The power in the land that it once was. The Prestons, Middletons, Pickneys and Rhetts, have all been reduced from their high estates. They are no longer the rulers of South Carolina. WASHINGTON, Jupe 16.—About the first of the present month our minister at China, with Admiral Rodgers com-manding the American fleet in the east, accompanied by French and other veg-sels of civilized nations stationed in Chi-nese waters, made up an expedition to Coree; a peninsula lying between the Yellow Sea and the Sea of Japan and in-habited by a barbarous, treacherous and warlike people, entirely independent of the Chinese government. The Coreans made no objections to a survey being made of their waters... The Monocacy, Palos and four steam launches, under Commander Blake, were sent off on the 1st of June to examine Sable river. On arriving at the point where navigation is most perilous a mask-ed battery, manned by several thousand Coreans, unmasked and opened a heavy fire without warning upon our people... The Freuch ship in advance fought gai-lantly and our vessel bearing up, drove the Coreans from their works. The tido swept all the ships past the batteries, where they anchored and threw shells among the retreating enemy. The Mon-ocacy was slightly injured by knocking upon the sunken rocks. She is now temporarily repaired. The vessels on returning received no fire, the enemy having been driven from the forts. Our people displayed great gallantry, Only two of them were slightly wounded. A communication was received to-day which may open negotiations. Other-wise, since the Coreans have met our peaceful overtures with an unprovoked war, our forces will land, and after do-stroying the forts, will take such other measures as the interests of civilization require.
