

American Volunteer LOCAL ITEMS.

Important Notice!

All Advertisements and Communications to be handed in by THURSDAY noon Advertisers make a note of this.

REPAIR your pavement. WE need a few more days' rain. ALMANACS for 1873 are already out.

COURT convened on Monday last. This small fox is still on the decrease. THANKSGIVING day is drawing nigh.

MONEY has been scarce in this place for some time. RELIGIOUS revivals will soon be in order.

High winds prevailed several days last week. CIDER sells at 20 cents per gallon in this place.

SQUIRREL hunting forms one of the fall sports. THESE are "some pumpkins" in our corn fields.

The Jewish Calendar makes this year 5633. WE'll be apt to have snow—something like winter.

WHEAT fields are beautiful in their green liveliness. It is expected that the price of coal will shortly go up.

SEND in the locals, friends, and we'll shape them up. ORGAN grinders do not thrive very well at present.

PREPARE for winter. On the increase—marriages. A soft blow—a gentle breeze.

GET your gum shoes ready to squish. THIS sheik crop is a success. TAFFY parties will soon be in fashion.

THE latest thing out is counterfeited postage stamps. WATERPROOF dresses will be all the go this winter.

GREENEY hats are not now so fashionable as they were a few days ago. Selah!

WE are glad to state that Mr. Curtis Wise, who has been ill for some time, is rapidly convalescing.

A cold winter and an abundance of snow are predicted by weather prognosticators.

It is a noticeable fact that the leaves are falling faster this year than is ordinarily the case.

It is just as impossible to get along without advertising as it is for a crescent moon to borrow a gun.

WHAT'S the difference between truth and eggs? "Truth crashed to earth will rise again." Eggs won't.

THE leaves—symbols of our mortal lives—are dropping by the wayside. MINCE pies with brandy in 'em are the next temptations against which our temperance friends will war.

DON'T work your sick horses. ORDER is going up in price and down the throats of drinkers.

WILD turkeys are flapping their wings on our North and South mountains. Among the worst afflictions caused by the horse influenza are some of the names given it.

A SPORTSMAN in York county has shot 375 gray squirrels and others since the first of August.

THE fall grain looks for more encouraging than the returns of the recent presidential election.

A BALDWIN weighing nearly eight pounds, was caught in the Susquehanna, in the vicinity of Maryland, recently.

A GREAT deal of "bustle" has been observed in and around the dry goods stores during the past week.

A YORK county man says there is a person in that county so fond of money that it is said that after paying a man's bill he will walk down home with him so as to be near to the money as long as possible.

THURSDAY, the 28th of this month, will be Thanksgiving Day. Let us all thank God that we still have life and health and enough to eat, if our liberties are all gone, or nearly so. And let us pray, also, for a return of the good old days of official honesty among our rulers.

THE first of the series of sermons by young men will be preached by Rev. Dr. McCauley, President of Dickinson College, on next Sabbath afternoon, in the First Presbyterian church. Services will at 3 o'clock. A cordial invitation is extended to all, and young men are especially invited to be present.

EVERY day it is drag, drag, drag, and weary, and weary, and weary! The world is a dull blank, and yet the editorial columns must be filled. Only give it a subject and his work is done—it is no trouble to write it up; but fancy how you would feel if you had to pump your brains dry every day in the week, fifty two weeks in the year. It makes one low spirited simply to think of it.

ADMITTED TO PRACTICE.—In court, on Tuesday morning, on motion of John B. Miller, Esq., Millard F. Thompson, D. J. Myers and Geo. R. Willis, Esqrs., graduates of Dickinson College, were admitted to practice law in the several courts of Cumberland county.

THE loss of the insurance company of "North America" about five hundred thousand dollars, leaving more than that amount as a surplus over all liabilities, with present assets of about three million dollars, after paying Boston losses.

THE loss of the "Franklin" will not exceed half a million of dollars, leaving her assets about three million dollars, with her capital unimpaired, after paying Boston losses.

RABBIT HUNTING.—This is, to some persons, rare sport. The excitement of the chase compensates for all the fatigues. The dog and gun are the sportsman's companions.

HOW TO KEEP CELERY.—A correspondent of Moore's Rural gives the following hints. Some of our celery growers may profit by them: "For the benefit of those of your readers who have never succeeded in keeping celery in stable condition throughout a winter, (and I know of several) I will give a rule by which I have preserved celery, free from rot or rust, as late as the last of March.

REPORT of the Board of Health. CARLEISLE, PA., Nov. 12, 1872. The Board of Health report two new cases of scarlet fever and one case of small pox, for week ending to-day.

SURPRISE PARTIES.—The season for these social affairs is near at hand. They are very popular with the young folks, and are sources of much innocent enjoyment. The principal feature thereof are the visits. The majority of these visits are not surprises, as some one, who can't keep quiet, is sure to give notice, but the hostess is in duty bound to exhibit the usual amount of astonishment at the sudden influx of unbidden but not unwelcome guests.

STAMPS.—Information has been received by the Post-office department that the new stamps are being extensively counterfeited, and therefore we caution our readers not to purchase any except it be from the Postmasters or known dealers. The country, no doubt, will be filled with men who will attempt to trade these counterfeit stamps off, and thus cheat against the farming community.

SUNDAY HUNTING.—Hunting on Sundays, we understand, is being indulged in to a considerable extent by a certain class of men and boys in this vicinity. To thus desecrate the holy Sabbath is repugnant both to the laws of God and man, and every good citizen should exert himself to prevent it. The law should be enforced against all persons found hunting on Sunday.

A HOG DISEASE AND ITS REMEDY.—A correspondent in Shelby county, Ky., describes a disease, which he calls hog cholera, prevailing in that section among hogs, and gives a remedy. Its symptoms are a hacking cough, and "hard and marble like excrement." As soon as these are noticed administer calomel, in the proportion of half a pound to every fifty pounds, mixed with corn or molasses, that it will adhere. This is designed to change the action of the bowels, and if that effect does not follow in due time the dose must be repeated.

THE Boston Fire. To the Editor of the American Volunteer: For the information of the public, I desire to state that advices from my insurance companies give me the following results of the Boston fire:

THE loss of the Insurance Company of "North America" about five hundred thousand dollars, leaving more than that amount as a surplus over all liabilities, with present assets of about three million dollars, after paying Boston losses.

THE loss of the "Franklin" will not exceed half a million of dollars, leaving her assets about three million dollars, with her capital unimpaired, after paying Boston losses.

RABBIT HUNTING.—This is, to some persons, rare sport. The excitement of the chase compensates for all the fatigues. The dog and gun are the sportsman's companions.

SPECIAL NOTICES. CASTORIA.—A substitute for Castor Oil—a physic which does not distress the stomach, and to operate when all other remedies have failed.

HOW TO GET WEST.—This is an inquiry every traveler who has been truly and honestly answered before he starts on his journey, and a little care taken in examination of Ross' new map will save many troubles, trials and money.

PETERSON'S MAGAZINE for November is on our table, ahead of all others. It is an unusually good number, even for this season.
