MR, DOOLITTLE-WISCONSIN.

Hon. James R. Doolittle, who, during the first two years of the Lincoln ad-1 sin. At this Mr. Grant's Collector of and experienced statesman and scholar is one of the decayed timbers that we (the Republicans) long since threw over-

And who are the "we" that Forney speaks of? They are the thieves of our country-Grant and his office holders. There are a good many "decayed timbers" like Doollttle, who formerly belouged to the Republican party, but who left it when they discovered that the tion were robbery and contention; such men, in addition to Mr. Doolittle, as the Chases, Adamses, Cowans, Corwins, Browns of Missouri, Carl Schurz. and scores of other great men. Indeed. It can be said with truth that nearly all the men distinguished for talent and the leaders in the Republican party, eation than had avoiated to oraate, but the corrupt practices of Grant. and his treasonable attempts to usurp power by military brute force, has alienated these men of character from him, and they now speak of the great America as well as one of the weakest. The present supporters of Grant are his army of office holders and recognized plunderers of the treasury. Is it not cool, then, in Forney to boast of what "we"-the office holders and plunderers -have done in the way of crowding decent and honest men from the ranks of Radicalism?

GEORGIA is a good place for criminals. It appears that Governor Bullock has, during his incumbency, granted 402 out of 463 applications for pardons; among the offenses pardoned being 56 murders, 31 manslaughters, 36 assaults with intent to kill, and 52 burglaries. Bullock. of Georgia, beats Scott, of South Carolina, as a friend of the lawless. It was thought monstrous of the latter to nullify the actions of the courts in 209 out of 486 convictions in one year by granting pardons to the former number of convicts, but Bullock's pardons throw Scott into the shade. It is scarcely necossary to add that Bullock and Scott are radical carpet baggers,

Ir the earnest, thinking Democrats of every township in Cumberland county would at once put their heads together, and quietly select ten or a dozen voters whom they will make it their business to bring over to the side of the Democracy before the October election, they would find in the outcome the advantage of acting with system and purpose. Pleasant words, accommodating attention, and the occasional (if not regular) perusal of a steady-going Demogratic newspaper, are a combination of influences that can accomplish unitedly on an opponent what everything else might fail to effect. Democrats who have tried his reply said: "I believe the best men this, will endorse our statement, Let such efforts be made more generally. Cust your eyes over your township, select the men who shall be rescued. and go to work at once.

DURING the month of July, the marine disasters to vessels belonging to the citizens of the United States, or bound to and from the ports of this country, are reported to be twenty-three in number. Of the vessels suffering these disasters, eleven were wrocked, four foundered, three sunk by collision, two were abandoned at sea, two were burned, and one is missing, the fate of which is unknown. One steamer was lost, two ships, four barks, five brigs, and eleven schooners, of an aggregate value of four hundred and twenty-nine thousand dol-

hundred and twenty-nine thousand dollars, exclusive of the cargoes.

**The expenditures of the federal government for the month of July, not including payments on account of the public debt, were over thirteen millions, or at the rate of about \$160,000,000 a year. Under the last Democratic administration the government cost less than sixty millions, or one hundred millions a year less than is spent by the Republican administration.

THE KUKLUX SCARE.

Travelers tell us that the most destructive weapon of Chinese warfare is the Gong, and we can readily imagine the statement to be true. Although we say that a victorious army is as "terrible as an army with banners," yet an army with gongs would be tenfold more so; for one gong, even when invoked in the interests of hungry humanity, is sufficient to destroy the peace of mind of an entire community. Realizing this truth, gong to fight the ghost of a dead rebellion with. When they pretended to fight a live rebellion they saw fit to rely mainly upon the sturdy hearts and trusty bayonets of the Northern Democ racy, but now that the men who formed the bone and sinew of the army have declined to join in the Quixotic crusade upon unofferding windmills, or the ruthless slaughter of whole flocks of innocent sheep, these valorous gentlemen, -who never learned the use of arms on the actual field of battle, have taken up the gong to frighten away the ghosts. They have adopted the expedients resorted to in the cheap theatres, and when any great sensation is to be created, they turn down the gas, and light the red fire, and send their blue devils bounding onto the stage, and all fall to beating gongs, and make things look as

much like hell as possible.

