

LOCAL ITEMS.

**Important Notice!**  
All Advertisements and Communications to insure insertion in this paper must be handed in by **TUESDAY noon.** Advertisers make a note of this.

**WANTED IMMEDIATELY!**—A smart, active lad, with good education, about 16 years old and with a good disposition, to learn the art of printing, at this office.

**CORN** husking is now in full blast. The peach season is about closing. The corn crop is being gathered in. The Franklin County Fair was a failure. Roasted chestnuts are the coming luxury. There will be immense quantities of shellbarks gathered this year. Large and delicious chestnuts sell on our market at 10 cents per quart. Several arrests were made by our police for disorderly conduct. Thanksgiving day is approaching. Pen up your turkeys and fatten them.

**BALLS** and other amusements will soon engage the attention of the weary. The political excitement has calmed down considerably since the election. The latest color in dry goods is known as "Pittsburg Sunshine." If your horses stand on boards, oil their hoofs occasionally. The weather on Friday and Saturday last was decidedly cool, and in consequence cold showers were in demand. See Sheriff's proclamation for the Presidential election on the first page of this issue. The jury list for the November term of Court will be found in another column. The official statement of the First National Bank of this place, will be found in another column. Moses Corner, a well-known and respected citizen of Millin township, died on Thursday last. A report of the Board of health of this place, will hereafter be found in this journal every week. Serious accidents continue to be the result of carelessness on the part of those coupling cars. One day last week a child belonging to Mr. Edward Post, accidentally fell into a tub of hot water and scalded itself severely. Quite a number of bats on the result of the election on the 8th inst., were lost by our Democratic friends in this county. Busy—Our tinner are busy just now putting up stoves for customers to make them comfortable during the winter months. If it was not for twelve or fifteen cases of small-pox Carle, at the present time, would be one of the healthiest towns in the State. Typhoid fever and dysentery are raging furiously in the southern part of York county, several deaths having resulted from these diseases. The students of Dickinson College had a torch-light procession on Monday night in honor of the return of Prof. Hines from Europe. Several large and handsome dwelling houses have been erected on Main street and other sections of our borough during the past summer. The tabulating of the official returns of the election held in Cumberland county, on the 8th inst., will be found in to-day's paper. Bumpers in squads of two, three, six and upwards, are already being seen, wandering through our streets, soliciting alms. Read the article headed "Keep the Load Under Your Arm," on the first page of our paper to day. It is a good joke and worthy of a perusal. The farmer has not very encouraging prospects in view of the fact that the immense corn crop of the west has brought down the price of that cereal to rather a low figure. Sudden Death—Mr. James Black, rector of St. James' Episcopal church, fell and expired while sitting at the support table on Thursday evening last. It is supposed he died of heart disease. **ION CITY COLLEGE!**—In another column will be found the advertisement for the practical education of young men. Don't fail to read it. If our Board of Health continues to exercise the rigid vigilance which has been exercised by it for two weeks past, the small-pox will soon be banished from our town. The Cumberland Valley Journal and the Valley Independent printing offices at Mechanicsburg, have consolidated. The new paper will be published under the name of **Independent and Journal**. Success to it. **DOLLY VARDEN**, though popular as a name, has proved very unprofitable to manufacturers and dealers in dress goods, many of whom have been driven to the verge of bankruptcy by investing in large stocks of this class. The aching of a hollow tooth, the nerve of which has come in contact with the air, may be immediately relieved by applying to the cavity a little cotton saturated with spirits of nitric mixed with alum. **JACK STEIN** is still at his old stand, on Pomfret street. He is constantly receiving fresh groceries of all kinds from the city which he is selling at the lowest possible price. Jack is desired to send on day last week that he will have on hand at the proper time, the largest and best assortment of Christmas goods that has ever been brought to Carle. Don't buy until Jack receives his goods.

**OPEN air services** were held near the residence of Mr. George Hoffer, on South street, on Sabbath evening last. Addresses suitable to the occasion were delivered by Rev. Mr. Gray and T. J. Proltzman.

**ABOUT AGAIN!**—Mr. Robert Matthews, who was injured on the Southern Pennsylvania rail-road some months ago, has recovered sufficiently to be about again. We understand that the Valley rail-road Company has tendered him the position of watchman at their machine works at Chambersburg. This is a good situation and has been accepted by him.

**MR. EDWARD POTT** was arrested by order of the Board of Health, on Monday, for exposing himself on the street, when a member of his family was lying dead, having died of the small-pox. Some people condemn the Board for the above, but we presume the men who do so cannot understand their business.

