Agricultural.

CLOVER AND GRASS LANDS.

If more of our farm lands were kept in clover and grass than is usually the case, we should not only hear less frequently of the exhaustion of the soil, but should feel tolerably certain that, with ordinarily good farming, it would be in a fair way of yielding larger crops of cereals on a similar extent of land.—It is the manure that is made on a farm that constitutes the primary source of profit to the farmer. It is the rapid exhaustion of farms and plantations by hoed crops, corn, tobacco, etc., not only in consequence of the immense amount of phosphates which they extract from the soil, but also by reason of the exposure of the soil itself, and too ardent summer heat, which has thrown out of cultivation in this and other of the older states so many fields that were once fertile but now are filled with sedge grass, and rugged and unsightly gullies and ravines. Soils in our climate need to be kept covered in clover and grass to as great an extent as is consistent with good husbandry. They improve under the shade of clover, because this dense covering prevents evaporation, and because also the long taproots of this fine forage plant penetrate deep down into the subsoil, where they rot, and furnish aliment for succeeding crops.

A good crop of clover turned in, is equivalent, moreover, to a good dressing of barn yard manure; for it contains all the constituents in which the cereals delight. Grass lands, for similar reasons, when not too closely cropped, improve the soil inasmuch as they not only prevent evaporation and add vegetable matter to the soil by the decay of their under leaves, but they also leave many tons of vegetable matter to the under soil by their close net work of fine fibrous roots when the land is again brought under the plough.

"THE KEY-NOTE."—We must raise larger crops; and to do this we must raise them less frequently. This is the key-note of the coming improved system of American agriculture in all sections where good land is worth less than $100 per acre. In the neighborhood of large cities, and wherever land commands a high price, we must keep our farms in a high state of fertility by the purchas of manures or cattle food. Those of us in the interior, when we cannot buy manure, must raise fewer grain crops and more clover. We must aim to raise forty bushels of wheat, fifty bushels of barley, eighty bushels of oats, and one hundred bushels of shelled corn, and five bushels of clover-seed per acre. That this can be done on good, well drained land, from the unaided resources of the farm, I have no doubt. It may give us no more grain to sell than at present, but it will enable us to produce much more mutton, wool, beef, cheese, butter and pork than at present. "But, then, will there be a demand for the meat, wool, &c?"—The present indications are highly favorable. But we must aim to raise good meat. The low priced beef and mutton sold in our markets is as unprofitable to the consumer as it is to the producer. We must feed higher, and to do this to advantage we must have improved stock. There is no profit in farming without good tillage, larger crops, improved stock and higher feeding.—*Joseph Harris.*

HOG CHOLERA REMEDY.—R. H. Worthington sends the Towsontown Journal the following prescription, which he states is a sure cure for hog cohlera: "Take ten grains of calomel and ten grains of tartar emetic, and and make them into a pill. As soon as it is known that the hog is sick give the pill. If there is no change for the better by the next day, or within twenty-four hours, give another pill of the same ingredients." Mr. Worthington says he has never known a second dose of medicine fail to effect a perfect cure and restore the hog to perfect health.—Mr Worthington himself has cured more than 100 hogs, which have been afflicted with the cholera, by this medicine.—*Rural New Yorker.*

CONSUMPTION.—The late Dr. Marshall Hall, of England, said "If I were seriously ill of consumption, I would live out doors day and night, except in rainy weather or midwinter; then I would sleep in an unplastered log house. Physic has no nutriment, gaspings for air cannot cure you; monkey capers in a gymnasium cannot cure you. What consumptives want is pure air not physic—pure air, not medicated air—plenty of meat and bread."

REMEDY FOR BURNS.—Wm. H. Lewis sends us the following which he has "thoroughly tested and knows to be good:" One ounce of air-slaked lime and three ounces of hog's lard; mix thoroughly and apply to the burn. It will afford immediate relief, and when applied to a fresh burn will heal the sore and leave no scar. We may say that whatever will *exclude air* from a burn will give relief.—*Rural New Yorker.*

TWO RECIPES FOR NEURALGIA.—The following have been sent to us: Take one-half ounce of sal-ammoniac, in an ounce of water—a dose of one teaspoonful three or four times a day; oftener if needed. Another correspondent sends the following: "Horseradish root, bruised and bound upon the face, or wherever the pain is located, will often give relief when other means fail."

WHOOPING COUGH.—The Indianapolis News says: For the past two or three weeks an average per day of forty or fifty persons having the whooping cough, visit the purifying room of the gas works. A cure is effected by the person coming five or six times and staying ten or fifteen minutes each time. Relief is felt usually within a day.

ALUM FOR FOUNDER.—Let one man hold the horse by the halter; then have the alum pulverized, and one man take the horse by the tongue with one hand, and with the other lay a large tablespoonful of alum as far down his throat as he can, on the roof of his tongue. Be sure and pull the tongue out well. Let the tongue loose and the alum will go down.—*Rural New Yorker.*

Give him a call, at the above number, his old stand, as he feels confident of giving entire satisfaction.

Sept. 28, '71—tf.

Medical.

Ayer's

Cherry Pectoral.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. It is known, and its virtues proved, among most of the races of men it has risen higher and higher in their estimation, as it has become better known, for its unfailing character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector of mankind. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or to more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh or miasmatic poisons.

As its name implies, it does CURE, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy action.

For Bilious Disorders and Liver Complaints, for excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold around the world.

PRICE, $1.00 PER BOTTLE.

Sold by all Druggists Everywhere.

HAVERSTICK, Agent, Carlisle, Pa.

1. To order all coal in Company cars.
2. To charge nine weight, irrespective of any loss in shipment by leaky cars, &c.
3. To deliver your coal as it comes to hand, without re-screening, dirt and all.
4. That in the above-mentioned mode of business you *will lose 10 per cent.*, so that when 20 tons are bought and sold for, *you really get but 18 tons.* To this fact all regular dealers will testify.
5. To strive to get your coal from any breaker you may desire, but as we have to receive what is sent, be it Summit Branch, Big Mick, or Short Mountain from Lykens Valley, some of these being not so desirable, the same applying to the Lorberry and Swatara coal, we can furnish you.

Should you wish to purchase coal where it can be seen at all times, kept in the dry, *screened and weighed before delivery*, call at either yard of the subscriber, where your orders will be promptly filled, and promise to save you the tax and vexation caused by using *dirty* and *inferior* coal, thereby giving your supply for less money than any one can do by furnishing the run of mine

A. H. BLAIR.

USE THE BEST

HALL'S

VEGETABLE SICILIAN

HAIR RENEWER.

Nine years before the public, and no preparation for the hair has ever been produced equal to Hall's "Vegetable Sicilian Hair Renewer," and every honest dealer will say it gives the *best satisfaction.* It restores GRAY HAIR to its original color, eradicating and preventing dandruff, curing BALDNESS and promoting the growth of the hair. The gray and brashy hair by a few applications is changed to black and silky locks, and wayward hair will assume any shape the wearer desires. It is the cheapest HAIR DRESSING in the world, and its effects last longer, as it excites the glands to furnish the nutritive principle so necessary to the life of the hair. It gives the hair that splendid appearance so much admired by all. By its tonic and stimulating properties it prevents the hair from falling out, and none need be without Nature's ornament, a good head of hair. It is the first real perfected remedy ever discovered for curing diseases of the hair, and it has never been equalled, and we assure the thousands who have used it, it is kept up to its original high standard. Our Treatise on the Hair mailed free; send for it. Sold by all Druggists and Dealers in medicines. Price One Dollar per bottle.
