

Important Notice: All advertisements and communications to be inserted in this paper must be handed in by Tuesday noon.

The Tickets: for the entire county have been printed at this office, and are now ready for distribution.

Vote Honestly: Down with the Rings. HONESTY vs. corruption. PUT up your flannels.

Next: The defeat of Grant. Butter becoming scarce. TAKING COLD—Stealing ice.

Next: The political clubs. Sweet potatoes are gathering valants. Sweet potatoes 40 cents a peck.

Over: The watermelon season. This pie-nice season has passed. JACK FROD paid on a visit last week.

WANNING: The ice cream business. QUINERS will soon be fit to preserve. THE autumn opens most auspiciously.

To MILK—don't mix your drinks. Peaches are selling at \$1.00 a bushel. The evenings are increasing in length.

Radical pow-wow on Friday night last. DEMOCRATS look out for spryious tickets here. ATTEND the Democratic Mass meeting in Carlisle, this (Thursday) evening.

PEOPLE are beginning to travel the roads with a joint of stove pipe under each arm. THE potato crop is nearly all lifted out of the ground.

FRUIT still floods into our market in large quantities. BROWN ye gentle breezes. SHRIED shawls will be all the go with the ladies this winter.

GRAIN in the granary should be watched, and if there is indication of its heating, turn it out. The man who plants a fruit tree, little knows what a benefit he is conferring on posterity.

THE Cumberland boys gave their steamer a trial the other evening. The machine worked all right. THEY are still growling about the weather and general conditions.

THEY invariably speak of the mean temperature. READERS in this borrowed paper? For two dollars you can have your own paper to read for a whole year.

WHAT grows bigger as you contract? Debt. LADIES and gentlemen promiscuously together afternoons this fall are commended by fashion to walk in arm.

BRILLIANT ideas are like shirt buttons—they are always off when we are in a hurry. THE delightful, busy atmosphere of Indian summer will soon prevail.

THE utter worthlessness of peach crop prospects has been shown this season. In the early part of it we were assured that there would scarcely be more than half a crop whereas the crop has been unusually large.

MATRIMONIAL plants are growing with amazing rapidity. FRENCH and English physicians almost universally prescribe a cure for the rheumatism to be effected by a cure for the rheumatism.

There is no greater mistake in social life than indulging in over familiarity. Intercourse, even between intimate friends, should have some dignity about it. TROUT fishing is a thing of the past, for the present, and may be looked forward to in the future.

EVERYBODY reads a newspaper during a political campaign, and no better time can be found for advertising. Retrospective—The Rev. Dr. McCauley, President of Dickinson College, will preach in the Reformed Church, on Sunday morning, at 11 o'clock.

It is said that kind of Barham's camels and droppings have died of envy since they saw some of the humps on the backs of some of our daughters of fashion. Of course a man may smoke if he likes; but when he comes out of a church on a Sunday evening and lights his cigar before he is off the steps, the supposition is that he has no clear ideas of the fitness of things.

The Democratic and Liberal Republican Meetings held in the county during the past week were a success, and were largely attended by men of all parties who are fully conversant with the issues of the day. This man who prophesied that the summer which has just slid out of existence, would be a cool one, is now predicting that Hartman will be elected.

ARRESTED—BROWN. A negro named Oscar Williams, having turned down a red flag from a house containing a small party, was arrested by a patrolman of the Board of Health, before a Justice, and fined \$10, and costs.

Report of the Board of Health, Oct. 1, 1872. The Board of Health reports the usual cases of small-pox for the week ending to-day. Two of these are mild cases of varioloid.

An old gray-headed man, apparently 70 or 80 years of age, was arrested by Constable Sanno, in the Market-house, on Tuesday night, for wearing a pair of blue shirts from the store of Leitlich & Butler. The goods were found in his possession. He was taken before Justice Shryock, who committed him.

CONCERTS AND LECTURES—Among the attractions of the "Lecture Course" for the coming winter will be the Mendelssohn Quintette Club (that gave such universal satisfaction last winter), or Gilmore's celebrated Orchestra of Boston.

Prof. J. R. Delordova, who has recently returned from the coast, and Dr. WILLIAMS of Philadelphia, will give "Sunshine." Mrs. Livermore, the foremost female orator in the country, will give a new lecture, and Wendell Phillips, or John B. Gough, will be on the list if they can be secured. "The course for the course, and information in regard to it, can be had of A. E. Blair, or John G. Orr. Season tickets with reserved seats, three dollars each.

PERLESSES POTATOES—Mr. Godfrey Bender, trucker, of our town, left a basket of Peerless potatoes at our residence, a few days since, for which he will accept our thanks. The Peerless is, beyond question, the best of great market sale, and now outstrips the celebrated Early Rose. It is very large, white, and yields enormously. In fact it is about the most desirable potato now in market, and our agricultural friends should all have it for their next planting.

A fine crop of Peerless will have for a bumper crop, and will have for one one hundred bushels or more of these beautiful potatoes.

SUDDEN DEATH. On Saturday morning last at about 6 o'clock, Mr. Charles L. Halber, (Public Auctioneer), was engaged in arranging articles on a table, preparatory to offering them for sale, at his usual stand, (west side pavement of the Market-house), he was taken with an attack of "catarrh," and fell. Mr. Neal Hunsinger, who was passing by, caught the sufferer in his arms. Assistance was sent at hand, and Mr. H. was carried by four men to his home, but died before reaching it. Mr. Halber was a good citizen, and a very active member of the Young Men's Association. He was about 32 years of age, and leaves a wife and three children.

