SANITARY PRECAUTIONS.—The existence of local diseases in every part of the
country, as well as the fears of coming
epidemics, is urging municipal authorities everywhere tobe in readiness to meet
and if possible repel these epidemics—
For this purpose a thorough cleansing of
the streets, lanes, alleys, cellars, &c., has
been recommended, and will no doubt be
adopted. Then arises the question,
What shall we do with the fifth in our
streets? Why, take it away, cart it off,
and use it for manure, in such a manner
as to involve the least danger of infection, and contagion and cause the least
nuisance to the people. The question of tion and contagion and cause the least nuisance to the people. The question of keeping a town clean is one of the most important of all human questions, and should receive the careful attention of every citizen. Every house and village and town should be in a decently, cleanly condition before other duties are attempted. The cellars too, should always be kept clean. This is a most important consideration. Diptheria, typhoid and soarlet fevers, and many other most serious illnesses, have their origin in cellars, both in town and country; and we can do our readers no greater service than to both in town and country; and we can do our readers no greater service than to urge them to see that at all times they are in a dry, sweet, wholesome condition. Why should farmers' families, living in the country away from the pestilential vapors of the towns, be so subject to attacks of malignant diseases? There is a reason for it, and we can point it out.—

aOH AGAIN1 sighs the weary and ex-bausted one, as the languer and inssitude of spring comes upon him. Come and receive vi-ger and strength from the wonderful South American Tonic Jurubeba ! long and successfully used in its native country, as a powerful Tonic and potent purifier of the Blood. It is found even to exceed the auticipations founded on its great reputation. According to the medical and scientific periodicals of London and Paris, it possesses the most powerful tonic properties known to Materia Medica. Dr. Wells' Extract of Jurubeba is a perfect remedy for all diseases of the blood, organic weakness, glandulous tumors, dropsy, scrolita, internal abcesses, and will remove all obstructions of the liver, spleen, intestines, uterine and arinary organs. It is strengthening rine and arinary organs. It is strengthening and nourishing. Like nutricious food taken into the stomach, it asimilates and diffuses itself through the circulation, giving vigor and health, it regulates the nerves, acts directly on the secretive organs, and, by its powerful tonic and restoring effects, produces healthy and vigorous action to the whole system.
