IMPROVEMENT.-Carey W. Ahl, Esq., has rebuilt the western portion of the flouring mill, owned by him, located east DURING this and next month there will

an agricultural fair held in almost every county of this State. Dauphin is an exception. TRIAL.-The "Union" boys had their steamer down at the Letort, on Saturday

vening, giving it a trial. The machine still continues to be as great a squirt as ever. In many parts of the United States considerable dissa'isfaction exists with the census gatherers, who find that their

positions are neither honorable or remunerative. OPPOSED To IT.-We understand the clergymen of the various religious denominations of our town have joined in a petition to have the Sunday evening

continued. A CHANGE.-Now that we have all got through grumbling about the warm weather, we can give expression to our pent up feelings in regard to the present cold nights and frosty mornings. How hard it is to suit some folks!

parades and concerts at the Garrison dis-

IT IS A good sign for the cause of woman that the salaries of lady teachers are rapidly being increased in every section of the country. This result has not been effected through the exertions of Susan B. Anthony or Lucy Stone.

THE coming hat for young ladies is said to be high colored plush, a high crown, trimmed with bands of velvet of a darker shade, and a plume, of course, "With a iockey hat and feather !"

Counterfeit twenty dollar greenbacks are so common that men are frequently arrested for passing the genuine bills, they being inferior in workmanship to the counterfeits.

THE events of the day are almost as rapid as lightning itself. A man to keep up with these exciting times must subscribe and pay for some good paper, (the Volunteer, for instance,) and read himelf 🦐 every day.

LAST week the police of the borough nade a raid, under orders, on the school boys, and confiscated a number of dangerous playthings, made of gum elastic, and called, we believe, "calupsus."

THE weather has undergone a sudden change. The mornings and evenings are juite cool; linen sults and straw hats are being taid aside, and good fires are quite comfortable.

TOMATOES .- The supply in our market of this delicious esculent has been and is yet very limited. So scarce is it that our arndent housewives are fearful that they will not be able to put up for winter use as many cans as they would wish.

MANY of the newspapers of the Jenkins stamp are very jubilant just now on account of the downfall of Louis Napoleon. Had he been successful, these same Leditorial flunkies would have been the first to laud him to the skies.

TRUE -- People who think themselves weather-wise are already predicting an musually cold winter. If they had prom sed us last spring an uncommonly hot summer, we should have more faith in their foresight.

IT SEEMS to be quite impossible to impress the fact upon the public mind that kerosene requires to be treated with nearauch of industry. His manu- ly as much caution as gunpowder. Acci- per, neutral in politics, being devoted to dents from its use are chronicled daily all over the country.

LARGE PEAR.—We were shown a pear ecently, grown in the garden of the senior editor of this paper, which was a fine specimen of this variety of fruit. It had ripe and luscious look, and weighed within an ounce of one pound.

CAMP-MEETINGS are about over for this eason. There seemed to be much more attention given to these meetings this year than at any previous time, and no doubt much good will result from them. A DECISION of the Internal Revenue

Commissioner requires merchants to pay taxes on their sales until next May, and not merely until October. This important ruling will doubtless arouse protests from the merchants throughout the entire country.

TIMELY NOTICE.—Our business men in Fair, should order it at the present time. There is a great rush, generally, at the time of the Fuir, so that it would be well for those who desire job work of any description to order it now.

POTATOES .- The potato crop is now be field has been the result. The quality. too, of the potato is said to be excellent. With a plentiful supply of the mealy " Murphys," the poorest need not fear a famiue.

THE Soldiers' Orphans of the various schools throughout the State have again returned to their duties, after a vacation of 'six' weeks, prepared to resume their studies with renewed energy. The school at White Hall, in this county, is now in successful operation.

THE census takers in different parts of the country are collecting some/very cu rious information. They find that the is liberal. An unusually full highest age attained by unmarried women is twenty six years. It is well to have the point at which they cease growing older definitely fixed.

GLAD TO HEAR IT .- The Treasury Department at Washington is anxious to withdraw from circulation all its mutilated promises to pay. This will be good | Bob. McCartney. news to business men and to the people generally, as the dilapidated trash has secome a great nuisance.

WILD PIGEONS have made their appearance in our valley. These winged pot pie victims are making heavy raids on the late blackberries, and are thus renphia, on Saturday last. He dering themselves in good condition for the culinary department, as well as placing themselves within easy range of the sportsman's artillery.

Our market on Saturday morning last was well filled and well attended. Beef, pork, veal, mutton and lamb were very abundant, while butter, eggs, fruit, vegetables, &c., were there in large quantities, and at prices to suit the times. Indeed wo years of age, and had been it is conceded that Carlisle has one of the best country markets in the State.