FINE SPEECHES.—The speech of our townsmen, Wm. H. Miller, Esq., before the Greater Bryan and Buckleup Club of Carlisle, at the Court-house, on the evening of September 20, was a most convincing argument in defense of Grant and Buckleup, and as damaging against Grant and Miller. Mr. Miller contended that Hartman, instead of being a candidate for Governor, should be inside the bars of a penitentiary. The speech was well-received and had a marked effect.

On the evening of September 27, the Club was again addressed at the Court-house by Mr. E. Norton, of N. Y. Mr. N. delivered a powerful and telling speech—one of the best we have heard this fall. He skinned Hartman alive, and arraigned Grant in a masterly and convincing manner. Mr. N. is a fine orator, and his speech on this occasion was most ably received.

The Club was again addressed at its room on Saturday evening by Wm. H. Miller, Esq., and Gen. George W. Bowman, of Carlisle. We are sorry that we want of time and space prevent our speaking of the patriotic and good sense of the people as we would desire. Suffice it to say, they were among the best speeches delivered before the Club, and carried conviction to all who heard them.

THE FAIR.—Our Agricultural Fair this year was almost a failure, owing altogether to the industriously circulated falsehood that our town contained hundreds of cases of small-pox. The number of cases reported on the morning of the Fair commenced, was sixteen, and most of these were varioloid, confined entirely to the back streets and alleys. As this writing there are not over eight cases in town, all told, and it is the opinion of our physicians that the spread of the disease has been arrested. The display at the Fair, then, was not what it would have been had it not been for these damaging reports, and the attendance of visitors was proportionally small. All the exhibits were excellent. The display of cuttings, embroidery and lady's fancy work was very fine, and the home department contained rare specimens of preserves, jellies, &c. The display of apples, peaches, pears, pumpkins, grapes, and agricultural produce was also excellent. The number of beautiful pictures graced the walls of the buildings. The display of agricultural implements was not so large as usual, but were greatly admired by our farmers and others. A number of elegant carriages, buggies, and universal wagons, were exhibited, and attracted universal attention. Several very fine specimens of sewing machines were there, of the best quality. The collection of cattle, sheep, swine, geese, turkeys, chickens, &c., was small, but a large number of excellent horses were on exhibition. A greater part of Thursday the premiums and the race for the different purses, which took place in the afternoon, was closely contested; a horse owned by a gentleman in Lancaster, winning the purse for the best horse of the year. The race for the best horse of the year was won by a gentleman in Lancaster, winning the purse for the best horse of the year. The race for the best horse of the year was won by a gentleman in Lancaster, winning the purse for the best horse of the year.

COVER YOUR COALS.—Dr. Varsnap finds that some specimens of coal lose as much as one-third, of their weight by exposure to the weather, and the deterioration in quality for heating, cooking or gas-making is still greater. The gas-yielding quality decreased in one instance 45 per cent, and the heating power 47 per cent, while the same time 24 per cent for gas purposes, and 12 per cent for fuel. The inferiority of our coal is well known, but the amount of deterioration under comparatively brief exposure is surprising.

Good News for the Youngsters.—The "oldest inhabitant" positively asserts that never within his memory has the nut crop given such promise as this year. Every tree, regardless of species or location, is heavily laden with nut, and those of the chestnut variety give promise of yielding such a harvest as must be of the most inspiring character to the juvenile population of this section. A few frosts and the nut crop will begin to open and temptingly display the treasure which nature has so liberally bestowed this year.

A GRANT and Hartman meeting was held at Mt. Holly on Friday evening last. The Grant and Hartman club of this place, composed of negroes and white men, took their departure for Mt. Holly via South Mountain rail-road, at 7 o'clock, P. M. "Old arriving" at their destination they were marched to the place of meeting. After the meeting had been called to order a motion was made that General Todd, (our would-be-if he could, Congressman at Large,) of Carlisle address the meeting. Gen. Todd responded in a speech which caused every honest Republican present to applaud. The day first speech spent at this delightful Mt. Holly on Friday evening last has past and gone, and Gen. Todd will know this when he learns of the tremendous majority that will be rolled up for Buckleup and the whole Democratic ticket on Tuesday next.

TEACH THE WOMEN TO SAVE.—There's the secret! A saving woman at the head of the family is the very best having established—one receiving deposits daily and hourly, and with no effort on her part. The idea of saving is a pleasant one, and if the woman would imbibe it at once, they would cultivate and adhere to it, and thus when they were not aware of it would be laying the foundation of a competent security in a stormy time and shelter in a needy day. The woman who saves to her own house, has a large field to see in. The best way to comprehend it is to keep an account of all current expenses. Probably not one woman in ten has an idea how much her expenses are, and how she can save. Write from one to two thousand dollars are expended annually, there is a chance to save something if the effort is made. Let the housewife take the idea, set upon it, and she will save many dollars—perhaps hundreds, before she is aware of it. This is a duty, yet not a promoting of avarice, but a moral obligation that rests upon the woman as well as the man.

LAURA D. FAIR. THE CRITTENDEN MURDERERS ACQUITTED. SAN FRANCISCO, Sept. 30.—After being out nearly three days, the jury in Mrs. Fair's case rendered a verdict at 9 o'clock this morning of acquittal. Mrs. Fair, who was in Court, fainted on the announcement. The verdict excites no surprise, as the testimony was so strong in favor of her innocence. The jury, who were selected under the technicalities of the law from among men so ignorant as not to know enough about this notorious case to have formed any opinion favorable or unfavorable to the defendant.

BUSINESS NOTICES. Fall and Winter Clothing. Wholesale and Retail. OYSTER BROTHERS, 1573-1574 North Hanover Street, Carlisle, Pa.

NEW, MARSHALL, NEW MACRELLER'S. Just received a large lot of FINE NEW MACRELLER'S, No. 41 and 82 East Front Street. Also, a large lot of OYSTERS, No. 41 and 82 East Front Street.