**THE GREY HORSE** and wagon which were stolen some weeks ago from a citizen of Newburg, this county, have been recovered, and the same can be had by applying to Constable Samm, of Carle. The individual who stole them has been arrested and is now in jail at this place.

**THE** man who lost a wagon load of corn, the quantity of wheat can obtain information of its whereabouts by addressing the above officer.

**Report of the Board of Health.**

**CARLE, PA.,** Oct. 15, 1872.

The Board of Health at Carle, Pa., has the honor to report the following results of small-pox for the week ending to-day—cases of Small-pox, and eight cases of varioloid.

**JOHN CAMPBELL,** Pres. Board of Health.

**O. DEATH!**—It once again becomes our painful duty to chronicle the death of a highly esteemed citizen of our borough, Amos D. Butteroff, of the firm of Miller & Butteroff, dry goods merchants. The readers of the **Volunteer** will not doubt remember that Mr. B., was married seven weeks ago, thus leaving a youthful widow and the entire community to mourn his death. Peace to his ashes.

**TO NEUTRALIZE OPENINGS.**—In many forms we use disinfecting agents. Among these, causes by heat, and alcohol, spirits, or essential oils, are used by Sesoquad. This is a beautiful and a great luxury as a deodorant. The repulsive breath is by its use rendered as fragrant as a rose, and colds by friends or lovers will be no longer noticed.

**Spaulding's Glue** does everything. A FRIGHTFUL RUN-UP occurred on South Market street, says the **Mechanicsburg Independent**, on Saturday afternoon last, at about half-past twelve o'clock. The team was a pair of matches belonging to Colonel W. C. Houser, the cause of the run, so we may be bold, was an account of the yoked becoming loose. The animals commenced running, and coming in contact with the Methodist church, smashed the buggy, throwing the Colonel almost directly under the horses' heels. The horses were caught near Graham's school house, about a mile south of this place. Although the Colonel's harness at one time was very critical, yet he escaped without serious injury. He can congratulate himself upon his narrow escape.

**The Rarest Jubilee** on Saturday evening last was a miserable affair. The white and colored clubs, numbering about one hundred and twenty men early in the evening. The procession was formed on Main street, and after parading the principal streets, they returned to the support table. The "bon-fire" did not amount to much, and the fire-works less. Gen. Todd delivered a speech congratulating the true Republicans on the success they had achieved by fraud and hope, and all gratifying remarks were made. The jubilee was not a success, and was conclusive evidence that if the Radicals had not resorted to the gross frauds at the election on the 8th inst., Cumberland county would have given the Democratic ticket one thousand majority.

**SEVERAL ACCIDENTS!**—The following particulars of the recent accident on the South Mountain rail-road, near Mount Holly, we take from the **Mountain Echo** of Thursday evening last. Mr. Charles Hely, of Bolling Springs, with a severe accident at Naugle's crossing, about a mile from this place. Mr. L. was driving home in a sulky, and his horse became unmanageable from the noise of approaching trains, and he started. The sulky was struck by the special train taking the South Mountain delegation of Democrats to Carle, and demolished. Mr. L. was thrown so near the track as to have one boot sole cut by the cars, a thumb severely injured, the horse ran some distance down the track and fell into a small drain where it crossed the road. The regular train coming immediately after the special one, hit the horse to pieces. Who is to blame for this accident we are not able to say.

**KILLED ON THE RAIL-ROAD!**—About ten o'clock on Monday morning last, says the **Harrisburg Herald**, John F. Fair, of Danville, was killed at the siding a short distance beyond the gas works. A few moments before the accident occurred, the man was observed passing the Novelty Iron works in an inebriated condition, and was subsequently seen, by some children, sitting apparently asleep on one of the cars. He was thrown from the car, and striking several cars, was pushed up the track by shifting engine No. 140, one of the cars passing over his head and ear, killing him instantly. The car was thrown from the track. Some of the crew placed a board on a trestle and carried him to the dead house of the Pennsylvania rail-road company. Coroner Porter held an inquest, and the jury returned a verdict that John Fair came to his death by getting under the cars and sitting down while under the influence of liquor, and being run over by cars attached to shifting engine No. 140, of the Pennsylvania rail-road. No blame can be attached to the Pennsylvania rail-road company or any of its employees. From a paper in Patuxent pocket, it appears that he has been recently working at the Columbia Iron works, and no doubt came there for the purpose of securing work. The first finger of his left hand was cut off, and his head was sent to the morgue. A telegram was sent to Danville informing his friends of the accident.

