These Speciacles are manufactured from MINUTE CRYSTAL PEBBLES meited together, and are called DIAMOND on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light.

Having been tested with the polarizope, the diamond lenses have been found to admit fitteen per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles, F. C. KRAMER, CARLISEE, Fa.

WISHART'S PINE TREE

Tar Cordial

Nature's Great Remedu!

-FOR THE Throat and Lungs.

It is gratifying to us to inform the public hat Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gaining an envial reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation— First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation.

Second. It removes the cause of irritation (which produces cough) of the nuccus membrane and bronchial tubes, assists the lungs to act and throw off the unbealthy secretions, and purifies the blood.

purlies the blood.

Third. It is free from squills, lobella, ipecas and oplum, of which most throat and lung remedles are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purlfying effects it has gained a reputation which it must hold above all others in the market.