CARLISLE has a population of 6,630-an increase of 908 over 1800. The females beat the males over five hundred. A shance for the "sterner sex" of Harris-

burg .- Patriot. We scarcely think so. The young men of that aspiring city are not celebrated for either gallantry, courtesy, morality rele of relatives and personal or good looks. Our Carlisle "gals" know which is which.

DEATH OF HON, W. H. MILLER, - It is with sincers sorrow we record the death of Hon, William H. Miller, of Harrisburg, who departed this life, at his residence near that city, on Monday evening last. He was in his usual health on Saturday last, but was taken with congestive chills on Sunday, and died after an illness of forty eight hours. The Morning Patriot "William H. Miller was the son of the Hon. Jesse Miller, who bore for many years a distinguished part in the politics f Pennsylvania. He was born in Landisburg, Perry county, where he passed his early life. After graduating at Franklin College, Mercersburg, he studied law, and was admitted to practice in Bloomfield in 1850. He was Prothonotary of the Supreme Court of Pennsylvania from 1854 to 1863, and was for one session Clerk of the Senate of Pennsylvania. In 1862 his popularity was evideed by his election to the Tairty eight Congress by the peo ple of this district in the face of a heavy party majority. For a number of years

He died in his forty-second year, in the prime of a busy and useful life." General Miller was a man of far more han ordinary merit. He was a good awyer, a ready writer, a forcible and loquent speaker. He had no word of ompromise for his foes, and to his friends ne was as true as steel. His public career was untarnished by a single breath of suspicion, and in private life his utterly unselfish disposition won for him the eseem of all who knew him. In this place, where he had hosts of friends, his unimely demise is universally lamented.

WE MEAN YOU .- Why don't our sub eribers pay up more punctually? We have now on our books several thousand dollars in sums of from \$1 up to \$15 or \$20, which amounts are due and ought to pe paid. Our subscribers are too much scattered for us to call on each one with his bill, but it would be very little trouble to them to forward their money to us, by mail or otherwise. We have need of the money, and wish every one who reads this, if he is owing, to send the "greenoncks" right along. We are now engaged in sending out bills-how many of our patrons will respond?

MIND THIS.-Now is the season to advertise. Business will soon take a fresh start. The people should be made acquainted with your business in advance. The "VOLUNTEER" goes into about 2,000 tamilies-making it a valuable advertising medium. Enterprise, good judgment and experience dictate that you should use the printing press to promote your business interests. The popular weekly family newspaper is your best medium. It is generally thoroughly read by every one in the family-in many instances is is all a family has to read for the entire week-and when anything is wanted their

newspaper is usually consulted where to buy. Bear that in mind! THE New Bloomfield (Perry County) Times gives evidence of increased prosperity. It is now printed on a "Potter" power press, its circulation having beome so extensive as to demand increased facilities. The Times is an excellent naerature, news, and the local interests of its own section. We are always glad to notice such evidences of the prosperity of our brethren of the press. The Newport News says, "this is the first instance of printing being done by steam in Perry

county." COAL - We invite attention to the card of George Zinn, Esq., in another column, offering the greatest inducements to those wishing to lay in their winter supply of coal. As the cold weather will soon be here, and as it is thought by many that the price of coal will steadily advance, merchants, hotel-keepers, business men, and housekeepers generally should at once call at Mr. Zinn's place of business and examine his stock of coal.

THE SHENANDOAH VALLEY RAIL ROAD .- On Thursday last ground was broken on the Shenandoah Valley Railneed of job work for the coming County | road, near Front Royal, Virginia. This road is to connect with an extension of the Cumberland Valley road at Shepherdstown. On the occasion refered to a large crowd was in attendance, several addresses were delivered, and a grand banquet was partaken of. Messrs Collins ng taken up, and thus far a pretty fair & Co, of Philadelphia, are the contractors; and the road is to be commenced immediately and completed within two

vears. Now Decreasing .- The length of the September days—or, at least, the daylight portion of the hours-is perceptibly diminishing. Other sad reminders of the waning year in silver leaflets and sombre shadows are also making themselves seen and observed; and happy if not to be envied are those fortunate ones who can look back upon the past season of spring and summer with complacency and co tent, and greet the future with undi-

minished hopes. Good Picture.-Lichman has taken splendid picture of the Volunrees building, which may be seen at our office. Among the notabilities visible are the junior and senior proprietors, Dave Zug, Charley Showers, Charley Sanno, Ed. Showers, "Dad" Mell, Sam. Gould and

ELECTION.—On Monday of last week, an election was held at the "American House," in Mechanicsburg, for a Board of Managers for the Allen and East Penns borough Fire Insurance Company, which

resulted as follows:
William R. Gorgas, A. Cathcart, John Reigel, D. Neiswanger, C. Stayman, J. H. Coover, Joseph Wickersham, J. Elchelberger, M. Bricker, J. B. Coover, Martin Mumma, John Mumper.

