break in the line.

From Congress the past week there comes nothing that is cheering. They have done nothing for the people, and they are not doing anything for the people.

RADICAL TYRANNY.

The debate in the Senate last week, on the bill to enforce the Fifteenth Amendment, shows very plainly that the Radicals, led by Senator Morton, are disposed to hold the South in subjection to the Republican party, by perpetuating the political disfranchisement of thousands of its white citizens.

Another alternative, brutal party that has been in the Lincoln reign of terror, and their admiration of "free speech" was equally enthusiastic, for in the face of law, the Constitution and decency, arrested and sent to prison and fairs, where they were nearly starved to death, and some of them died.

Such were the professions, such the Radical-Negro party. Every six months a new standard is set up for the guidance of its members.

Finally General Meade and General McDowell arrived on the ground, with a force of one thousand U. S. troops. The Fenian struggle was dismissed, and their leaders were arrested and committed to prison.

The Washington authorities think there will be no Indian war. This, if true, is a relief to the gallant soldiers who are so anxious to have the red man exterminated. If true, it will extend the lease of life held by a good many Indian women and children, who in case of war, owing to Sheridan's presence in the territories, would be in most imminent danger.

The bill presented by Mr. Cox, the other day, providing for a general amnesty, was defeated by the very close vote of 56 to 53. That shows that there is a small majority of Radicals in the Lower House of Congress who are opposed to giving the white men of one half of this country right equal to those enjoyed by the negroes.

A NEW POLITICAL MOVEMENT is reported to be organizing in Ohio. A great number of war Democrats who voted for the Republican party during the war, are now anxious to get back again, and are making overtures for that purpose. It is asserted that a correspondence has been entered into between leading politicians of that State with a view of effecting an alliance.

The "War Democrats" of Ohio are taking measures to effect a re-union with the old Democracy, having become sick of the low rickety to which the Radical leaders have resorted to retain their ascendancy.

AFTER THE NEGRO VOTE.

The Chambersburg Spirit says: Some weeks ago we stated that immediately after the passing of the proclamation announcing the ratification of the Fifteenth Amendment, John Cessna began a correspondence with the colored men of Chambersburg, with the view to procuring their votes.

Dear Mr. C.: This package of speeches is from Hon. John C. Cessna, who writes that you distribute them among the colored voters of Chambersburg. They are the speeches of Hon. J. B. Cessna, U. S. Senator from Miss., the only colored man who has held that very high and exalted position.

Senator Sumner introduced and Congress has passed a bill to enforce, by heavy pains and penalties, the rights of the whites in all places of public amusement, churches, cemeteries, and all benevolent institutions incorporated by national authority, all hotels and inns, and in all common schools and other public institutions of learning.

Another alternative, brutal party that has been in the Lincoln reign of terror, and their admiration of "free speech" was equally enthusiastic, for in the face of law, the Constitution and decency, arrested and sent to prison and fairs, where they were nearly starved to death, and some of them died.

Such were the professions, such the Radical-Negro party. Every six months a new standard is set up for the guidance of its members.

Finally General Meade and General McDowell arrived on the ground, with a force of one thousand U. S. troops. The Fenian struggle was dismissed, and their leaders were arrested and committed to prison.

The Washington authorities think there will be no Indian war. This, if true, is a relief to the gallant soldiers who are so anxious to have the red man exterminated. If true, it will extend the lease of life held by a good many Indian women and children, who in case of war, owing to Sheridan's presence in the territories, would be in most imminent danger.

The bill presented by Mr. Cox, the other day, providing for a general amnesty, was defeated by the very close vote of 56 to 53. That shows that there is a small majority of Radicals in the Lower House of Congress who are opposed to giving the white men of one half of this country right equal to those enjoyed by the negroes.

THE SCHEPPE CASE.

Argument in the Supreme Court. REMARKS BY JUSTICES THOMPSON AND ANSWER.

The Decision Reserved.

The case of Paul Scheppe, plaintiff in error, vs. the Commonwealth of Pennsylvania, defendant in error, was argued in the Supreme Court on Thursday, and at a special session was taken up about half past three in the afternoon.

Mr. Hepburn, Jr., opened the argument by contending that the constitutional provision gives the legislature of Pennsylvania the power to pass the act of assembly it has passed bearing upon this subject. He principally reasoned to show that the court below seriously erred in the treatment of the evidence of the medical experts; that the law had been rightly interpreted in the case.

Mr. Maglaughlin, Esq., followed S. Hepburn, Esq., for the defendant in error. He insisted that the plaintiff in error had been misled by the evidence of the medical experts; that the law had been rightly interpreted in the case.

Chief Justice Thompson observed that the counsel for the Commonwealth has asked the court to reserve the decision. He said that he was not attributing any fault to counsel on either side, but that he was not attributing any fault to counsel on either side.

Mr. Maglaughlin rejoined that he was not attributing any fault to counsel on either side, but that he was not attributing any fault to counsel on either side.

Mr. Maglaughlin rejoined that he was not attributing any fault to counsel on either side, but that he was not attributing any fault to counsel on either side.

Mr. Maglaughlin rejoined that he was not attributing any fault to counsel on either side, but that he was not attributing any fault to counsel on either side.

OUR WASHINGTON LETTER.

A Congress of Democrats—More of Forney's Strength—Negroes in Office—A Drive in the House—A New Railroad Bill.

Congress has been in continuous session for five months, and scarcely one measure has been fully matured. The House overhauled the franking privileges, but the bill sleeps in the Senate. The House passed McCullum's Motion bill, but the Senate seems disinclined to touch it.

Speaking of the Georgia bill, the investigation into the means resorted to to pass it, has placed Mr. Forney in rather an unpleasant position. The Chronicle has alleged several thousand dollars for alleged advertisements and job work, and Forney, under examination, found it difficult to satisfy the committee that he had received the customary price for the work performed.

Mr. Miller then proceeded with his review of the law and evidence in the case of Scheppe, contending that the act of 1850 covers all cases of murder by poison, and that the act of 1850 covers all cases of murder by poison.

Mr. Miller then proceeded with his review of the law and evidence in the case of Scheppe, contending that the act of 1850 covers all cases of murder by poison, and that the act of 1850 covers all cases of murder by poison.
