CHURCH DEDICATION—RAILROAD EX-CURSION .- The new Methodis: Episcopal chapel; just erected at Pine Grove Fur nace, is now awaiting dedication. The dedicatory services will take place Oct. 22d 23d. Rev. Dr. Dashtell will preach or Saturday afternoon, October 22d, at 21 o'clock. Mr. Arms, the genial and efficient Superintendent of the S. M. R. R. has generously arranged for an excursio for the exclusive benefit of the church The cause is a good one, the occasion will be most interesting, the ride to Pine Grove is picturesque and romantic beyond our powers of description, especially in this delightful autumn weather, and we hone the exentsion will be the largest of the eason. No such opportunity has ever been given our people to visit Pine Grove and none will ever occur again. Tickets are for sale at the several stores and de nots at 75 cents for the round trip. The train will leave the Cumberland Valley depot at 1 P. M. and will return by six belock Saturday evening.

OBJECTS OF CHARITY.-Carlisle has many residents whose destitution loudly calls for the exercise of charity on the part of those whose "lines are cast in pleasant places." The near approach of winter should arouse our benevolent peo nle to action in the matter of making provision for the comfort of the poverty tricken before freezing weather sets in and the ground is covered with snow. By moving promptly, much misery can be averted and many sorrowful hearts gladdened. All efforts to alleviate the sufferings of the poor will be amply rewarded. None who dispense their charities or give their time for this purpose will ever regret their action.

SPLENDID QUINCES .- On Friday last, we were presented by Mr. WM. S. LAIRD, of South Middleton township, with a lot of beautiful quinces, for which he will please accept our thanks. These quinces are of a superior variety, and are cailed quinces weighed 43 lbs. Mr. Laird is a cessful fruit-grower, though upon a limited scale, and, with a larger capital, would soon take high rank as an enterprising horticulturist.

NEW Goods, -Mr. Thomas A. Harper, corner of South Hanover and Pomfre streets, has just received from the cities a large and elegant assortment of seasons: ble Dry Goods, consisting, in part, of Silks, Silk and Wool Poplins, French Merinoes, Phills, Shawls, Furs, &c., &c. Call and examine his stock.

Don't Do Ir.-Great complaints are made just now in relation to the bad conduct of boys, and sometimes men, too, in injuring ornamental trees. We advise the boys of this borough who have been in the habit of interfering thus with the property of other people, to cease their efarious conduct. If they do not they may yet have to "pay dearly for their misdemeanor, which we append for the benefit of those ignorant of it:

"If any per-on shall wilfully or ma-liciously injure or destroy any fruit or ornamental trees, shrub, plant or grap vine; growing or cultivated, in any orchard, garden or enclo-ure, or upon any cased, garden of chaosine, of opin any public street or square in this Common-wealth, he shall, be guilty of a misde-ment, r, and on conviction be flued not exceeding one hundred dollars, and un-dergo an imprisonment not exceeding six months, or both or either, at the dis-

Good Advice. - The long winter evenem properly. They should have suita- | Institute. to go to for if they have not these, they will go to places not suitable. Probably one of the best and most refining influences is the "Singing School," at which an evening in each week can be spent very profitably. The advantages of vocal music are many and of the very best kind. We hope therefore, that some of our musical friends vill organize good Singing Schools in every district in the county, and ti at the people, particularly the young men and maidens, will patronize them properly, so that one evening, at least, of each week may be spent in the ennobling exercise of discoursing the sweet strains of music. -

BAD MANNERS.—The practice which some young men (and old ones, too, someindeligate remarks about ladies passing along the streets—is very ungentlemanly and should be rebuked by those who due regard for the delicate feelings of the gentler sex. This habit is often indulged in in Carlisle, to the shame of those who should have bet ter manners, and we hope they will give the matter a serious thought, and resolve to break themselves of so vulgar and unscemly a practice.

OCTOBER.-We are now near the middle of October, so called from being the eighth in the year, according to the old doors, open windows; a day will dry it. Alban or Latin calendar. The month If it is in the kitchen or dining room was by our Saxon ancestors styled Wnymonch (modern, Weinmonat) or the wine month. In allusion to this epithet, an old writer remarks, "and albeit they had not auciently wines made in Germany, yet in this season had they them from divers countries adjoining." October was called, by the ancient Germans, Winterfyllith from the approach of winter with the full moon of the mouth.

On the 22d of the month the sun enters the sign of Scorpio, an astronomical emblem, said to typify, in the form of a destructive insect, the increasing power of cold over nature, in the same manner as the equal influence of cold and heat are represented by Libra, or the balance, the sign of the preceding month of Sep-

Though's melancholy feeling is associated with October, from the general decay: of nature by which it is characterized, there occurs, nevertheless, not infrequently in it some of the finest and most exhilerating weather of the year. Frosts in the mornings and evenings are common, while the middle of the day is often enlivened by all the sunshine of July without its oppressiveness, and the clearness of a frosty day in December or January, without its piercing cold.
