Thursday Morning, Oct. 13, 1870. VICTORY!!

The Whole Democratic Ticket Triumphantly Elected!

"THE COLORED TROOPS FOURHT BRAVELY ! !" " We have met the enemy and they are ours!" Aye, we met the black andtan army on Tuesday and r uted it, horse, foot and dragoons. The Badie ils in this county, clated over the fact that some four or five hundred negroes had been added to their voting strength, felt confident of success. They were going to annihilate the Democracy of "Oid Mother Cumberland" by electing the whole Radical ticket. They-simple souls-never took into consideration the fact that scores of white Republicans could not and would not be forced into an association with negroes at the polls or any other place. We have always contended, and have frequently so expressed ourself, that the negro would cause the downfall, the destruction and annihilation of the Radical party. Had. the people, by their votes, consented to the negro becoming a voter, all would have been well-no one would have complained. But the people were not consu ted, on the contrary they were defied, and the negro was declared a voter, and white men were threatened with pains and penalties, by a traudulent, unconstitutional and infamous . Fifteenth Amendment. We never regretted that the Radicals pursued this arbitrary and unblushing policy, for we felt sure they would reap bitter fruits from their sowing; we felt sure that thousands of their own best men would revolt, and, by their votes, assist to rebuke and repudiate the men and the party who, in defiance of public opinion, had committed this high-handed outrage. Thanks, then, to the white men of old Mother Cumberland, for the brilliant victory we achieved on Tues day. Thanks to those Republicans who broke from their own ranks and assisted to strike down the men who had dared to force negro-equality upon the people, They are enitled to the gratitude of every well-wisher of our coun

At this writing we have but meagre returns, but we have sufficient to warrant us in saying that the Democratic ticket is elected from top to bottom, by from 800 to 1,000 majority-the largest ever given in Cumberland county! The experiment of negro voting and negro equality has been tested in Cumberland county, and the verdict of the people is now recorded. Let white men rejoice, for they have much to rejoice over. It was a noble day's work. A thousand cheers then for the old Democratic or white man's party. Hip, Hip, Huzza!

THE STATE.

We have but few returns fr m the State, and these we have are mere estimates. The Harrisburg Patriot is of nearly five handred negroes were reopinion that the Democrats have gained two members of Congress-Meyers in the Bedford, and Reading in the Bucks districts. We hope the Patriot | which makes the Democratic gain on is right in its figures.

elected all their city and county officers cult to give the exact majority in the by average majorities of from 5,000 to several districts—for our local candi 6,000. The Congressional and Legisla- dates have not all received the same ive delegations are the same as last vote-but the following will be found

Telegrams from Wilke-barre say that Judge Woodward, who was the Demoeratic nominee for President Judge for the Luzerne district, has been defeated. This was not looked for.

Skinner. Democratic candidate for Assembly, carries Franklin county by some three hundred. If Perry is anything n ar right, he has been elected. The Legislature will be Radical in both Houses. The Radical majority however, will not be as large in the House, as last year.

GLORIOUS VICTORY IN BE ARRESTSHIRE OF

The Republican city of Harrisburg has yielded to the pressure. Verbeck, (Democrat,) is elected Mayor by 156 majority, and Weaver (Democrat,) i chose City Treasurer by 251 majority Well done, Harrisburg!

THE STORM IN VIRGINIA.

On our first page will be found a full account of the late terrible storm in Virginia. That State has ever been sub- | Borough ticket, with five Democratic ject to periodical storms and floods as sudden and destructive as those of more | giving us control of the Borough gov tropical regions; but seldom has she been visited by a storm so terrible in its character and effects as that which | East Ward ran ahead of the Republidesolated her fields during the last week of September and the early days of the present month. Beginning in the extreme southern part of the State, the storm traveled northward, seeming to increase in intensity until the Mary land border was reached, when its further progress was marked by no more than the usual severity of equinoctial storms. From Richmond westward to Staunton and Lynchburg, on the route of the James River, the greatest amount of mischief has been done. Richmond itself was inundated, and the business districts flooded and impassable. The bridges crossing the Manchester have been destroyed, and human life placed in constant jeopardy from the falli g of buildings, and floating debris. At Lynchburg railroad communication was broken off, the bridges and the embankments having been swept away. Hufamily having perished, and the shocking report comes that at Hurper's Ferry forty-seven persons have been killed. The swelling of the Virginia streams rushing into the Determination of the Virginia streams rushing into the Determination of the Virginia streams rushing into the Determination of the Personal Research Section 180 John Plank, 180 John streams rushing into the Potomac has increased the volume of its waters, and Washington, already suffering, was at Godfrey Bender 298 one time threatened with an inundation | John Faber, as complete and destructive as that at Richmond. The crops of the summer, carefully garnered throughout the Virginia valley, have been utterly destroyed in this havor of storm and flood. It is dreadful to contemplate the suffering that must ensue in this region, not yet fully recovered from the desolations of

THE COUNTY.

The Democracy of Cumberland County have achieved a glorious triumph. In nearly every district we have made substantial gains; and the Democratic -majority in the County will probably exceed 1.000. In view of the fact that gistered, this is glory enough for one day. At a low estimate there were at least four hundred negro votes polled, the white vote five hundred or more. THE CENSUS.

The manner in which the census has been taken in different parts of the country is under investigation at the Census Office. The payments to Assistant Marshals are stopped in all cases where reason exists for supposing that the work has been improperly or imperfectly performed. The cases where substantial reasons for complaint are shown, are not, however, nrmerous, and, with the exception of New York, the almost universal disappointment of the larger cities has not led to serious accusations of negligence. Brookly: and St. Louis exhibit an unexpected ncrease, and Philadelphia has every cason to be satisfied with the result. The Marshal of Maryland has not yet allowed the returns to be published. New Orleans and San Francisco will come up to every reasonable estimate, and Chicago, Boston and Cincinnati have had Marshals whose faithfulness and efficiency could not be questioned Scarcely a complaint has been made in regard to the cities of the second class. It is mainly in cities of the third and fourth class, and in smart towns which aspire to be called cities, that the greatest disappointment is felt. Fortu nately these are the cases which can be most readily investigated, and the ques tion as to the completeness of the census s generally settled at home, withou an appeal to the Census office. In some eases, volunteer committees of citizens have gone over the ground a second time, with the assistant marshals, until it was settled to their satisfaction who ther the work was or was not well done. Wherever applications for authority to e-enumerate has been made, the census office has instructed the marshals not to be influenced by popular disappointment or dissatisfaction at the result, insmuch as the expectations formed had been in so many cases shown to be unounded and unreasonable, but to make a personal investigation into the facts

was necessary. THE INCOME TAX.-Justice Strong recently made the following decision: The five per cent, United States tax on railroad dividends has hitherto been assessed and paid each year on the earnings of the year previous; and accordingly the railroad companies, on declaring dividends, have deducted from the sum paid over to each stockholder the five per cent, income tax, it being more convenient for the government to collect the tax directly from the com panies and then allow, it in the income returns of each individual stockholder. This income tax, imposed by the act of 1864 and its supplements, expired with the 31st of December, 1869, except that the law provided for the collection of that portion of the tax on the income of 1869 which had not been paid. Justire Strong holds that any dividend m de payable after the 31st December, 1869, is not subject to the five per cent, deduction by the wailroad company, because the railroad company is not obliged to pay it to the government. And this is true, even if the income be earned in 1869, but is not made available in the form of a dividend to the stock
