Perhans no session of the Legislature that has met for years, had so important a political duty to perform as will the next session that meets at Harrisburg. Its principal work, aside from the regular routine of legislative enactments will be the re-districting of the State Into Congressional, Senatorial and Representative districts. Upon the manner in which'this is done, will de pend much of the future prospects and benefits of the Democratic party of this State. Another villainous apportionment like the last ones were, and our party must remain in a hopeless, helpless minority in the Legislature of our State for the next seven years, and in its Congressional representation for ten years to come. Although there are but little hopes of our having a majority in the next Senate and House, yet much can be done towards securing a fair apportionment by the proper selection of Democratic representatives. What wenced at Harrisburg next winter, is sharp, energetic, experienced legisla

DEAD AND LEVING INSHES.

We are ardent and zealous believers n progress, in the moral, social, religious and political point of view. We have, says the Pullsburg Post, no faith in he man who would lock the wheels of the car of Progress, as it is being propelled up the steep declivity of Destiny. But there is quite a difference between progress and innovation. The man who mistakes the latter for the former nay flourish in the twilight a sa prophet, but he will collapse like a convolvulas in the very first rays of sunlight Accomplished facts are not always eternal monuments. Consumated iniquites and perfected crimes do not eventually escape the retributive sword of justice. Had such a proposition been accepted in the affirmative, the memory of Judas Iscariot, insiead of being execrated throughout Christendom, would have been perpetuated in brass and marble. The right is always the right, despite

the fact that it may be trampled down for awhile. The axiom that revolutions never go backward is a false one, as a rule. If it is true that history repeats itself, it is equally true that revolutions etrograde, and carry peoples and naions backward, and leave them upon he very stepping stones of progress. This is but the epitome of all past history. While revolution has built up and civilized nations, it his likewise azed the foundations of others, divided community and disintegrated and uncivilized society. While revolution may mean progress, it may assume a different phase and mean retrogression. The boasted progress of the Radical party in this country is only so many steps back into the past. We are nearer to a despotism now than we were in 1776. As infamously oppressive as were the schemes of Lord North, and which were carried out by the British Parliament against the then Colonies, there was nothing half so oppressive, half so insulting, half so domineering as the conduct of the Radical party to-day. In four score years we, as a nation sprang from mere dependencies to the grandest and freest nation that the world ever saw. In less than half a core of years the Radical party, the natural progeny of the Federalists, who were the lineal descendants of the Tor ies of '76, have so far reversed the order of things that the American nation stands upon that line that the merest chance would again transfer it inside the limits of a worse despotism than the Revolutionary fathers so successfully battled against. The state of the case is only too apparent to every thinking man. Trace the history of every leading adherent of the Radical party and you will find that they spring from a party who believed in the divinity of

kingly unction. But our main point is that consummated iniquities are not dead, issues, and that the rashest battalions rush into the ambuscades. Camp kettles and baggage trains, with all their weight and unweildiness, have saved more campaigns than hot headed battalions, in light marching order, ever dreamed

of winning. Simply because the leaders of th Radical party have trampled the rights of the white men of America into the dust, it does not follow that they are to fawn upon the oppressor. It devolves upon them to gain what, they have lost; and when it is declared that the social as well as the political barriers existing between the Caucasian and the African rates must be wiped out, and that the laws must compel a general commingling and interminging of the two recov it is about time that the living issue be made that this country, which more than any other country has propogated and advanced civilization and useful art, shall not be degraded to the level of semi-civiliza-

tion.
This is peculiarly the country of the involves to many interests to be hampered by the cry of dead issues or ac-

cepted facts in partison politics.

It is the duty of the Democracy to undo the revolutionary innovations Radical party. The cry of dead issues great principles involved, has been deis mere puerility. There can be no temporizing indulged in. Santa canunder his nose. He must be fought with his own weapons.

