But few papers have dared to defend Colfax. The evidence against him is so positive and overwhelming, that even his friends give him up, pronounce him a scoundrel, and demand his impeachment. But, not so with Wilson, Vice President-elect. Quite a number of papers volunteered their services to defend him. The more recent testimony before the Congressional Investigating Committee, however, has knocked the noise out of these papers, and most of them are now forced to admit that Wilson is in as bad a position as Colfax. And so he is. When he first appeared before the Committee he pretended to be amazed that he should be suspected of having received bribes for his votes. He rolled up the dirty fending them, this is its own suicide. whites of his eyes and called "God to witness" that he never owned a dollar's worth of Credit Mobilier stock, and never had any dealings with Oakes Ames. Ames was present when Wilson made this statement to the Committee, and he expressed surprise .-Being questioned rather sharply by the Chairman of the Committee, Wilson finally confessed that his wife, now dead, had had some dealings with Ames, and did receive Credit Mobilier stock from him! It seems from this

only a corruptionist but a coward. But, a few days since, a much larger cat was let out of the bag. Ames was again on the stand, and he produced Wilson's own receipts for the monies and stocks that he (Ames) had paid him! Wilson was dumbfounded. He had forgotten that he had receipted to Ames for the amount of the bribery money he had received. He was fairly caught, and since then he has said nothing about "my wife's transac-

tions. Henry Wilson, then, is in as bad predicament as Colfax. Both are guilty! guilty! guilty! Both received bribes in consideration of voting to mammoth rail-road companies millions of acres of the people's lands. Indeed, from what has already been revealed, it is evident that the leaders of the Radical party are corrupt to the core, and have been ready at all times to sell their country for money. They have been pretenders and frauds all along, their hypocritical professions about "loyalty" and religion were made for the purpose of attracting attention from their villainous prac

NAST'S PENOIL.

General Grant is said to have sul cribed a liberal sum of money toward getting up a testimonial for Mr. Thomas Nust, the caricaturist. The cartoons produced by Nast during the late campaign, were well calculated to please the tastes of the President. They were so very delicate and refined. The carivere at once brutal estures on Greeley and heartless, and his nearest friends believe they were the cause of his insanity and death. Mr. Greeley was a own family and a few intimate friends know how much he suffered from Nast's persistent assaults. Mr. Greeley had been the brains of the Republican party; indeed, he was the father of the party-which, we are free to confess, was nothing to his credit-and for him to be made sport of by the creatures who had been foisted into office by his efforts, was more than he could bear. the hireling of Grant's administration -and finally insanity hurried him to a

premature grave. The Credit Mobilier investigation has turnished the most suggestive hints, but the pencil of Mr. Nast remains idle. It is the pencil of a political sycophant, or, if not that, it. is a mercenary instrument, to be bought and ward, but Thomas Nast's is not of that character. It is as mercenary as Grant's nature, which regards pecuniary rewards as the greatest that can be bestowed.

OF REPUBLICAN VENALITY.

Quite indefensible as, is the connecion of Vice President Colfax' with the Credit Mobilier, the Republican press defend it; hopelessly ruined as is the good name of that venal Republican, who has descended below that descent and become a sneak and liar to hide his venality, and then a perjurer to hide when we are ready to screw our faith his lies, nevertheless the Republican organs seem to think it possible to rescue his name from ruin. And as with some politician ignorant, venal and a Colfax so with all the other Credit Mobiler Congressmen. and blundering zeal, but describes facts as they are: " By the time the Credit Mobilier investigation comes to an end we shall probably know what kind of a world we live in. Last week left Ames's check for \$1,200 payable to 'S. C.' or bearer, dated June 20, 1868, unexplained, and now the bank account of Mr. colfax having been examined shows that Mr. Colfax did, on June 22, 1868, deposit the exact sum of \$1,200, notwithstanding his emphatic denial before the Poland Committee that he relief that the relief of the poland committee that he relief that the relie eived any such addition to his income at that time from any source whatever. The reading of no document was ever listened to with more interest than was the report of the Poland committee in the nouse this atteracon. committed any wrong for which he should be blaimed.

Much comment is everywhere made concerning the character of the report. It can be stated on the authority of several prominent democrats that when the report shall be taken up for consideration separate resolutions will be introduced for the expulsion of all members who had deallings with Ames, on the ground that Ames and Brooks only should not have been selected for punishment.

Many gentlemen on both sides are preparing speeches, and it is anticipated that there will be an exciting debate on Tuesday, to which time the consideration of the report has been justiced.

DEATH OF JACOB E. BIXLER.-On Friday last Mr. Samuel Bixler received a letter from Austin, Texas, announcing the sad intelligence of the death of his son Jacob, who has been absent from home about two years, travelling in the Western country. He was taken suddenly ill with typhus fever on his way to Texas, and died at the capitol of that State on the 3d of February, in the 23d year of his age. Mr. Bixler was a promising young man, much beloved by a large circle of friends, and we deeply sympathise with his family in their sad bereavement. We understand his remains will be forwarded home for interment.

SMOKE AMONG SMOKES .- About two weeks ago, some individual being desirous of having a little sport at the expense of the congregation of the African church, on East Pomfrei street, by some means entered their place of worship, took the stove pipe apart and stuffed it full of old rags, &c., and then putting in its proper position, quietly decamped. When the sexton arrived he started the fire as usual, but it is needless to say it would not burn. He worked energetically at it for about an hour, but without avail. The congregation began to assemble, but could not stand the smoke and had to depart. Finally, one of the number proposed to take the pipe apart, which was done, and the church was soon cleared of smoke, and the congrega tion went on with services as usual.

