I said the old gentle I saw Mrs. K. again, in company with Dr. Ne and came home 9th April; my brother taking medicine all the time I was there was in the room most all the time I was She was very sick all day. John came of hav: when I came back she was sitting men thinks his daughter is poisoned; h there. He did anything he was asked in, on Thursday morning and evening, and hat nightshe died Thather husband was centhe hands of the Coroner, D. Smith, and brought me home; my sister was not from Dr. Zitzer. They were drops and home between eight and nine o'clock ; on the back porch, her head reclining on replied, "Yes, he does," and then exthe autopsy closed. I placed in his hand powders. I don't remember what kind to do. He seemed to be a good bit disvery bad; some days she didn't feel so nrable for the indifference he manifested by h she asked him to go for the doctor. H her hands; I asked her whether she was plained about the powders. There were he stomach, and a section of the small well, but she was around at the work all nwillingnes- to summor medical aid, when n tressed. I don't remember it was unusuof a bottle the drops were in. She had sunning herself. I went home, put my told her he would have to go back to the some powders in a box in the cupboard, intestines together, the liver, the hear nily his wife, but his neighbors, also, urged it ill beadmitted by all, and that there is a strong elling against him, in his immediate neighborone when I came and got one while I ally cold in February. It was about the time. She did the house work and norses away and got dinner; told my corn field; she asked him what he would and when the women went to look fo and the bladder. I procured one selfwas there. She took the drops in a cup; 26th February I was there. It was in feeding at the barn; she helped to wash have to go back for; he said to tell Mr wife Sarah was ill and she should go and them, they had disappeared. Dr. Stews aling glass jar, and the three others and take and scrub; all kinds of house | I do not remember the color of the morning they went to stable, about Nonker he couldn't stay. I told him Mr. nood, evidently produced by the above cause. see her. I next saw her on Tuesday art and I'visited her. I told Stewart of vere ordinary cap sealing jars. I careonnection with the unkind treatment, which drops, nor how many drops she took at eight o'clock. Kate was hired there at work. She dug in the garden, me and about four o'clock; she was kind of "be fully washed them myself. Dr. Long-Noaker wouldn't say anything if he did Doner's suspicions, and requested him to hiefly leads to the suspicio that time. There was only one calf in her; she fed the cows and hogs and a time. She never got sick, nor threw not come back. He said he would have king" and throwing up; she complained dorf and I put the organs in, covered the examine the case carefully, in regard to Yours, very truly, up the medicine. The coffee was the stable: I don't remember seeing John to go back to feich his coat. He said Mr. of burning in her throat and breast like; horse. I don't know where John was, her general health previous to the attack jars with clean white paper, and then ALEX. STEWART. only thing that made her sick. Me and doing any feeding. It was about feed-I talked to John; I told him if my wo-Colby told him corn tea would stop the when she did the feeding. We helped what medicine she had been taking, and Re-examined in chief-If a person with laced on the caps, and handed them over ing time, Mrs. Kiehl was tolerably to the Coroner. I located the seat of the John carry the harrow out to the field what effect it had. His examinatio her had a good bit to do; we visited vomiting." He got the corn and I parchman was in that situation I couldn't rest mpaired stomach had eaten the indiges well at that time. I didn't see her once. She led the horse to plough the Hoffman's; I was there two nights; I tible food mentioned, I don't think she disease which caused Mrs. K's deathiu ed it, and made her tea; that was what without going for the Doctor; he said she was thorough, and we found she had and not wan't the Doctor; I had asked her if she wanted a Doctor, and she said potato patch John was ploughing. She ate some apple butter, but did not say take any medicine while I was there .--he told me to do. He started off to the been suffering with dyspepsis or indiges the stomach and bowels. The disease would have felt comfortable through the corn field to fetch his cont. She drank was that of acute gastro enteritis. Gastro said, "John, I can't lead the horse, my I know she was under Dr. Zitzer's care tion, for some time back; that she had it tasted bitter. She never said she day-it would naturally have oppressed she couldn't stand it long this way; I at that time. She said the Doctor said didn't expect to live long. She didn't of the tea; it didn't do her any good; he been taking, medicine from Dr. Zitzer her. I examined her tongue-it was red, Enteritis is very rare, and seldom occurs heart hurts me." He said, ' Yes, I guess tolk him what his wife had told me, and she had palpitation of the heart. She but the last medicine was from Dr. Bixsmooth and dry-with the absence of the as an idiopathic, spontaneous disease; but your backside hurts you.' Me and Sarah was not away a long time. When he say she never expected to eat the letunhitched the horse; John was cross to complained of her heart hurting her came back, I wanted him still to go for he said "I just now came down and she er; the powders from Dr. Bixler, always is, in my experience, almost always, by tuce we planted. I didn't tell Mrs. nanillæ. Her face presented a pinched don't want a Doctor;" I told him I would made her sick in the stomach, and kept sometimes. It was in Kiehl's house we the doctor. I told him if he wouldn't go either some acrid irritant or corrosive sub contracted appearance, expressive of exhis wife sometimes; he was not very | John Noaker she had said so to me. her bowels loose. She had been eating stance. But this case, especially, I do had the conversation; Mrs. Kiehl was for the doctor I would go home; he told go if he said so; he did not say I should; pleasant with me. He was in the habit treme suffering. The matter vomited ANNA DONER-sworn.-I am a sister me I should go home, he wouldn't go for pie, on Sabbath, for breakfast, and for was brown mucous, tenacious. The burnnot believe to be idiopathic, because the then I went home. I saw her again on present, he said she would be apt to of visiting at Henry Myers', Kate's of Mrs. Kiehl; reside in Penn township; the doctor till dinner time. I went home, dinner, bread and butter and sausage. Wednesday, about the middle of the day; we had extensive inflammation of the have a sudden death—that people with father's. He often went in the evening, ing in her throat was the only indication I saw her on the 15th of January; then After consultation we concluded that the stomach and bowels, the surrounding palpitation of the heart generally die and left Kiehl and his wife alone in the she appeared to be very ill; her mother her case presented to my mind, that I and sometimes it was 9 o'clock when he I didn't see her again till I went up. I house. I came back directly; he was at came and I didn't go; her eves looked couldn't reconcile with the view that the symptoms she was suffering from wercircumstances would not warrant suchs uddenly. My sister didn't keep a girl came home. Sometimes he went there went the 6th of January and staid unthe barn talking to Martin Coover. He dim and glaring like, and she looked the symptoms that would be produced by disease might have been produced by inconclusion. We therefore said that we intil she doctored her hands. I couldn't every other evening : Kate Myers was til the 15th. I know Kate Myers and aid he would go to town and tell the wild.
