now on trial. the murder of his wife, and on application of the defer out the case has been

continued to the November term. A MILITARY company, we learn from the Mechanicsburg Independent, called the "Russel Infantry," has been formed at White Hall, in this county, and the Adjutant General has been officially notifled of the organization and election of the following officers: Captain, Wm. H. Longsdorf; First Lieutenant, Wm. M. Moore; Second Lieutenant, Harry H. Johnson. There is no place in this county in which the young men are more active and energetic than those of East Pennsborough township, and we therefore venture to predict that the "Russel Infantry" will be a live company, and

tary organization in the county. THE STATE FAIR.—The policy of the Pennsylvania State Agricultural Society, is to make choice of a location for hold ing its Exhibition, and make an arrangement for its second show at the same point, so that each portion of the State shall have the opportunity of witnessing the progress in Agriculture, Horticulture and Cognate Industries in its own, and from other portions of our common wealth. In pursuance of this plan, Scranton is again the location for the coming Fair.-To give Exhibitors every opportunity for the display of their production or article, a carefully prepared and large space of ground has been enclosed, abundantly supplied with water: easy of access to any part of the city of Screnton, and surrounding towns; and upon which has been erected two halls, carefully protected from the weather, 250x30 feet each; one hall 175x45; several apacious tents; 125 horse stables; 150 cattle sheds; 50 sheep pens; 50 pens for swine; an amphitheatre with 1,000 seats, and every other arrangement for the comfort of visitors and exhibitors in every department usually represented at such shows. We advise all-but especially those who have never seen the operations in a great coal and iron district to visit Scranton and the State Fair, which commences on Tuesday, the 19th day of September, 1871. A very considerable [exhibition of recently imported stock will be in attend-

GENIAL SHOWERS.—The showers of last week had the effect of cooling somewhat, the atmosphere and putting the ground in a good condition for the plow. They have also made the corn and late potatoes. We congratulate our farmer husband, and also to everything in the friends on this improved condition of

THE preserving season is now here and fruit is exceedingly plentiful and cheap. Thrifty housewives in this vicinity are taking advantage of the fact, and are storing away, like the industrious ant, sort a dozen half-starved Chinamen in sweets for future use. Next winter they your cellar and lock the doors. This rewill reap a rich reward.

THE open air services, held on Sabbath evenings in different parts of town, have proved very interesting and successful.— Conducted under the auspices of the Y. M. C. A., they are led by the members of our different churches. At the meeting last Sabbath seven hundred were present. Addresses were made by Revs. Norcross, Frysinger and Brown

The business men and citizens generally are urged to contribute their mite towards the project, and thus make it a gala day in Mechanicsburg.

September 13th, 14th, 15th and 16th are the days appointed for the Fall Exhibition of the Cumberland County Horticultural Society, to be held in the borough of Mechanicsburg. The Independent, in speaking of this Exhibition, says: "We call attention to the fact, as we wish to all are working to make it a grand success. Look up your fine fruit and vegetables, and have them in readiness. See that choice samples are set aside for exhibition. Let every one try to excel his neighbor, and we will have an exhibition

worthy of our valley." Mechanicsburg is an aspiring little village, and seems determined not to be in the back ground. The enterprise and public spirit of its citizens are proverbial, and in the Independent they have a live paper, which is always ready to help along every work calculated to benefit its

town and county. POLICE ITEMS .- On Thursday last, Chief Burgess Jno. S. Low and Constaoles Faber and Sanno arrested fourteen negroes and four whites for lounging in he Market house, contrary to the borough ordinance.

Officer Sanno arrested John Anderson n Chambersburg, for horse stealing, on Friday last; the horse belonged to Shapley & Co. Anderson was put into the hands of the Franklin county authori-

IMPORTANT TO SCHOOL BOARDS .- According to an act of the last Legislature in office, as one of the Commissioners of the Court of Common Pleas has power Cumberland county. The indictment to grant to School Boards, upon certain charged that Harris was interested in | conditions, the right to borrow money for certain bridge contracts. This case is the purpose of erecting school houses .-The amount thus allowed to be raised The grand jury have found a true bill shall not exceed five per cent, upon the in the case of John Kiehl, indicted for last preceding adjusted triennial valuation of the school district so desiring to borrow money, and the Court shall deerce how the money may be raised -by bonds, mortgages, etc.—at any rate not exceeding eight per cent., exempt from all taxation, and imbursable at any peried not exceeding twenty years. The consent, in writing, of a number of the qualified electors of the district must be obtained first, and notice of the intention must be published in two papers of said county at least four weeks before appliention is made for such decree. The act became a law on the 27th of April, 1871

RELEASED FROM PRISON.-The Shinpensburg Sentinel says: Samuel Skelly, of Newburg, was released from the jail at Carlisle last week. The evidence adcompare favorably with any other miliduced in the examination prior to his clease exonerated him from any complithreatened the destruction of the town of Newburg. He was released from prison olvency.

