These Spectacles are manufactured from MINUTE CRYSTAL PEBBLES melted together, and are called DIAMOND on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent, less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles, F. C. KRAMER, CARLISER, Pa.

Tar Cordial

--- FOR THE ---

Nature's Great Remedy!

Throat and Lungs.

It is gratifying to us to inform the public hat Dr. L. Q. C. Wishart's Pine Tree Tar Cordini, for Throat and Lung Diseases, has gaining an envial reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reportors, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosen-ing and assisting nature to throw off the un-healthy matter collected about the throat and bronchial tubes, which causes irritation. Second. It removes the cause of irritation (which produces cough) of the nucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood. purifies the blood.

Third. It is free from squills lobella, Ipecas and optum, of which most throat and lung remedies are composed, which allay cough only and disorganize the stomach. It has a soothing effect on the stomach acts on the 'liver and kidneys, and lymphatic and nervous regions thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.