VISITING SCHOOLS.-It is the du parents to manifest some further interest n the school work than merely to send heir children thither. The teachers want their co-operation. The scholars need the encouragement of an occasional visit. If parents talk with their children at home freely about their schools it is well; if they visit the school room occasionally and seem interested in making a pleasant thing of learning, it is much better. The presence of the father or mother at the child's recitation once a month, will have salutary influence on both teacher and child. Even the parent will be benefited His or her attention will be awakened to questions which might otherwise go unthought of for years, and which have practical bearings on the mind.

FRIGHTFUL RAILROAD ACCIDENT Two Persons Instantly Killed. -The pasenger train on the Lebanon Valley raiload which leaves here at four o'clock in the afternoon, yesterday ran into a two orse team at Annville, twenty miles east of this city, and killed a man named Bolenhorn and his grandson, who were in he wagon at the time of the terrible colision. The horses were killed, and one of them was thrown a distance of about one hundred yards. The wagon was thoroughly demolished. Mr. Bodenhorn and grandson were residents of Annville. Patriot.

THE PRICE OF WHEAT -Farmers who re waiting for a rise in the price of wheat nay be interested in knowing that in the grain Warehouses of Buffalo on the 15th of August, there were 5,111,670 bushels of wheat, while last year, at the same date, there were only 1,400,102 bushels, showing an excess this year over last of 3,711,-568 bushels. This does not look anything like a short crop throughout the West.

HUMAN REMAINS.-The Mercersburg Journal says that while the Southern Pa. R. R. hands were making excavations on the farm of Mr. Hoffeditz, near that place. they unearthed the bones of a human beng. They were found on a ro ky knoll, buried beneath huge stones. No one in that locality can give any information as o how they got there, or who was the un fortunate.

SHIPPENSBURG ITEMS.

Woods Meeting.—The members of the United Brethren Church, of this vicinity, will hold a woods meeting in the "Pines." commencing on Saturday morning next, and continuing over Sabbath. Its proximity to this borough will insure a large attendance.

UNDER THE MOONLIGHT .- A number of our "gay and festive" men and maidens took advantage of the lovely moonlight on Friday evening, and indulged in a drive to the North Mountain, halting at Strasburg for refreshments. A joyful evening was spent, and fair Luna with her loving smiles, witnessed a merry crowd returning, highly delighted with their drive over this excellent road.

idly on the Normal School grounds, About twenty hands are now employed, and the masons will begin work on th foundation walls of the main structure in a short time.

THE BANK .- The Farmers' and Mechanics' Bank will soon be removed to their new and handsome building. It is now about completed, and presents a fine арреатансе.

THE DUSKY WARRIORS .- The colored lentzens of our town contemplate holding grand Equal Rights demonstration of Phursday of next week. Preparations are being made for a festive day, and if nothing prevents, they will hold high arnival over their great suffrage victory.

WILD PIGEONS.-Sportsmen report wild pigeous very numerous along the foot of e. North and South Mountains. They will scarcely venture any distance into the valley to feed, as yet, but will do so as the season advances. Many have been bagged, and the numerous flocks are suffering at the hands of skilful sportsmen. WEATHERWISE people are laying in a

To THE NERVOUS .- The natural result of exhaustion of strength by excessive labor or ac-tion, is a feeling of weakness, dulin ess, heavi-ness, weariness, languor of body or mind, &c.— Persons of a weak constitution, or whose habits are sedentary, frequently complain of this re-laxed condition of the vital energies; and when persons of a norvous temperament are thus weakened and debilitated, disease inevitably follows, unless it is at once checked and over come. All who suffer from these causes atlice require a remedy which will strengthen the ystem without exciting it, and awake a feeling f true enjoyment, so that life may become a source of piensure. MISHLER'S HERB BIT TERS has won its way into the confidence of thousands of this class of persons, who warmly endorse it as the beat invigorating agent, and the most potent and genial of all tonics and al teratives for strengthening and restoring the physical constituatio.

MODE OF PREPARATION.—Buchu, in vacuo uniper Berries, by distillation, to form a fine in. Cube's extracted by displacement with pirits obtained from Juniper Berries; very lites sugar is used, and a small proportion of spit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of e dark color. It is a plant that emits its fragrance; the action of flame destroys this (i.e. active principle, leaving a dark and gluthous decocion.—Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopea, nor is it a Syrup—and therefore can be used in cases where fever or inflammation axis. In this, you have the knowledge of the ingredients and the mode of preparation.
