In anticipation of Mr. Sumner'sspeech on the civil rights bill at one o'clock, the galleries were crowded before 12, mostly with colored people.—*Telegrom* from Washington, Jan. 15-

We are coming to a beautiful pass, when the gallerles of the Senate are monopolized by niggers to the exclusion of white men. This is a daily occurrence, and yet we see such consummate fools as Sumner clamoring for "additional rights for colored men." Should Sumner's bill pass, then it will be considered a stigma to have a white skin.

AMNESTY .- In the U. S. House of Representatives on Monday, Mr. Hale submitted a bill rem oving all illegal and political disabilities, but providing that it shall not apply to any person who was a member of Congress or an officer of the army or navy, and thereafter engaged in the rebellion; also providing that the persons to be relieved shall take an oath to support the constitution before a proper officer, who shall certify the same to the secreta-

During the rebellion, when fighting men were wanted, Massachusetts literally furnished no troops, her quotas being made up elmost entirely from other States. The lock on the top of the box was no protection, as there was another entrance at the bottom. At the last election in Augusta, the Radi-cal managers offered the Democrats the charge of the key before the counting, they keeping the box. The result can easily be imagined. THE Boss THIEF.—It was only seven years ago that Wm. M. Tweed was so poor a man that there was a sheriff's execution in his house, placed there be-cause of the inability of the defendant to pay a triffing claim against him.— *Bactical Paper*. Mercury took the following very lifelike pen and ink sketch of his Excellency and the great Navigator Borie as they sauntered along after lunch on last Friday :

to pay a trinius Radical Paper, Friday: "The head of the greatest and 'best government the world ever, saw' or the sun shone upon, 'might have been seen' on Friday, in company with a segar and the sea dog, Borie, walking down Walnut street. The 'head' etc., with a segar in his mouth and his hands in his trowsers pockets, aforded a fine picture of the dignity pertaining to the Chief Magistracy of the nation and of the simplicity of American in-stitutions, while Borie could not have been accused of any ambition to be deemed a statesman. He looked the counting house clerk grown gray, and Grant might well have passed for a thrifty livery stable keeper." We know another man who, seven years ago, was not worth a baubee; nay more, he was not only worth nothing, but he was a defaulter to the government in the sum of \$5,000. Now this same man is estimated at two and a-half millions of dollars. His initials

THE GOVERNOR'S DEFENCE OF E VANS.

Governor Geary's unblushing defence of the Evan's frauds has excited indignant comment upon the part of the independed newspapers of the State. The Philadelphia Ledger declares that the attempted explanation is just no explanation at all. It says.

Philadeiphia Leager declares that the attempted explanation is just no expla-nation at all. It eays. There is a ponderous parade of figures, and an iteration and re-iteration of what Evans claims to have "collect ed" and "paid," which are only a rehastin of the former givings out from Harrisburg on this subject, and which were almost unanimously—rejected—by—the—public-months ago as insufficient and unsatis-factory. Not one of the damaging and exceedingly censurable circumstances connected with the aftair are cleared up. There is no shadow of justification for the allowance to Evans of 10 per cent. on \$1,910,000, which he pretends to have "collected," in connection with the pay-ment of Penneylvania's share of the U. S. Direct Tax. All the facts. all the fac-tor. All the facts. all the fac-by the unquestionable understanding of Governor Curtain, and the Hon. If anything was hacking, it was nothing more than mere formal entries and countér-entries of créd-ite already conceded, and virtually paid, as Governor Curtain announced, in Jan-uary, 1803, that Evans claimes as 'col-lections' by tim, and on this pretext withholds from the State Treasary \$191.-000, for his arduous struggles during a few weeks, in that novel style of ''col-lecting.'' The whole thing is a sheer subterfuge. It is not only a subject for regret, but for deep humiliation, that the Governor devotes no single word of cen-sure to this seandalous wrong upon the State, nor of Evans' coirse in withbold-ing the State moneys paid over to bim before there was even this shallow pre-text of earned commissions, nor of ex-planation of information as to bis proceedings for several years, and, in fact, until expressions of public indigan-tion compelied Executive notice.