BURGLARIOUS ATTEMPT.-A burglarous attempt was made on the C. V. R. R. Depot, at Shippensburg, on Monday night of last week, by some thieving ras cal, who, no doubt, was greatly disappointed in the result of his efforts. The entrance was effected at the window on the alley; opening into the ladies' room. His next move was to open the slide where the tickets are sold, but his designs were frustrated, as the slide was too firmly fastened, consequently, if his object was to rob the money drawer, all his plans were ineffectual - News.

JOHNNY LIGHT, who was advertised to make a balloon ascension at Shippens burg on Thursday last, failed to "go up." A large crowd had assembled to witness the ascent. Everybody waited quietly and patiently until near night, when no attempt was even made to inflate the balloon, the crowd dispersed. We heard no satisfactory reason given for the failure.-Broad Axe.

ANOTHER COAL OIL MURDER.-From every section, North, South, East, and West, come accounts of terrible disasters produced by the reckless handling of coal oil. A terrible kerosene accident occurred in Altoona recently. A woman named Mrs. Brown, in replenishing a lamp with oil while the wick was burning, caused it to explode, scattering the burning fluid over herself and sister. She then ran up stairs, communicating the flames to her house. The house was burned down, th woman and her sister have died, and the husband's recovery is doubtful. When will people learn the dangerous nature of

kerosene oll? THE best way to get rid of rats is to incipe is made up from books of travel.

All are invited. and meteors which alarmed so many people in 1831 and 1832. Mention is nade in some of the papers of what may be the avaunt couriers of this anticipated great celestial pyrotechnic display. Some of our contemporaries, who may be good augurs, assume that there are sigus and wonders in the heavens and earth unlike any ever before seen or known, and prognosticate an approaching change in the economy of nature in the not very distant future. Should the predicted display occur, it will behoove thote who desire to witness it to be up o'nights.

ATTEND TO VACCINATION.-It is stated in the Philadelphia and Pittsburgh press that small pox prevails in those cities .-It is reported that it has appeared in keep it before our readers. We hope that | Harrisburg, east, and at Altoona and Tyrone, west of us. If this be true, (and such rumors are not generally without oundation,) while we would not needessly alarm our readers, it is safe to advise the usual precaution, and where it has not already been attended to, vaccin ation should not be neglected. "An ounce of prevention is worth a pound of cure," and when the small pox is in so near proximity, early attention to the preventive should be given. Where a period of seven years has passed after vaccination, an eminent physician ad vises us, it should be repeated.

> ONE PRICE .- There is a certain class of persons who are notorious bargain hunters. They take special pride in being able to say that they purchased this or that at a little lower rate aban their neighbors and in order to accomplish this are willing at times to place themselves in very unenviable positions .-They never think of purchasing until they have first succeeded in beating down the shopkeeper in his prices .-Show them an article for a dollar, though worth perhaps only half that sum, and they will snap it up greedily at seventy, five cents and carry it off in triumph .-The bargain hunters imagine themselves shrewder than most other people, but in this they are generally mistaken. An experienced salesman has no difficulty in detecting their drift and accordingly adopts first prices at figures that will enable them to fall considerably. This bait generally takes, and the result is

> that the biter is bitten. Now, we are of the opinion that merchant should adopt a fixed price for every article he has to sell. The prices of goods should be marked in plain figures, so that the purchaser might see for himself at a glance what he will have to now Having thus plainly declared his prices there should be no abatement. If they are too high for the customer the customer will know precisely what to do-seek for the article he needs elsewhere. If they are higher than the prices that rule the market the merchant will be compelled to alter his figures or keep his goods, for people very oon learn to know when goods are sold at fair profits as well as when the prices fluctuate according to the ranging capacities of the customer.

A Good Move.-The female principals of Chicago public schools are hereafter to be paid the same salaries as men performing like work. This is a recognition of woman's rights, of more practical importance than putting the ballot in their hands. We would like to see a similar rule adopted in this county. We cannot see on what principle of justice a woman, who does the same work as a man, is not entitled to the same salary.

ECLECTIC MAGAZINE.—The Eclectic for September is just out, and presents us with a very striking portrait of Max Muller, the distinguished linguist and scholar. These portraits, one of which embellishes each number, are a special city with the incendiary gang that had | feature of the ECLECTIC; and, inasmuch as the subject is always some man of wide general reputation, they add very on giving ball for his appearance at the | materially to the value of the Magazine. LATER August days are giving us cool nights and mornings, indicative of approaching fall. Dress your children with a thought to the condition of the atmosphere when they go out walking.

RESIGNED.-Rev. T. C. Pritchard has resigned the Pastorship of the First Lutheran Church at Mechanicsburg, and accepted a call to the Barren Hill charge near Philadelphia.

COAL.-Frugal housekeepers are glac to hear of the reduction of prices in coal. Now is the time to procure a supply of the black diamonds for winter use. See the advertisements of our coal merchants, in this day's paper.

BURLINGTON,-Leaving the East and arriv ing at Chicago or Indianapolis, how shall we reach the West? The best Line is acknowledged to be the C., B. & Q., joined together with the B. & M Railroad by the Iron Bridge at Burlington and called the Burlington Route. The main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Mid-

lle Branch, entering Nebraska at Platt

passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, form ing the shortest route across the Continent by over 100 miles.