**HORSE THIEF ARRESTED!**—On Monday, September 30th, says the **Mountain Echo**, a man calling himself John Macbigh, a hired horse at John Avery's stable, in this place, stating that he was going to Whitestown to collect some money, and would be absent half a day. When at Hunter's Run he inquired for the Pine Grove road, and went on to Whitestown, where he traded the saddle which he got at the livery stable and went on into Maryland with the horse. Mr. Johns having learned the above facts reported them to Constable Wise and the two pursued the thief, and captured him at Cashnut, Adams county, on Wednesday of last week, at the following day was lodged him in Carle jail. His chances for a sojourn in the city are very flattering.

**A SLANDER NARRATIVE!**—A few Democrats in this town accused of printing spurious tickets for the late election, that is, printing the Democratic ticket with one or two Radical candidates in it. That there were spurious tickets circulated we have no doubt, but they were not printed at this office, as any one of our employees can testify to. We were requested several times to strike spurious tickets, but positively decline to do so. Not one ticket except the regular Democratic ticket was printed at this office this fall. The spurious tickets were printed at another office in this place, and the person who printed them does not deny it. We have no remarks to make on the subject of these men, but they are in error when they charge us with printing spurious tickets. If any of them will take the trouble to call upon us, we can inform them where they were printed, and if after that they continue to circulate the slander, we will consider it our duty to give their names and brand them as liars.

**TO WHOM IT MAY CONCERN!**—Let it be remembered and ordained, that Jos. Schaeppel, late Sheriff (which name he is now), will consider it his duty to give their names and brand them as liars. To WHOM IT MAY CONCERN!—Let it be remembered and ordained, that Jos. Schaeppel, late Sheriff (which name he is now), will consider it his duty to give their names and brand them as liars.

**THE SORCERER-STEINBOCK CASE.**

In the case of Dr. Paul Schaeppel vs. Wm. A. Stewart and John R. Kelso, Jr., executors of Maria M. Steinbock, better known as the Steinbock case, the demand for the 8th inst. of the county court is as follows:

Paul Schaeppel, Plaintiff, vs. Wm. A. Stewart and John R. Kelso, Jr., executors of Maria M. Steinbock, Defendants.

The case is now pending in the County Court. The plaintiff is a doctor of medicine, and the defendants are executors of the estate of Maria M. Steinbock. The case involves a dispute over the estate of Maria M. Steinbock, and the plaintiff claims that the defendants have wrongfully taken possession of the estate.

**ELECT OF THE GEORGIA ELECTION—Every Southern State Except South Carolina Conceded to Greeley.**

WASHINGTON, October 6.—It is conceded on all sides here that the result in Georgia has decided the status of the Southern States in the Presidential election. An informal conference of leading gentlemen from the South happened here to-day, and a comparison of notes showed that every State south of Mason and Dixon's line is certain for Greeley in November with the exception of South Carolina. Some of the details of the Georgia election are recalled when the differences in population are considered. The majorities for Greeley marked down at this meeting I have ascertained were as follows: Delaware, 2,000; Maryland, 20,000; Virginia, 25,000; North Carolina, 10,000; Georgia, 45,000; Florida, 5,000; Alabama, 15,000; Mississippi, 6,000; Louisiana, 10,000; Texas, 40,000; Arkansas, 5,000; Missouri, 50,000; Tennessee, 10,000; Kentucky, 50,000; W. Virginia, 50,000. South Carolina is conceded to Grant by 20,000 majority. The States of North Carolina and Mississippi are about about which some doubt existed, are now claimed for Greeley for good and sufficient reasons. The Government pressure will necessarily be light in the former in November, and the State is naturally Democratic on a fair vote. In Mississippi the first time since reconstruction, and the Liberal Republican movement is very strong under the lead of Congressman Morriss and Judges Alcorn and Hancock. The total electoral vote for Greeley is 131, and he requires but fifty-eight more votes to win the Presidency.

**Spanish** advances state that the Cuban war is about to reach a recent attack upon the town of Montuaba, with heavy losses.

**The splendid monastery** of the Escorial, in Spain, has been destroyed by fire, and the adjoining summer palace of the King was badly damaged.

**A servant transferred** a quiet home help a Bathen, an east good home by Mr. Wm. A. Stewart, New York, for Carle, Va. Fully during an eighteen dollar visit.

**BUSINESS NOTICES.**

**W. B. BLAIR** would inform his friends and the public generally, that he has been appointed agent for the **GEORGIA FIRE INSURANCE COMPANY**, of New York. The company is a reliable one, and has a capital of \$1,000,000. It covers all the States of the Union, and is a first-class company. It is a safe and profitable investment for all who are in the habit of insuring their property.