ORGANIZEI

It is not to early to begin organizing for the fall campaign. The work should he commenced now, and carried on with energy and vigor until success crowns our efforts in the fall. In every election district there should be me appointed to distribute documents, paers and speeches. The whole matter of the difference between the two parties should be Itid before the people. We need not shrink from it. In fact we may court it. While the action of our opponents has shown such a total disreard of the rights of the people, our action has been in conformity with the pledges made to the people. With this nct, we say we need not fear to go before the people and advocate our claims.— We trust every Democrat will at once hegin to work, and work faithfully and earnestly to the end.

In It is very evident that the move ment of the people in favor of the WHITE MAN'S PARTY is annoying to the Radicals. They didn't expect things to take this turn exactly, and the facthat the Democracy are daily and hourv receiving converts from their party s very distressing to them. But so it is. The white people of the country have determined that inasmuch as negro suffrage has been forced upon them against their will, they will take steps to prevent the entire degredation of the white race in this country. They wan no mongrelized government, as in Mex ico, and have resolved that pure Cauca sian blood must rule in this land. Henc the formation of the WHITE MAN'S PAR TY, a party that is bound to win, and thus save the Government which our patriotic torefathers instituted, from utter prostitution and ruin.

THE SENATE.—The elections this vear are to decide not only the character of the next House of Representatives, but also, to a certain extent, that of the Senate. Twenty Senators will be elected by the next State Legisla tures. The Senators whose terms expire on the 4th of march next are Morrill, of Maine; Cragin, of New Hampshire; Wilson, of Massachusetts: Anthony, of Rhode Island; Cattell, of New Jersey; Willey of West Virginia: Johnson of Virginia; Abbott, of North Carolina: Robertson, of South Carolina; Fowler, of Tennessee; Grimes, of Iowa: Howard, of Michigan : Thaver, of Nebraska : Ross, of Kansas; Yates, of Illinois; McDonald, of Arkansas; Revels, of Mississippi; Williams, of Oregon; Harris, of Louisiana; Warner, of Alabama; Saulsbury, of Delaware; McCreery, of Kentucky; and Norton, of Minnesota. The outgoing Senators are all Republirans, except Sau'sbury. McCreery and Norton. The seat of Mr. Fowler, has already been filled by a Democrat, that of Mr. Grimes by a Republican. The Democrats will probably lose one Senaor in Minnesota, and gain one in New Jersey, Oregon, and perhaps one or two Southern States. In many of the ates the contests will be spirited, for personal as well as for political reasons.

Congress passed a law recently, under which "aliens of African nativity, and of African descent can become naturalzed." Thus the Hottentots and pagans of Africa can now become American citizens, and also voters, as well as the negroes already in the country. The radical press is in ecsta-y over this prospective addition to their voting force. but some of them declare that they are sorry that the doors were not opened at once to the whole world-Chinese and all. These savages and barbarians are all wanted as voters to make up for the efection of white voters from the Rad

WAR IN EUROPE.

From present indications Europe i about to be precipitated into a bloody and the reigning family of Prussia, and the of, or at least in friendly accord with, that of Prussia, and possibly hostile to France, Napoleon at once remonstrated, and demanded the withdrawal of Leonold. King William of Prussia, as head of the Hohenzollern family publicly withdrew the name of Leopold, but at the same time declared that as Prussia had nothing to do with the candidature of Leapold. the government had no acknowledge ment to make. Napoleon then deman ded that Prussia should disavow the candidature of Leopold, and make his withdrawal permanent. King William declined to receive the embassador, and answered him, through a messenger, that e had no further communication to make. The French embassador demanded his passports and went home. France then formally declared war against Piussia, and began moving immense bodies of troops towards the Rhine, while Prus sin accepted the wager of battle, and prepared to invade France. All this was the work of a few days. What has since occurred may be gathered from the

"Do not be too much impressed," Bismarck continues in his despatch. "We are ready to prolong the situation, if pos-ible, to the 20th of July." gain time.