A scene like this transpired just before the adjournment of Congress. When the last Congress met in March, it-was soon discovered that a majority of the members were in favor of revenue reform. Bills repealing the tariff on coal and salt passed the House by overwhel ming majorities. The entire Radical camp was thrown into confusion. Two of their strongholds had been carried by the enemy, and there was great danger of a defeat along the whole line. The monopolists became alarmed. "This thing must be stopped," they said; turn on the red lights-sound the gong-kuklux! KUKLUX! KUKLUX!" The faithful were gathered into caucus, and there pledged to do nothing but legislate for the tranquility of the South! The party was once more rallied and consolidated by the old party cries of lawlessness and violence at the South, ministration, was the powerful leader and the monopolists again had the peoof the Republican party in the United ple at their mercy. Most persons have States Senate, has been nominated for seen a flock of bees, discontented and Governor by the Democrats of Wiscon- dissatisfied, and about to swarm from the old hive. Just so the revenue reformers were about to swarm from the Radical hive, but granny Sumner, and Grant and Butler all got out with heir gongs, and hollowed "Kuxlux! Kuklux," until the runaways were all induced to return to the hive and continue to gather honey for the Radical

The object of the Radical leaders in getting up this sensation was not only to use the kuklux ghost to frighten their grand objects of that infamous organiza- party in the North into the support of an administration which was breaking down of its own inherent weakness, but throwing the State governments in the South-authorizing the President to proclaim marshal law throughout onethird of the nation-to march his hiremanliness, who have been regarded as ling soldiery into every Southern district, and thereby secure his re-election have either left it in utter disgust or to the chair he now disgraces. The President himself entered the lists, and using the prerogative of his high office to defame thousands of his own people, in a message to Congress reiterated these calumnies, and asked for additional power to suppress disorders in the Southern States. Of course the power was granted, for Congress had pledged itself to do nothing but legislate

for the tranquility of the South! It is a little remarkable that while these scenes were being enacted in Congress, General Sherman, who had been traveling through the South, made a speech at New Orleans, in which he of information as most persons in regard to what is called the Kuklux, and I am perfectly satisfied that the thing is greatly overestimated; and if the Kugreatly overestimated; and if the Rushklux bilis were kept out of Congress, and the army kept at their legitimate duties, there are enough good and truemen in all the Southern States to put down all Kuklux or other bands of marauders." There was peculiar force n the expression of Gen. Sherman that regard to the Kuklux as any one, for as General of the army he had not only every Military District in the South, on

States. A week later, Horace Greelev, then on a pleasure trip throughout the South, was serenaded at New Orleans, and in should occupy the best places, without any reference to bygones. There would not be a Kuklux in the land now, if there had been a general amnesty five years ago." And on his return to New York, he published the following remarkable editorial in the New York Tribune :

"The most intelligent, the influential the educated, the really useful men of the South, deprived of all political power, South, deprived of all political power, have come to look upon themselves as the outraged subjects of a despotic conqueror. Taxed and swindled by a horde of rascally foreign adventurers, and by the ignorant class which only yesterday hoed the fields and served in the kitclens, they care nothing for politics except to throw off the oppressive yoke; they have no interest in national affairs; they would call themselves of sitter partity, provided their rulers were only of the other. The refuse of the Northern cities, who went Southward after the war, out

Just about this time, too, the report of the Ku-Klux investigating committee was presented to Congress, fron which it appeared that the only Ku-Klux arrested, tried and punished in the darkeys, who went around stealing hams This statement is astounding, when we remember that the entire machinery of governors, judges, sheriffs, and prosecuting attorneys-with an army of secret spies and detectives-and no one permitted to slt on juries who cannot take the loyal iron-clad oath-they ought to have been able to do better than this. True, several negroes in Louisiana were' Ku Kluxed" for voting derers proved to be negroes, and were. pardoned by the Radical Governor. In North Carolina, too, it; was proved on the trial of Governor Holden, by the testimony of Daniel R. Goodlee, United States Marshal for North Carolina, that the Radical members of the Legislature issued an address to the people, in which the negroes were advised to burn the barns and houses of those who refused to employ them on account of their politics;" and it was also proven that these ignorant and superstitous legroes, sworn to obey the commands of their leaders, did destroy the property

of white men, and, after their conviction in a court of justice, were pardoned by Governor Holden. But these 'Ku Klux" outrages were merely inflicted upon Democrats, and the Congressional Committee didn't seem to think them worthy of special no tice. The main fact, therefore, stands uncontradicted, that with all the machi-Lery of justice in their hands, the only Ku Klux the Radicals have discovered and punished in the entire South, were half a dozen worthless negroes, conviced of stealing hams and chickens.

Now that we have alluded to the oficially published investigations of this Ku Klux committee, we will give an abstract of the testimony of three important men in the South, recently taen before that committee—Governor Lindsay of Alabama, and U. S. District Judge Busteed, of Alabama; and U.S. Judge Carpenter, of Charleston-all of them Radicals in whom could be found no guile. From the testimony which follows, it will be seen that the committee were rather unfortunate in the selection of their witnesses. We quote

rom Forney's Press: Gov. Lindsay concluded his testimony Gov. Lindsay concluded his testimony before the committee to-day, having been subjected to a searching examination of seven or eight hours in relation to the condition of affairs in Alabama. He gave an unqualified denial to the reports of political outrages and organized resistance to law in Alabama, and expressed his belief, from all sources of information with the testing the contraction of the contraction available to him, that said State has not been so quiet, orderly and peaceful in 20 years as at present. Abundant means of ducation have been provided, and are mpartially accessible for all classes, both white and colored, and in no part of his State is any one in danger of molestation or violence on account of his political sentiments. He knew of no Ku Klux organizations in the State."

