DÉMOCRATIC COUNTY COMMITTEE. The Democratic County Committee of Cumberland county will meet in the Arbitration room of the Court flouse, Carlisle, on Saturday. February 25, at 1114 o'clock, A. M. A punctual attendance is requested. The selection of Delegates to represent Cumberland county in the approaching State Convention will be one of the objects before the Committee,
II. K. PEFFER,

"THE BEST GOVERNMENT ON EARTH."

If there is anything that Radical leaders have been consistent in it is their inconsistency. Pending the first election of Mr. Lincoln, Radical orators, without exception commenced their. harangues by pointing to ours as "the best government on earth." "From its foundation it has been prosperous beyond the most sanguine expectations of its most ardent friends," they said. This was a flattering compliment to the Democratic party, for, up to that time, with the exception of some ten or twelve years, this government had been in the keeping of the Democratic party from its foundation. Radical speakers, in the first part of their addresses to the people, appeared to forget this, and, notwithstanding they stultified themselves, they as uniformly concluded Their speeches by asking their hearers to join them in a crusade against the Democratic party—the party that had made this "the best government on

earth." What consistency! It was not the welfare of the country, then-not the prosperity and happiness of the people, that these Radical spouters were contending for. No, no, it was the spoils. They desired to obtain, and did obtain possession of the government, for the purpose of enriching themselves at the expense of the masses. When Lincoln was inducted into office it could with truth be said-"this is the best government on earth." We had little or no debt-the people were happy, prosperous, contented. We had for our currency gold and silver, and honesty was recognized in high places. Aye, those were "the good old times;" such times as we have no right to evpeet again. How is it now? Our debt so enormous, that it almost baffles the arithmetician to give the sum total; tax collectors in swarms harrass the people; corruption is not only tolerated in officials, but encouraged by Grant himself; we have dirty rags as currency our public lands are voted away to rich Radicals, to the injury of the poor man; the people dread the meeting of Congress, and rejoice when it adjourns; troops are stationed at the polls to intimidate the voter; in a word, if our government, a few years ago, under Democratic rule, was the best on earth. it is now, beyond doubt, the worst; indeed, in the old parlance of Radical thieves, we may ask-"have we a government?"

THE INCOME TAX .- The income tax will not be repealed by the present Congress. A motion to go into Committee of the Whole, in order to take up the bill, was negatived by a vote of 107 nays to 103 ayes. This is looked upon as a test vote in the House, and expressing the sense of that body. The true reason for the retention of this unconstitutional, unjust and inquisitorial tax is, that the Radical members of Congress desire to continue in office the swarm of officials engaged in collecting it. It is admitted that the money received from this source is just about sufficient to pay salaries and other expense-; but, so long as a few millions can be wrung from the tax-payers and distributed: among a set of political favorites, the present Congress will find excuses for continuing the system. The next Congress will make short work of the income tax, and, it is to be hoped, of many other abuses which have been fostered and protected by Radicalism.

WHO IS TO BE THE NEXT CUSTOMER? -There seems to be no end to the raids upon the United States Treasury that are devised at Washington. The latest, If not the best, is the bill offered by Mr. Cole, for incorporating the "United States Mining School and Meta-lurgical gical works which the company may these works the sum of \$1,000,000 is to be issued to them by the President in five per cent, bonds of the United States; aft gang aglee." and for each of the remaining four works \$500,000, making \$3,000,000 in all, which they are to receive out of the pullic treasury to aid them in their speculaacres of public land for each establish ment, with permission to locate on any water privilege not otherwise appropriated. Who is the next customer?

female aspirants after the ballot, and to its money value. affirm that the question of female suffrage belongs to the several State Governments to decide. This we believe to be true, but it does seem a little funny that the Radical party should make such a fine distinction between a woman and a negio. If Congress has a right to make negroes voters in spite of State laws, why should it not have the same power in reference to women?

IN THE House, at Washington, last week, Mr. Thurman presented "resolutions of the Chio Legislature requesting Congress to pass no more land grants with a clause exempting all its bonds for railroads or other corporations." and effects from taxation forever. It Let the people of Ohio join in the great has been signed by the Governor, and is revolution now going on, and assist to now a law. This is another specimen of turn the Radical conspirators out of power, and there will be no necessity of have no more right to be exempt from petitioning to Congress on the subject taxation than any others, and no corof our public lands. Banish the rats poration has rights in that respect sufrom the pantry if you would save your perior to any individual. In this, as in

GEN, BLAIR'S FIRST SPEECH IN THE NENATE.

In the U.S. Senate, on the 15th inst. a parliamentary duel occurred between Rovernor Morton and Gen. Frank Blair, which caused an immense sensation. Morton had made great preparation to be delivered of a pronunciamento, to be directed against the Indiana legislature for their withdrawal of the state's assent to the fifteenth amendment, and the morning mentioned above was set for the affair. It was a very elaborate speech, and was evidently intended for a party manifesto, Morton argued to show that the amendment had been legally adopted, and also excused the action of the Indiana

radicals in acting on it without a constitutional quorum. This done, he nitched into the democratic party and charged that they did not accept the fourteenth and fifteenth amendments and would reverse them as soon as they came into power. The idea was, by dint of hard and unserupulous lying, to put the democratic party in the position of a revolutionary party. Conkling, Summer and other radicals sat near to Morton, to hear his speech. Frank Blair also sat near, watching him like a hawk, and when he finished. rose to reply. The republicans felt was Blair's first speech. Blair then went at Morton with a vim that made that worthy very measy. He told him. that worthy very uneasy. He told him that he was a fit representative of the tempt for the people. He referred to his (Morton's) acceptance of the English mission, and the fact that he gave it up avowedly to prevent the people of Indiana from being represented by one of their own choice. General Blair then reviewed the frauds and outrages on the popular will by which the amendment had been secured, and denounced the reconstruction acts of congress as known to be unconstitutional by those who passed them. He said that in undertaking to punish the rebels outside of the constitution, and in violation of it, congress had committed even a great-

work in the south, and should be withdrawn, and the carpet baggers then at once dispersed. As for the fifteenth amendment, however wrongfully accomplished, he supposed it had gone through the legal forms of ratification, and admitted it to be final as a part of of the law of the land. One gentleman says some of these congregations build large chuches, and along side of them build expensive parsonness, and that this bill is to exonerate that property from taxation. I would correct the gentleman in that statement. Where a parsonage is on the same lot with the church the law already provided for its exemption in taxation. If Philadelphia has ten millions of property improperly exempt, I think it not out of the way to allow us to exempt paramages in Cumberland onall sum in proportion to the amount of a very small sum in proportion to the amount of property exempt from faxation in that city. As we have but few churches and city. As we have out few courenes are passed in passonages we ask the House to pass this oill to exonerate them from the payment of faxes. The gentleman from Februlkill [Mr. Ellis] has asked to have that county exempted. If these gentlemen in Allegheny and Philadelphia do not wish to have their districts included I again to objections of all. As to the poor anve no objections at all. Ten thousand dollars have been appropriated to defray the expenses of the select committee to investigate the alleged Southern outrages. This is the way Radicals use the funds of the government in efforts to perpetuate their own power. As carpet baggers are low priced fellows, and scalawags can be bought cheap, this amount should get up startling tales of Ku-klux-klanners.
