The police trade is dull. Roses are getting scarce. Apples are ripe and delicious. Examine your furs and woolens.

Potatoes are nearly grown out. Cider is plenty and getting cheap. Our jottings are read by everybody. Provisions are now cheap in market.

The first frost will be a welcome visitor. New apple butter is coming into market. The Dog Days terminated on the 23rd inst.

Some of our rheumatics wear red shirts. You may find your best friend or your worst enemy in yourself. Ginger bread parties are the latest invention in the social line.

To make hens lay—their legs together so they can't stand up. Bill heads, card heads, circulars, &c., neatly printed at this office.

There is no economy in using common sugar for preserving. Use the best. Melon trade has been brisk for the past few days—and the swine are having a good time.

This disease known as "flu" is prevailing to a great extent among the young horses in Chester Valley. Political clubs, organizing for the campaign, will find it greatly to their interest to get their printing done at the Volunteer's office.

This distinguished military officer now occupying the White House, will be very shortly reduced to the rank of left-tenant. Remember that the fall Exhibition of the Cumberland County Agricultural Society will be held in Carlisle, on September 25-27th.

A CART WIP, pushed but foremost down the trough, the proper antidote for a cow choking on an apple—so an up country farmer says. Hon. A. K. McClure will address the Liberal Republicans of Chambersburg on Saturday night, the 31st inst.

A merchant advertised for a clerk "who could bear confinement," and received an answer from one who had been seven years in jail. Stagnant wells may be purified and sweetened by suspending a bag of charcoal, with a stone in the bottom of the bag so as to sink it, in the water.

It's hot and "will a hotten," and although we have had as yet no cases of an stroke in our place, there has been a good deal of striking for the bear raisers and cool places. Individual living horses and carriages from lively men should be in mind that there is a new in existence which subjects parties who recklessly injure horses or vehicles, to fine and imprisonment.

The lengthening of the evenings, or rather shortening of the days, gives a gentle reminder that summer is waning, and soon the red and yellow leaf will follow in its wake. Pensioned soldiers making application to any examining surgeon, in cases of hernia, can be supplied with trusses by the government. Heretofore only artificial limbs were provided.

TOMATO CHIEF.—This is said to be a beneficial diet for consumption. It is made by straining finely strained tomatoes through a coarse sieve, and adding two parts of milk and one part of tomatoes for four eggs and one teaspoonful of sugar. Bake in small cups quickly. Local editing must be jolly in Salem, Washington county, New York. The editor of a paper published there received the following missive: "You are fellows who want to keep your names out of your paper, else you'll get a d—d snout busted. This means blizzard."

NOTWITHSTANDING our frequent instructions to correspondents to accompany their favors with their names, we still continue to receive articles of an anonymous character. We again reiterate, that such communications will receive no attention but of committing them to our waste basket. This other night a young man proposed to his sweetheart the idol of his heart. She laid her foot white hand in his, but her head upon his manly shoulder, gave a sweet sigh of resignation, and in dulcet accents that sounded like sweet music on the water, whispered: "Yes, dear; anything to beat Grant."

The following we find in one of our exchanges: "The bed-bugs are so bad in a certain up-town boarding house that the proprietor fearing lest some of his boarders should be carried away unawares during the night, and desirous of warning them of their danger without sending a thrill of horror to their hearts, has caused a placard to be placed above each bedroom door, bearing the mild announcement, 'The pestilence walketh in darkness.'"

GREEN CORN DUMPLINGS.—A quart of young corn grated from the cob, half a pint of milk, half a pint of wheat flour sifted, a salt-spoonful of butter, two full of pepper, and butter for frying.—Having grated the corn as possible sufficient young fresh corn to make a quart, mix it with the wheat flour, and add the salt and pepper. Warm the milk in a small sauce pan, and soften the butter in it. Then add the gradually to the pan of corn stirring very hard, and set it away to cool. Beat the eggs light and stir them into the mixture when it has cooled. Flour your hands, and make up a sufficient quantity of fresh butter in a small sauce pan, and when it is boiling hot, and has been skimmed, put in the dumplings and fry them ten minutes or more, in proportion to their thickness.

For beauty and purity of tone, charming solo songs, elegant design and finish, there are no organs to equal the Geo. W. Sheffer, of East and Leather Streets, J. M. Masonheimer's organ, corner of Pomfret and Pitt streets, Carlisle.

OUR Street Commissioners cleaned and macadamized the street in front of our office last week. This was much needed and we feel thankful that we have been relieved of the foul odor which we experienced for months past.