Again: gress, from the hustings, and from the as to honesty and intelligence. Since his appointment as Judge by President Lin-Radical newspapers was poured forth a coin, there has been no obstruction to piteous tale of "Kuklux" outrages.— the administration of his office or the law, except once by the Republican Auditor of the State, He thought the feeling of the people was to obey the laws, aithough deeply convinced that they were not equal and impartial."

And again: Judge J. B. Carpenter, of Charleston, was nearly five hours before the Ku Klux Jommittee yesterday. He tes-tified that there had been outrages in portions of South Carolina. They did not result from hostility to the Federal lovernment, but were the natural out-Government, but were the natural out-breaks of men who had no redress through the forms and administration of the law. The government of the State was defective in capacity in all depart-ments and venal. It had increased the State debt \$11,000,000, and not a mile of railroad, a foot of canal, or a school house had been constructed. He was a candidate for Governor. He traveled in every county in the State but one, enoving the most intimate social relations. He never heard a word against the Fedal Government. He repeated that the opposition was to the administration of the State government, composed of incompetent and corrupt officials, and who

LOOK AT THE FIGURES!-One of the most unanswerable arguments of the late Democratic address to the voters of Pennsylvania, is the statement that the ordinary Government expenditures for the fiscal year ending June 1, 1870, exclusive of Indian annuities, pensions, and interest on the public debt, were \$148,669,522.43; for the year ending June | pockets of wealthy monopolists. It is rumored that Attorney General Brewster is averse to the arrest of Mr. 'Agent" Evans, and declares that, so far as Evans is concerned, he would not hesitate to act promptly, but that there are others concerned in the swindle whom it would not be, for political reasons, policy to arrest just now, and that the whole thing was stirred up because certain individual did not get his 'rake."

The Age says the conviction is general n Harrisburg, that a large portion of he plunder of Evans has passed out of his hands into those of a band of men who procured his appointment, and cannot be refunded. This is likely true. Evans is only the tool of worse men in this State—men who are now preaching norality and leading the Radical party. These are the men we wish to see unearthed, and they will be if Attorney General Brewster does his duty. Let the thieves be unearthed!

SOLID REASONS FOR UNPOPULARIry.—It rarely happens that a man's political friends are willing to tell his faults and weaknesses, but occasionally, when they become too notorious and damaging, it becomes a necessity. Thus Harper's Weekly, which is a thorough Radical sheet, admits of Grant what the Democracy so frequently help up to his discredit. It acknowledges that the President is becoming unpopular, and gives as reasons therefor:

"The quality of the President's friend-ship, and the intimate influences which surround him; the allevation of some men of high culture and high character from his couns.ls, the appointment of certain nuverfly officies, his reserve for certain unworthy officers, his passion for San Domingo, and what is called nepotism, ignorance indifference to real reform, progress and political purification. * Circulate Democratic truth if you

would counteract the baleful influence of Radical falsehood. Every Democrat who is interested in the prevalence of correct principles should make it his special business to lend his Volunteer.

-Hop. Wm. A. Wallace has been remoinsted for the State Sencte in the Clearfield district. This will be gratifying news to the Democracy of the entire State. His presence in the Sepate has proven invaluable. Again:

"Judge Busteed, of Alabama, was examined by the Ku Klux committee, on Friday. He said that he was told confidentially, a year and a half ago, that there was a Ku Klux organization in the northern part of the State, but his informant did not tell him its object. He believed now there was no such organization in the State. Person and property were as safe there as in any other part of the Union, The character of the subordinate State officials was notoriously bad, both as to honesty and intelligence. Since his home upon Radicalism the infamies of which it has been guilty. We look to our friends to aid in spreading the truth our friends to aid in spreading the truth before the people.

THE valuation of the real and personal estate of Pennsylvania is \$1,634,210,936, (about \$550 per inhabitant,) the largest assessed valuation of any of the United States. There are richer individuals and richer corporations in other States, but we have the largest number of comfortably well-off people. Pittsburgh is a fair example of Pennsylvania distribution. While it has no man worth four millions of dollars, it has hundreds who are worth one hundred thousand, thousands worth tens of thousands, and tens

Senator Sumner has declined the few months what people think of his of Hayti. If the Haytians wish to get rid of the medal, they might offer it to President Grant, who has no constitutional scruples against the taking of presents, especially when the expressage is prepaid.
