JURY COMMISSIONER JOSEPH GALBRAITH. OF DICKINSON TWP. CORONER, DAVID SMITH,

OF CARLISLE. THE CONGRESSIONAL QUESTION-

A telegram from Newport to the Morning Patriot announces that "R. J. Haldeman was nominated by acclamation for Congress in Perry county, thus determining the result in favor of Haldeman, he having two out of three counties." In view of this action of the Perry county convention, we desire to reiterate the views expressed by us last week. The nominee for Congress being conceded to Cumberland county, and the Democratic party of Cumberland county having named John B. Bratton. we will in no event accede to the nomination of Mr. Haldeman. If Perry county joins York county in this insolent attempt to dictate to us who shall be our nominee, it cannot fail to lead to misunderstanding, confusion and disas ter in the future. There is neither fair ness, honor, justice nor courtesy in the claim made by York and Perry counties to nominate a candidate in our own county in opposition to the expressed will of our people, and it would be dishonorable in us to submit to the claim From every district in this county, and from leading Democrats of character and position in the other counties, comes the injunction to us to stand firm, and this is what we intend to do. We have no disposition to threat or bluster, but at the same time we have no disposition to be trampled on. The Democracy of Cumberland county believe that they have the right to name the candidate for Congress, and they have no intention to tamely yield that right.

We trust the conferees will be governed in their action by higher motives than personal feeling for any mere man. This question has now assumed graver proportions than those of personal preferment. It is a question of right, justice and courtesy to Cumberland county, and as such the conferees will have to decide it, and for that decision they will be held to a strict responsibility. John B. Bratton is the regular nominee of Cumberland county for Congress, and those who placed him in nomination will never consent that another who claims to be a resident of our counover Mr. Bratton's head. We fancy the givestrength to the ticket. Such is emihave no respect for us if we submitted to such an outrage, and we beg the conferees from York and Perry to carefully consider the issue involved before they take action which may endanger our representation from this district. The next Congress will be too evenly balanced to premit the Democratic party of this district to suffer defeat, and those persons who, to gratify their own personal ambition, are introducing dissension into our ranks will have a fearful responsibility to meet if their efforts at disorganization should end in disaster.

NEGROES IN THE NEXT CONGRESS. It is likely that there will be quite a number of negroes in the Lower House of the next Congress. In the South Carolina Republican State convention, which was under the control of the loyal thief Whittemore, the determination of the negroes to demand a full share of the offices was clearly manifested. The prospect now is that the negroes will elect two and possibly three Members of Congress from South Carolina, and they are determined to send one of their race to represent the State in the United States Senate. Negroes will also be likely to put in an appearance from other districts in the Southern States where they are in the majority. They are not willing to vote for white carpet-baggers and scallawags any longer.

WHITE Workingmen, we would ask you to look around you, to stop a moment and reflect. You see the nigger being placed upon an equality with your socially and politically. You see the Coolie coming like locusts to despoil you of your heritage, and bringing " pinching poverty" to your once happy homes. And who is responsible for these evils already upon you? The madical party! Can you act with it longer?

THE Radicals in North Carolina have organized a reign of terror more tyrannical and bloody than that of the French revolution. The officers of the radical militia, encouraged by Grant and Holden, say that hanging the citizens up is "the only way to make them confess." There will yet come a day of reckoning for the blood-thirsty scoundrels.

THE Indians in the West are trying to prepare the settlers to endure the warm weather during the summer, by removing what surplus hair they may be encumbered with. The settlers are asking for more troops, to help them retain their auburn locks.

THE Democratic Congressional Committee has now fully organized, and is engaged in distributing documents.

THE Democratic victories for the season have been ushered in by a Waterloo victory in Covington, Ky.

Gold was quoted in Philadelphia, on Tuesday last, at 117.

OUR TICKET.

As a matter of custom we feel called upon to ellude in detail to the several names on our county ticket: though this seems scarcely necessary, as all the gentlemen named are well known in the Speaking of the nominee for Congress

the Valley Democrat says: "Mr. John B. Bratton, the nomined for Congress, has been for the past quarter of a century the editor of the Carlisle Volunteer, the organ of the democracy of "Old Mother Cumber and;" and to his steadast adherence to the principles of the democratic party during the rebellion is mainly du our ascendency in the county at the present time. During the war, Mr. B.'s printing office was mobbed by the minions of the Lincoln administration, and totally destroyed. Mr. B. deserves and should receive the support of the democracy of the district."

The New York Star, under the edi torial management of our talented young friend Höratic C. King, says:

"John B. Bratton is the regular Democratic nominee for Congress in the Fifteenth Congressional District, now represented by Hon. R. J. Haldeman, Mr. Bratton has been for many years the editor and publisher of The Carliste Volunteer, is a most estimable gentleman, and will represent the district with credit. The Democratic majority is usually three thousand and his election is therefore sure."