ON Friday last Robert Lane and another "dark" became involved in a quarrel in the vicinity of this office. During the melee Lane cut his antagonist with a knife, when Constable Sano intervened, frantically arrested Lane, and Bob took "leg bail" and made his escape.

ACCIDENT.—On Thursday last, Wm. Crall, while engaged in repairing spouting, at the residence of Mrs. Geo. W. Sheffer, corner of East and Leather Streets, fell from a ladder, on which he was standing, to the ground. We are glad to state that Mr. Crall's injuries were not of a serious nature.

CAMP MEETING.—A Camp-meeting under the auspices of the Springville Church, will be held in Andrew J. Nickley's woods, in South Middleton township, commencing on Thursday, September 5, No. Bucketers will be allowed to attend, but no other persons. Eminent divines from different parts of the State will be in attendance.

BURGLARIES.—Moonlight mechanics have been operating successfully in this borough recently. On Thursday night last the liquor store of Mr. John Hannon, corner of Hanover and Pomfret streets, was entered and the money drawer, which contained about five dollars, was rifled, and a quantity liquor carried off. On Friday night the saloon of Frederick Babner, opposite the market house, was burglariously entered, and the money drawer robbed of about eighteen dollars. Several other petty thefts were also committed.

DR. SCORPENO.—The second trial of Dr. Paul Scheppe, for the murder of Miss Maria M. Elmendorf, by poison, was commenced in our Court yesterday, Judge Junkin presiding. At the time of going to press a full jury had not been chosen. The case will occupy a week or more. As we published the testimony in this case in full at the first trial, we will not re-publish it, for it would afford no interest to our readers. We will, however, give any new evidence that may be elicited, and a general review of the present trial.

The following jurors have been drawn for this trial up to our going to press: B. F. Anderson, Southampton township; John Martin, East Pennsboro; C. Shupley, Carlisle; H. P. Clough, Shippensburg; and Peter Zinn, Dickinson township.

HOME AGAIN.—Our young friend and townsman, James H. Graham, Jr., Esq., who has been enjoying a sea voyage, has returned home in excellent health and delighted with his trip. He left New York May 3rd, in the United States Steamer "Portland," (by-the-way, a most excellent vessel.) The vessel touched at Funchal, on the island of Madeira; from there went to Rio de Janeiro, Brazil; Rio de Janeiro, on the 29th, and returned to New York August 11th. All on board enjoyed his usual health during the entire trip. Mr. G. will accept our thanks for a bottle of Red Madeira wine, which he purchased for us at Funchal.

SUDDEN DEATH.—On Thursday last the sad intelligence was received in this place, of the death of our former townsman, Mr. Lewis Bosh, which occurred at Chambersburg, on the 29th inst. Bosh was recently removed from this place to Chambersburg, where he established a livery stable, and was attending to his work when he fell over and expired. We learn he died of heart disease. Mr. B. was a native of our borough, and was a member of the 7th Regiment, Pennsylvania Reserves. Several months ago Mr. B. met with an accident on the Cumberland Valley railroad, at Bridgeport, and amputation of his leg became necessary. He was an upright citizen, and a respected member of our community. His remains were brought to this place on Thursday afternoon, and interred in Ashland Cemetery on Friday, followed by their last resting place by the Order of Odd Fellows, the relatives of deceased, and a large number of friends and acquaintances. Peace to his ashes.

DEATH FROM A SNAKE BIT.—Several weeks ago we noticed in these columns that Mrs. Brehm, of Frankfort township, had been bitten on the foot by a copperhead snake, and was suffering the most excruciating pain from the effects of the bite. Her suffering ceased when a mortification set in and caused her death, as will be seen by the following, taken from the Newville Star: "Mrs. Brehm's death was occasioned in a rather singular manner. On the foot, in her back yard, by a copperhead snake which was lurking in the grass, she was bitten on the foot, and the swelling began to extend up her foot, and Dr. Zitzer was called, who prescribed remedies that aggravated the symptoms. Since that time she has been better and worse with her limb of her foot, which was swollen considerably worse, though not alarmingly so. Some hours before she died she was feeling very well, having eaten considerably, and she died in a happy state of mind. It is supposed mortification was in progress which finally caused her death."

