SILVER CORNET BAND.—During the

m onth of October, last, the subscribers were called upon, to again contribute towards the organization of a Silver Cornet Band. We were discouraged with the prospects, as we had almost lost all confidence in an enterprise of this kind, judging from precedents. and were again afraid of being the "victims of misplaced confidence." We inquired of the material of which this band was to be composed. After learning that it was to be an entire new who for the majority were considered them, that we were willing to contribute and wished them success. Very thankful for the encouragement already received, we beg the further indulgence of the community.

The above mentioned band will deliver the instruments on Thursday evening, August 15th, (weather and comet permitting,) after which those having subscribed will be called upon for the amount of their subscriptions. LOCAL NEWS.-A great many people think a newspaper should have about a page of local news, whether anything happens or not. Deluded mortals; ediors cannot make people break their necks, commit sulcide, run away with their neighbors' wives, or do any of the other exciting things which go to make up the material out of which the local reporter delights to weave paragraphs to be served up each week. Furnishing do mestic news, when there is none, is very much like extracting blood from a turnip. It is no more than fair, however, that those persons who grumble at the lack of local news in their paper, should stop and think whether they could not have given the editor an item or two worth printing, and if so, let them hold their peace, or growl at their own remissness. Resolved. That by the sudden decease of Brother Parker, we are impressed with feelings of profound sorrow for the great loss sustained by the Sigma charge of the Theta Delta Chi, in this first inroad on the wall of its founders. Honest and self-assured in his convictions, hewas fearless in their expression, and immovable in their maintenance. This marked decision, this conservative firmness, this sober solidity, joined to great industry and entire devotion to whatever pertained to the Fraternity, made him the and entire devotion to whatever pertained to the Fraternity, made him the prominent Theta Delt he grew to be.— As one of the founders of the Sigma charge he was always among the foremost in all movements pertaining to the Charge—encouraging with his voice, his influence and his means, every project that seemed likely to promote the welfare of the Fraternity. SPECIAL NOTICES. HOW TO GO WEST.—This is an inquiry which every one should have truthfully an-swered before he starts on his journey, and a

ttle care taken in examination of Routes wil n many cases save much trouble, time and m iey. The "C., B. & Q. R. R.," running from Chicago through Galesburg to Burlington, and the "I, through Galesburg to Burlington, and the "I, B, & W. Route," running from Indianapolis, through Bloomington to Burlington, have achieved a splendid reputation in the last two years as the leading Passenger Routes to the West. At Burlington they connect with the B. West. At Burlington they connect with the B. & M. R., and form the great Burlington route, which runs direct through Southern Iowa to Nobraska and Kansas, with close connections to California and the Territories; and passengers starting from Carliste, on their way Westward, cannot do better than to take the Burlington.

ington Route.
This line has published a pamphlet called This into has published a pamphice cannot whose to go West," which contains much valuable information; a large correct map of the Great West which can be obtained free of charge by addressing the General Passenger Agent B. & M. R. R., Burlington, Iowa.

The Castoria prepared by Dr. Pitcher is purely vegetable, perfectly harm-less, pleasant to take, and more effective than Castor Oil. It does not distress or gripe, but Castor Oil. It does not abstress or gripe, our regulates the system, and operates when all other remedies have failed. It acts like magic for stomachache, constipation, flatulency, croup and worms. It contains neither minerels, morphine not alcohol. Its soothing, quieting effect produces natural sleep, and particularly adapts it to crying and teething children. No article has ever wat such upon titled endorsoment by has ever met such unqualified endorsement by the physicians. Take, no more bitter pills, nar-cotte syrups, griping purgatives or sickoning pils. The Castoria costs but 50 cents, and whom nce tried you will never be without it. J. I

THE GREAT SOUTH AMERICAN **Blood Purifier** Jurubeba,

It is not a physic which may give temporary relief to the sufferer for the first few doses, but which, from continued use, brings Piles and kindred diseases to aid in weakening the invalid, nor is it a doctored liquor, which under the popular name of "Bitters" is so extensively paimed off on the public remedies, but is a most powerful Tonic and alterative, pronounced so by the leading medical authorities of London and Paris, and has been long used by the regular physicians of other countries with wonderful remedial results.
