PUT IT IN WRITING .- How many misunderstandings arise from the loose manner in which business matters are talked up, and then each party puts in his own construction on the conversation, the matter is dismissed by each with "all right,","all right," Frequently it turns out all wrong, and becomes a ques tion for lawyers and courts. More than one-half of the expensive and useless litigation of the country could be saved if people were in the habit of putting their agreements in writing. Each word in our lauguage has its own peculiar meaning and memory. Maybe the change of. position in a sentence, conveys an entirely different ides from that intended. When once reduced to writing, ideas are fixed and in elastic.

THE ACCEPTED TIME .- Now is the time for all who desire cheap coal to purchase it, as the prices of the different qualities have, in all probability, reached the lowest point of the season. Many persons make a great mistake in deferring to lay in their supply of this indianensable article until the late autum or early winter. It should always be done in summer, be stored in some dry place, when it will be at hand if unexpected cold weather should come. Messrs, A. H. Blair & Son, have on hand a large supply of coal of every description, which they will dispose of at prices to suit the times. Mr. Zinn, is also well supplied with all kinds of coal:

a shocking manner. Scott was removed to the residence of Dr. Grove, on Pomfret street, where his wounds were dressed. The German was evidently very much excited, for it was with difficulty that he was arrested and lodged in jail.

"EMANCIPATION DAY."-The colored population of our borough celebrated the anniversary of their emancipation on nies and civic societies from abroad were invited, and participated in the exercises. The procession was formed early in the

day, on North street, and after marching | down corrupt Rings and the bad men who uphold them. Rally, one and all! TRIBUTE OF RESPECT .- At a meeting of the Union Fire Company, held the exercises were concluded at the Garrison the procession was again formed

HOP AT MT. HOLLY .- On Wednesday evening last by the kind invitation of the Messrs Mullin, quite a number of ladies and gentlemen of our town assembled at Mt. Holly Springs to spend a pleasant hour in tripping the " light fanand whose active zeal in behalf of the Company has always been appreciated, and to whom the Company owes a last-ing debt of gratitude for his untiring efforts to place her in the position she now occupies, and whose counsel and advice was always good. *Resolved*, That the hall and appara-tus be draped in mourning for the period of thirth days tastic toe," and exchanging courtesies with the guests of our pleasant summer resort.' Before the hour announced for dancing had arrived, the spacious ballroom was thronged with an assemblage of beauty and grace sufficient to make the heart of the most incorrigible bache lor flutter. As the music struck up there was a momentary lull as each gentlemen

sought his partner for the dance, and then followed a scene rivalling in its charming beauty the many colored features of the Kaleldoscope as " in the mazes of the giddy waltz they flew." Widner's orchestra furnished the mu-

sic, and the dancing was under the supervision of Mrs. McSherry. It would be almost invidious to name any of the very pretty young ladies present, but suffice it to say many of them were universally admired. The occasion was one long to be remembered, and was particularly enjoyable because of the ab-

sence of all "stiffness" between the town and the Holly people. The messrs Mullin have the thanks of the entire company for their generosity and attention, also Mrs. McSherry, who chaperoned the