AN INTELLIGENT PIG.—The Jeffersonian, published at West Chester, this morning, says: "At a meeting of the members of the Bar of Cumberland Co., held on the 2nd day of August, A. D., 1872, in the Law Office of John C. Brantley, at West Fallowfield township, Chester county, is the owner of a pig of the feminine gender, that outrivals the generalty of her species in point of genius and intelligence. On the shaking of apples from trees in Mr. Pyle's orchard, she appears to give her undivided attention. In the evenings, she with the other members of the pen are fastened up, and Mr. Pyle informs us that upon opening the pen in the morning, she starts upon a run of the orchard followed by the other pigs, and after eating all the apples to be found upon the ground, she proceeds to shaking the trees herself, while the rest look on, and at every shake, all the fruit to the spot and partake of the fruit which she causes to fall. Her method of shaking the apples is to climb to the top of the tree, and with the same vim displayed by a terrier when in possession of a rat, she makes the tree tremble from top to its roots, and always with fruitful results. Where the limb is not high enough to allow of her getting her feet upon it, she jumps two or three feet to catch the limbs, bring them down and give them a violent shaking. The other pigs evidently hold her in high respect, and are invariably follow, well knowing that a feast is sure to be the ultimate result. Although her demonstrations upon the delicious fruit are not wholly repressed by her owner, still he admits that his objections often yield in order to see her get her rounds, catering for the tastes of her admiring followers."

DEMOCRATS and Liberal Republicans, do not forget the Grand Rally, "Good Will Hall," on Friday evening, Colonel A. K. McClure, of Philadelphia, will address the meeting.

DICKINSON COLLEGE.—The Fall Term will open to-day (Thursday), the 20th inst. On Friday (the 21st) a public dinner will be given to the students of Dickinson College, Rev. J. A. McCauley, D. D. of Washington City, in the College Chapel, at 10 A. M. The citizens are invited to be present. The Junior Prize Contest in Oratory will take place in the Emory Church, at 8 P. M., the same day.

ON Tuesday evening last the printer boys of this office were treated to copious draughts of cream beer, fresh and pure, at the bakery of Mr. Jacob Martin, on the corner of East and Leather Streets, meaning the old ones and young ones collectively, and all expressed their opinion that Mr. Martin knows how to make beer. All those who wish a good glass of beer should call at the above bakery.

SERIOUS ACCIDENT.—We regret to announce that a serious accident occurred to Mrs. Geo. W. Sheffer, on one day last week. She was in the act of cooking, when she fell from a ladder, and fell, bruising one of her limbs in a shocking manner. At this writing she is in a very critical condition. Mrs. S. is in an estimable lady, and we hope next week to be able to record her recovery, for if any young man should take place here, it would be keenly felt in this community.

TERRIFIC EXCITEMENT.—Coming up Broad street one evening last week, we noticed a crowd of people at the intersection of Pitt and Pomfret. Being anxious to learn the cause of the excitement we proceeded further up Pomfret, and noticed that the street in front of Jack Bites' store was crowded with people, many of whom could not gain admittance to his store—each one of whom wanted to procure one of his mammoth Watermelons. All the different kinds of vegetables always on hand. A lot of fresh groceries and notions just received.

COURT.—The August Term of Court commenced on Monday. The Hon. B. F. Anderson, President Judge, in the chair, assisted by Associate Judges Montgomery and Wilmer. The attendance is large and a great amount of business was transacted during the first two days of Court. The trial of Dr. Paul Scheppe, came up yesterday, and promises to be as lengthy as the trial in full. We presume our readers are sufficiently tired of this case, and the entire evidence appeared in a former number of this journal. A synopsis of the trial will appear next week.

SATURN.—The planet Saturn, being now favorably situated for observation, is watched with the greatest interest on account of the recently discovered fact that the inner dusky or semi-transparent ring has disappeared. Saturn has always been one of the most interesting planets to astronomers. When first discovered it was thought to consist of three bodies, the largest being considered the central system; but in 1695 Huyghens made the announcement that the planet is surrounded by a thin, flat ring, nowhere attached to its surface. It was then the discovery that the ring was double, and finally Sir Wm. Herschel discovered the satellites "like pearls strung on a silver thread," and in 1822 the transparent ring, now invisible, was made out. This remarkable series of discoveries, considering the distance of the planet from the earth, has suggested for Saturn the title, "the marvel of marvelous heavens."

THE CIRCUS.—No show has ever exhibited in this place which left a better impression than that of Old John Robinson's, on Monday afternoon and evening. The show was a grand one, and the exhibition, in Montgomery county, was killed by lightning on the night of the 29th inst. OLD JOHN ROBINSON'S show knocks the wind out of Barnum's.

It is to be told to all mankind that J. T. Junkin, in rear of the Court House, has just received a fresh supply of Pitts, Ovegholt whiskey, four years old, at astonishingly low figures. Pure Ovegholt whiskey, four years old, at astonishingly low figures. Pure Ovegholt whiskey, four years old, at astonishingly low figures.
