PUT THEM UP:-The law requires supervisors of road districts to put up guide boards at all cross roads, and inflicts a right smart penalty for neglect of duty in this respect, which is right. Notice.-Whereas, reports are in cirulation throughout the county in relation to small pox in the boro' of Carlisle, which are much exaggerated, we submit below the certificate of the Board, of CHAS. H. MULLIN, Pres. Agricaltural Society.

CARLISLE Sept. 23, 1872.

I hereby certify that there are but few cares of small pox and varioloid in the borough, and they are confined principally to the alleys and lower end of the own. Reports that parts of the town re fenced, &c., are simply ridiculous.

IT is stated in one of our reliable agricultural exchanges, we cannot now say which, that cider in barrels can be kept sweet by taking a strip of canvas, bout twelve inches long and two broad. to be dipped in melted brimstone, dried, and hung in the cider barrel from the bung hole, in which there are only a few gallons of cider, litand kept there until the fuse is burnt out; roll the barrel about well and then fill. This of course is done before fermentation, and should it not be successful, repeat. This can be ascertained by putting a lighted candle to the bung ole; if the flame is extinguished, fer mentation has commenced.

CHEATING IN COFFEE. This is the age of adulteration, and as wise old, ladies often remark, "you really can't tell what your eatin'"—and that is a fact-or drinking either. A great many people—cunning people—always buy heir coffee whole, because vou can't be cheated if you buy the berries. How much innocence is there in the world! Little do these lovers of the Arabian berry imagine that there are several machines working in Harlem manfacturing coffee berries. They are made from chickory—which costs a few cents per pound-mixed with ground peas. So well finished is the berry that only an expert could detect the imposition. There is nothing about these berries unhealthy; in fact, as good coffee can be made from them as is generally obtained in restaurants. Mixed with fine coffee, they are not detected, and enable grocers to cheat and make money.

Silver Spring Awake,

The adjourned meeting at Kingston on the 10th, met at Hoguestown, Sept. 17th, for the purpose of completing the organization of the Democratic and Liberal Republican Club of Silver Spring Township. The Committee appointed on organization consisting of els, reported the following officers:

President—G. Hoover, Esq.
Vice Presidents—M. Groff, P. Hempt,
H. Voglesong, Jr., H. Babble, S. Bricker, Cal. Clendenin, G. Gross, P. Snyder,

FALL BONNETS .- The earnest impor tations of fall millinery have arrived. New bonnets retain the high front and sloping crowns of last season. Many frames have heavy, rolling coronets. U.S. 30 Year 6 per cent. Cy., Dr. S. M. Whistler and G. M. D. Eck- In their trimming strange combina tions of color appear, such as reseda with blue, dark sage-green with pink, and bronze with tea rose. Pale sky blue is used with dark sapphire blue and very dark shades of various colors. The turquoise silk introduced last spring -a soft, lustreless fabric-is largely imported in the new dark tints. It is shown in olive, bronze and peacock shades, in ver-de-gris, sage, and tea colors; Moselle is a shade that is new and very lovely. Turquoise silk will be used for trimming principally, but bonnets will also be made of it and trimmed with velvet. Pattern bonnets have such quantities of trimming that the material with which the frame is covered is almost entirely concealed.

Flowers, feathers and jet ornaments appear on each bonnet. WITHOUT A NEWSPAPER .- Nothing presents a sadder commentary upon the present unhealthy condition of our loved and once prosperous country than the large number of families, both in town and country, but more especially in the latter, that subscribe to no paper of any kind. Hundreds and thousands of families are thus growing up in utter ignorance of what is transpiring in the world around them, and ignorant of the mighty events of the day. But who can tell the vast amount paper and drawn from a box. The of injury that is being inflicted upon the rising generation—those who are to take our places in the busy world at no distant day-growing up without any knowledge of the present or any study of the past, this ignorance, too, being imbued into them by the action of those who should and doubtless do know better, did they only think of the injurious effects of their insane course. Let the head of every family think of this, and place in the hands of those for whom he is responsible the means of acquiring some knowledge of the moving panorama in which we enact our ferent parts.
