IT is a singular fact that Judges Taylor, Graham, Buffington and Woods, whose terms of office all expired last fall, have since died.—*Bellefonte Watch*-

This must be a mistake. It was only last evening that we conversed with Judge Graham, and he looked and and dishonest companions. Let him, talked remarkably well, and never intimated to us that he was dead.

BRIGHAM YOUNG pledges three electoral votes of Utah for the Republican party as a bid for the admission of that Territory into the Union as a Stateand a call goes from Washington to the United States officials at Salt Lake to "halt!" Is Grant willing to shoulder polygamy, too, in order to be re-elected.

THE authorities at Washington are said to be convinced that "the generalorder business, to use a mild phrase, is an imperfect system and unjust to importers." This conclusion, says the N. Y. Iribune, has only been reached after five weeks investigation and a month of most dangerous exposure of corruption and fraud.

THE friends of Senator Sumner are sanguine that if he can secure the paspage of his Resolution of Inquiry in regard to the sale of arms to the French. and the appointment of an honest committee, he will be able to show how some of Grant's pets pocketed four millions of dollars which should have -gone-into-the-U.S.-Treasury.-

DIED .- Mr. Thos. Adams of Toboyne township, Perry county, died on the night of the 14th inst. He was esteem ed for his many good qualities, and commanded the respect of all who knew him. He represented Perry co., in the Legislature in 1854, and served three years as County Commissioner.-He was about 65 years old.

THE NEXT ELECTION .- The first State election that occurs in 1872 is in New Hampshire. She votes for a governor and Legislature on the Second Tuesday in March. She had been Re publican for seventeen years by small majorities, but in March, 1871, aided by local issues, the Democracy unexpectedly carried the election, choosing their Governor and all three of the members of Congress. Gov. Weston is again the Democratic candidate.

SUICIDE WITH A SCYTHE .-- A few months ago a son of Henry Gilbert, residing near Halifax, Dauphin county, accidentally jumped on a scythe and fatally injured himseif. The loss of his child wrought a melancholy change in the father, who repeated expressed himself in a mess-ure responsible for the death. On Thursday the lifeless form of Mr. Gil-bert was discovered in his barn, he having evidently commuted suicide while mentally deranged. The scythe which killed his son is said to have neen used in effecting the bloody deed. Mr. Gilbert was an estimable citizen of the county. self. The loss of his child wrought a

And it is such men as Holden that the President takes to his heart. "A able light, here is positive proof, that in fellow feeling" induces Grant to associate with the worst men in the country. A fast man himself, who, through a most unaccountable freak of the American people, has been invested with power, he has used that power to enrich himself, his relatives and his rowdy through Holden as his editor, and Morton, his bugleman and employed attorney in the Senate, crack the administration whip as much as he pleases ; it will not avail him. The people are in no mood just now to be frightened by the screams of buzzards who sit in eagle's nests, or the grunts of wild boars who have taken refuge in the lion's lair. No! The yeomanry of the country-who, thank God, are still honest and brave-have sworn in their hearts that this besotted and thieving

administration must be put down.-Already the people are moving, and the distant thunder can be distinctly heard. "The sober second thought of the people" has brought them to their senses, and they now see, if they never, cised by the official agents of Radicalism did before, that our country is in immito crush out the spirit of the South and nent danger. We want a man, a states man, a citizen of character, to take the

helm and save the nation. Grant-poor mbecile and grabber that he is-has been weighed in the balance and found wanting, and after the fourth of March. 1873, a ticket of leave will be issued to him:

FALLING TO PIECES.

The Radical party is falling to pieces from the weight of its own corruption. Many of its leaders are now either in jail, the penitentiary, or fugitives from iustice.

Here is the corrupt procession : Bullock, of Georgia, and Holden, of North Carolina, are both fugitives from justice; Scott, of South Crrolina, only

escaped impeachment by a trick; Davis, of Texas, is under indictment for tampering with the election returns; Clayton, of Arkansas, now in the U.S. Senate, has been proved guily before a committee of congress of bribery and corruption. Warmoth of Louisiana, is accused of similar practices by the opposing wing of his own party in that

state. And now Reed, of Florida, like the rest of them a firm friend and supporter of General Grant, has been impeached for his scandalous transactions.

When these facts and figures are considered, and it is remembered that the Radical majorities in Congress, in order to degrade the South still more, did what Rome, in her wildest career of conquest refused to do, by making the slaves the rulers of their recent masters, the people will understand how it is that here and there, in exceptional localities, American nature has revolted at this tyranny, and
