EVERY Democrat in the county needs a party paper during the approaching political campaign. A President, Vice President, Governor, Member of Congress and a county ticket are to be elected. Every good citizen is vitally inter-'ested in the result of the elections next fall. He owes it to himself to be thor oughly posted in political and party affairs. This he cannot be without the aid of his party paper.

AN ITEM FOR FARMERS.—The Legislature of Pennsylvania is being petitioned to pass an act providing for the des truction of weeds in this State. We are glad to see that our County Commissioners are determined not to support them in idleness, and they have accordingly set them to breaking stone in the jull yard. On Saturday last a gang of these recipients of public charity, most of them young, able-bodied men, were employed in shoveling the snow from the Court-house pavements This is a good plan, as those of them who are not disposed to work will soon leave for other parts, and thus relieve ou

county of the burden of their support. THE SPARROWS .- A colony of English sparrows arrived here (from Philadelphia, we presume,) early in the winter and are still here. The flock does not appear as large as it was, and it is more than probable that some of them have perished from cold and hunger. These interesting birds should be carefully guarded and fed during the winter nonths. Their value consists in their ability to destroy worms. They were imported from England by the Philadel phia authorities some three years ago for this work, and in a scort time the vorms which had infested the trees in the public squares, were destroyed. The English sparrow and worms cannot live

Would it not be ruined for a time? We think it would. SCHOOL TEACHERS' SALARIES -The recommendation in the message in ref rence to increasing the salary of public school teachers, should receive earnest attention. As a general rule the school teacher receives inadequate compensa tion. The position of teacher is both responsible and trying. The formation of character, and moral training of thousands of children, rests with the school eacher, and while we believe they con scientiously discharge their duties, they should be placed in a position, by increase of salary, that would free then from pecuniary difficulties. THE NEW MILITARY LAW.-The new law before the Legislature repeals all acts hitherto passed referring to military natters. The number of troops to be enlisted is restricted to 20,000 men, instead of being unlimited, as heretofore, and the num her of divisions to be reduced to seven; thus throwing at least fourteen major generals out of office. One of the most important parts of the act is that pertaining to the mode and manner of raising the requisite funds-for the support of the National Guard. Each county in the state is compelled to make a report each year of the number of citiforty-five years, the only exemptions beyond the usual ones being those wounled in action during the late rebeliion. The report is forwarded to the adjutant | Middlesex township, on Monday, March general's office, and on that basis the tax 4 for military purposes is levied on each county and collected and paid into the treasury of the state in the same manner | March 5. as county rates and levies are collected and paid. Brigade boards are dispensed with, their duties being performed by camp expenses, &c. The act goes into all the minute descriptive of the machinery necessary to properly conduct a

TOWNSHIP OFFICERS.—Township officers are very often remiss in the discharge of their duties, and especially neplectful of the law which requires them o make public their doings through the press. A State law makes it obligatory for township auditors to publish an an anal statement of the county finances of the township. All township officers refusing or neglecting, while in office, to make the requisite statement and publication, are liable to be dealt with as the law directs.