John B. Leidig, Esq., the nominee

John B. Leidig, Esq., the nomince for the Legislature, represented this county at Harrisburg last winter. He is a firm and uncompromising Democrat. In the present aspect of political affairs it is important that we should secure the Legislature, as upon it will devolve the duty of making the Conressional and Legislative apportion-

nent. James K. Foreman, of Southampton, our candidate for Sheriff, is a young, nergetic Democrat of the Jacksonian School, who won his place on the ticket by building up a character for strict ntegrity, indomitable perseverance, and fine business qualifications. He is house-builder by profession, and vherever he is known has hosts of

friends. David Dietz, of Hampden, our candidate for Commissioner, is one of the most estimable gentlemen in Cumberland county, and just the kind of a man he people want to put in the Commissioner's Office. He is widely informed, has admirable judgment, and is actu ated by principles of the strictest integrity. He has truly at Heart the interests of the county, and does not seek the office as a means of livelihood.

Joseph Galbraith, our candidate for Jury Commissioner, is a farmer of Dickinson township, whose name was announced at the suggestion of several of his friends, and was received with so much favor that he was nominated without opposition. No one could have been selected better qualified for the position.

Jacob Hemminger, our candidate for Auditor, is a Justice of the Peace in Mt. Holly, and in his present position has manifested excellent business qualifications. He is admirably suited for the office for which he has been named. David Smith, Esq., has been Coroner of the county for many years. He is always nominated unanimously, and elected with but little opposition. In fact no better compliment can be paid to the gentlemen named for the last three positions than the fact that the emoluments of their offices are so trifling as to lead no one to aspire to them, and ger tlemen are generally nominated ty shall be nominated by the conference several localities will be calculated to whose positions and characters in their nently the case with our present ticket.

Democrats of Cumberland county, we have nominated our ticket, now let us make up our minds to elect it by a good round thousand majority. We gave nine hundred majority last year, and with the great change in public sentiment manifesting itself in our own immediate locality, and which within a few n'onthe has swept like a tornado over, New York, Connecticut, California, New Jersey, Kentucky, North Carolina and other states, we are satisfied we will largely increase our majority in Cumberland county, even with the entire negro vote thrown against us.

Amendment as a "shameless mockery, having been consummated by fraud in the Northern States, and by the tyranny of the Federal army in the South," and resolutions declaring this to be "a white man's government, made by white men for white men and their posterity," and the fact of hundreds of men, who have heretofore always voted the Republican ticket open-ly avowing their intention of hereafter voting the Democratic ticket, shows that this feeling is not solely confined to the ranks of the Democracy. THE DOOM OF RADICALISM.

The Radicals through their leading journals, betray their alarm at the political signs of the times. The North Carolina election even more than the elections in Connecticut, New York, Oregon, Tennessee, etc., has excited their worst fears for the future, for it foreshadows their defeat throughout the South, notwithstanding their carpet-baggers and colored recruits. North Carolina was their stronghold in the South, as Tennessee had been, and now the "Old North State" has followed Tennessee and Virginia in a thorough epudiation of Radicalism. That most, not all, of the other Southern States will "go and do likewise" is so probable that the Radical leaders are sorely scared. They are apprehensive, not only that they will lose the Presidency in 1872, but that they will lose the next Congress, great as is their majority in

the present. A delegation, almost solid, of Conservatives from the South, with a few negroes to represent the Radicals, will have a healthy effect in Congress and upon the country.

The Southern representation in the

next Congress will afford an eloquent commentary upon the machinations of he Reconstructionists, who have been for years prostituting the powers of the Federal Government to a system of econstruction framed to perpetuate their own rule in the South. Negro voting, white disfranchisement, the Freedman's Bureau, the army and local militia, were all instituted and employed to fasten Radicalism permanently upon the States of the South and to give the Radical party control of the dovernment for an indefinite term, they elected one President, forced through their amendments, and secured strong majority in Congress by means of these agencies; and now all their deep laid schemes and fond hopes for the future are upset. Their policy and conduct have been so odious and outrageous that even those who were intended to be made, partakers of the poils have become disgusted and turned against the corrupt managers of the Radical machine. Even the more in elligent negroes have become ash med of the outrageous course of their friends, and now repudi te the carpet-baggers and support men and measures favorable to the interests of their section. It is safe to say that four fifths of the Southern Representatives elected to the next

Congress will be opponents of the Radical party; and this revolution will, of course, lead to the election of a considerable number of Conservative United States Senators, and of nearly, if not quite, all the Conservative electoral tickets in the South in 1872. This revolution in the Southern States and the great gains by the Democrats in the North promise to carry the next

Congress against the Radicals, to elect democrat to the next Presidency, and to put an end to Radical rule forever. The leading Radical journals foresee this, and some of the more candid of them virtually confessit. Connecticut, New York, New Jersey, Delaware, Maryland, Kentucky, California, Oregon, Ohio, and Pennsylvania may be set down as certain in 1872 for the Democracy, with Maine, New Hampshire, Nevada, West Vi ginia, Missouri, Indiana, Illinois, and some of the other Western States very doubtful for the Radicals, and with the whole South for the Democracy. Saltpetre, Sambo and the "Second Washington" combined cannot save the Rad cals in '72. Their party is falling to pieces from its own ttenness, and soon nothing but its ghastly skeleton (hanging from the

From all quarters rises a complaint that the detectives who are working up the Nathan's murder are slow, stupid, and worthless. It is alleged that the Paris roughs are paid for getting up war demonstrations. The Paris Pays publishes a letter from Charles Desmoutins, dated at Nancy, demouncing the Emperor's bad management. He says: "MacMahon, gallantly struggling, was beaten for lack of support, though there were multitudes of armed Frenchmen at hand to save him. The passage of the Rhine was undefended.
