North has also denounced this bill and its object. The Chicago Tribune, the leading radical organ in the Northwest, says: "As to the Ku Klux bill, it is by no means certain that the next Republican National Convention will endorse . The Post should be a little more explicit, and inform its readers in direct language that the fourteen Democratic Senators outvoted the fifty-six Radical Senators, and thus defeated the bill to repeal the duties on coal and salt! How wonderful it is that 14 can outvote and defeat 56; but the Post says this was

the case. All the proposed constitutional amendments in Missouri, are reported adopted. The first amendment abolishes the district court system; the second abolishes the Juror's test oath; the third abolishes the double liability clause for private corporations; the fourth abolishes the voters' test oath; the fifth abolishes the disqualifications for hold ing office on account of color, disloyalty, &c.; the sixth provides that neither the General Assembly nor any county, or city or other municipal corporation shall appropriate or set apart any public money, land or other property for the benefit of any sectarian school or college.

IT WILL be recollected that during last March Graptissued a high sounding proclamation, declaring South Carolina in a state of insurrection, and proceeded to send a liberal supply of troops there to quell this imaginery domestic violence. Last week, Scott, the carpet-bag Governor, was in Washington and informed Grant that no insurrection exists in that State, and that the civil authorities are fully competent to preserve the peace and to subdue all attempts at lawlessness. Will Grant now withdraw his troops and permit the their favorite dish. people of that State to have peace?

THE people must not be permitted to forget that many Radical presses and orators and demonstrators of all sorts endorsed and fraternized with the Red Republicans of Paris, and have done so for years. The heart-sickening scenes enacted by these wretches only shows whither uitra Radicalism, unchecked Grant. by the wholesome restraint of Democracy, would lead us in this country.-Let us beware of the friends and sympathizers with the communists of Paris.

SURELY it seems that poor Paris is doomed to drain her bitter cup to the very dregs. To the horrors of war and famine it is probable that pestilence will soon be added. If the dispatches are to be credited, thousands of unburied bodies are rotting in the cellars and in untenanted houses of the once gay metropolis. Such a mass of corruption niust inevitably breed a terrible pestilence, before whose horrors those which have preceded it will pale into utter insignificance.