Correspondence of the Volunteer. MT. HOLLY AND ITS RESOURCES. MT. HOLLY, Feb. 17, 1873.

I will endeavor to give you a synopsis of the business done in the Mountain Creek Valley, and also what we expec to do next summer. There are at present seven ore banks in active operation i this little valley, worked and owned by the following named parties: Henry Mussleman & Sons, of Marietta

ancaster county, work one bank, leased from Mr. Strickler, capable of mining 20 tons per day. J. C. Kerkslaeger, operator, leased from the Mt. Holly Paper Co. capable of mining 40 tons per day. Messre Wynkoop, Medlar & Saylor, of Pottaville, operators, leased from the Mt. Holly Paper Co., mining about 50 tons per day Henry Clay ore bank, Messrs Guiterman & Robertson, of Pottsville, operators. zel, of Hoguestown, slaughtered a hog Leased from J. R. Killie, capable of milast week, which, when dressed, weighning forty tons per day. Fuller ore bank Mr. James Lanigan, of Pottsville, operator. Leased from J. R. Killie. Capacity thirty tons per day. Laurel ore bank, owned and worked by the S. M. I. Co.; yields forty tons per day. Pine Grove ore bank, also owned and worked by the S. M. I. Ca., yields forty tons per day.

In addition to the above banks, all of which are in active operation, there are three other leases granted to Messrs Brownback & March, of Dauphin Co., Messrs Seifert, McMannus & Co., of Reading, and Mr. Robertson, of Philada. -all three claims leased from J. R. Killie.

Mesars Brownback & March commen ced operations on their lease late last fall, and had to abandon it until Spring. They will resume operations about the 1st of March. Messrs Selfert, McManus & Co. will commence operations as soon as the weather will permit. Mr. Robinson will also commence operations soon as practicable

The South Mountain Iron Company have the machinery on the ground for two new ore banks on their own lands, and are also waiting for Spring to banish old Jack Frost," to allow them to go into operation. This same Company, I am informed, also contemplate extending their road up the valley toward Waynesourg this summer. If they do that, they will develop large fields of iron ore, and will add to the traffic over their road. The S. M. I. Co.'s furnace at Pine Grove s in operation and making a good quantity of iron. Operations have been suspended at the Laurel Forge, for reasons only known to the owners.

Two hundred and sixty tons of ore per day is the yield from the banks along the line of the railroad in this valley, and next summer the yield will not fall much short of three hundred and fifty tons per day. This gives employment to about two hundred and sixty workmen, and that, too, in a section of the county where, five years ago, there were not forty or fifty persons employed. When all the operations get started, there will not be less than four hundred and tifty workmen employed. This, of course, brings money into our county, and adds

to the wealth of the same. Several gentlemen in Mt. Holly and vicinity have been talking of building an Anthracite Furnace at Mt. Yours, &c., SCRIBBLER. PERSONAL .- Our enterprising young riend, Mr. John D. Carothers, of Latrobe, Westmoreland county, paid us a visit on Thursday last. Mr. C. served an apprenticeship to the tinning busiless, with Messrs. John D. Gorgas, (for merly of this place,) and Samuel R. Claudy, and is represented by those gentlemen to be a first-class workman. About two years ago he visited Latrobe, and, liking the place, hired as a jour, and has worked in that capacity until recently. He is about engaging in the business himself, and the citizens of Latrobe and vicinity, would do well to give him a share of their patronage. Being steady and industrious in his habits, and also a good workman, all work entrusted to his care will receive prompt attention, and be done in the best man-

FATAL RAILROAD ACCIDENT. - On Saturday evening last, Charles King, a oulder, employed at Messrs. Gardner Co.'s machine works, met with an acdident on the Cumberland Valley Railroad, which terminated in his death the same evening. Mr. King contemplated going to Chambersburg, where, we believe, some of his relatives reside. He left this place on the evening train, and when within two hundred yards of Newville station he fell from the platform on which he was standing, unnoticed by any person on the train. The train proceeded to Chambersburg, and Mr. King was not found for some time subsequent. From marks in the snow he was evidently dragged about one hundred feet. When found he was unconscious, and remained so until his death, which occurred at 7 P. M. He was greatly mangled bout the body. The remains were renoved to Chambersburg on Sunday evening by the train sent to clear the snow off the track. The deceased was a young man about 24 years of age, and had many ersonal friends in this place.

Correspondence of the Volunteer. Mr. Miller's Lecture at Dickinson Church.

DICKINSON, Feb. 17, 1873. The lecture on Thursday evening at Dickinson Church, by Wm. H. Miller, Esq., was a complete success, and must have been gratifying to the committee and congregation, for whose benefit these lectures are given—not only in a pecuniary point of view, but as an evidence of their wisdom in selecting a gentleman so widely and popularly known. The house was literally filled to overflowing, and communities from all points within radius of ten miles were represented There was in the circumstances a significance aside from the ordinary interest in a popular lecture; however eloquent. The large audience was, in itself, a spontaneous ovation to Mr. Miller's abilities, and to his associations in this communi-

ty. The personality of the speaker was of as much interest to the majority of his hearers as the matter of his lecture. Of the latter it is sufficient to say that a finer description of natural scenery and incidents of travel, enlivened by touches of humor, never was presented to this or any public. The Philharmonic Association bore out its reputation as a goodly company of singers, and certainly seem ed to be in generous mood on this occasion, for it bestowed song after song with learned effort. The effect of this combining music with oratory is excellent, by way of relieving the tension of inter-
