MAMERON DEFENDING CALDWELL. A Washington correspondent says that Senator Cameron takes a deep interest in the case of Caldwell, of Kansas, and is doing all he can to secure votes against Morton's resolution declaring Caldwell's election as illegal. It is understood Cameron will in the course of debate make a speech defending Caldwell. The latter halls from Pennsylvania, and was formerly under the employ of Cameron. Patterson, of South Carolina, will also find a arm friend in Cameron.

COLFAX AT HOME.

Ex-Vice President Colfax arrived at his home at South Bend, Indiana, on-Saturday week last, and, as we are indelivered an address of welcome. Mr. Colfax replied in a long speech, which was but a repetition of his many explanations.

This was a bad business, and very liscreditable to the Mayor and other Radicals of South Bend. Of the many men engaged in the Credit Mobilier business, Colfax was the most guilty, and his guilt was made so manifes that his best friends did not dare defend him. His was a double crime, for he not only received the bribes tendered by Oakes Ames, but also those of Nesbitt, another government contractor. alist female preacher and "medium," More than this, before his villainy had been unearthed, and when he hoped and believed that it never could be, he lied most outrageously and backed those lies by an oath. So positive was his guilt, so plain was it that he had resorted to perjury to save himself, that when the resolution offered in the House looking to his impeachment was voted upon, it was defeated by a plice, with dies, press and materials for meagre majority. Had it not been that so many members of the House were almost if not quite as guilty of robbery as Coltax himselt, the resolution would have been adopted by a triumphant majority, and impeachment of the Vice President would have followed. Colfax escaped the disgrace leading cheese producing country of due to his crimes, then, by the "skin the world. 60,000,000 pounds of Ameri- of his teeth," and because of the guilt of a number of members who voted "no" when the resolution was called up. He was saved from impeachment

> by his confederates in crime! And yet after all this-after his narrow escape from a just nunishment-Colfax is honored by the Radicals of South Bend; aye, he was cheered and tendered a welcome! It must be true, then, that "the greater the rascal the more he is honored." We did not, because we could not, believe this saving was true; but we are convinced of its truth now. Colfax, the convicted bribe-receiver and perjurer, receives a velcome and ovation from the Radicals

t South Bend! What a picture is this to hold up to the young men of our country who bone not vet entered the arena of language at once plain and emphatic. that Radical politiciaus are not only permitted to steal and lie, but are honred for having done so? We feel no disposition to heap coals upon the head of Colfax, for we doubt not his own conscience is lashing him with a scorpion whip, but in the name of dencency, we must be permitted to protest against all attempts of partisans to bolster up Colfax and his confederates in crime. Had justice been meeted out to them they would not be running at large to-day. Let the briba-regivers conscience is lashing him with a scorlarge to-day. Let the bribe receivers emain in quiet seclusion to brood over heir villainies, and let no attempt be nade either by political knaves or Young Men's Christian Associations to rescue Colfax, Wilson and others from the Slough of Despond in which they are now floundering. "A CAMPAIGN OF SLANDER."

During the late very odd political campaign the Radical newspapers and orators delighted to meet the charges formed by the papers, was escorted to of corruption, usurpation, and extravathe court-house by a large body of his gance brought against their party by political friends, where the Mayor the counter-charge of scandalous personalities on the part of the Liberals. It was, they said, "a campaign of slander." Those who preferred some other man than Mr. Grant for President were charged with carrying on a personal campaign," and every well grounded exposure of the Administration iniquities were pooh-hood at and the people were told that the "soreheads" and "copperheads" had invented it all in order to get the offices away from such innocent men as Grant, Colfax, Wilson, & Co., and the worst of it was the people seemed to take them at their word. Well, the campaign and its slanders being over the truth begins to rise up from the bottom of the well, and the shapes is takes on are marvellously like the things which were scandalous person alities and vile slanders three months ago. The custom house and revenue frauds are proven. The bribery of State Legislature is admitted. The defalcation of numerous of their officers, State and National, is not denied. The interference by the Federal Government with the affairs of State are well known. And all men not struck with political blindness know that, in regard to this Credit Mobilier business, there must be a substantial blaze somewhere to give off so much smoke; but we could have had the assurance to assert it seriously, that the Vice President of the United States and so many grave Senators and Representatives were more than technically and accidentally compromised by that bad business. These things are melancholy facts, and not only disgraceful to the country, but they ought to overthrow and drive from power the corrupt party now ruining the govern-

In our issue of the 6th inst., we stated as we were informed,) that seven cases of small pox actually existed in the vicinity of Papertown. We learn since from the Mountain Echo that this was a mistake. The above paper says there is not a single case in that neighborhood or vicinity. We are glad to hear this.

WHEN you take a bone upon your plate, and are obliged to take it up in your fingers, don't neglect to mention that "fingers were made before knives and forks." The novelty of the remark will strike the company very happily. Tobacco.-It will be an item of inter-

est to smokers to learn that the Internal Revenue law allows no persons to dispose of tobacco in any form, without first paying a license of five dollars. Now, the question is, whether a fellow can give away a quid or a cigar without paying this license. WE read of a youth-of course not in

our county-who, on receiving a severe cowhiding from a young woman whom he had jilted, rather congratulated himself than otherwise, remarking that if she treated him so when they were not married, it is impossible to tell what he would have suffered at her hands after marriage.

COLD YEAR.—Although this has been year noticeable for the severity of the weather, it is nothing in comparison to that which prevailed in 1817, when there was literally no summer at all. Frosts prevailed every month, and snow to the epth of six inches fell in Maine on the 22nd of July, and on the 16th of August | Marshall, (2 yrs.) Theo. Cornman, (1 yr.) ice to the thickness of ordinary window glass was formed in the open air. All the crops were blighted. Flour sold a 1 \$16 per barrel, and seed corn was in demand at \$3 per bushel.

SUDDEN DEATH .- Mr. George Harlan highly respectable citizen, and for number of years postmaster at Newburg, died suddenly of paralysis on Tuesday of last week.

WHEN the water is shut off for one two and three days at a time, what pro ection have our citizens against fire ? None! This is a subject which should eceive the serious attention of those in harge of the water works.

MEETINGS .- The Democratic meetings held on Saturday evening last to nomi nate candidates for the municipal election to-morrow, were well attended. The names of those nominated will be found in another column.

MR. M. PHILIPPY, residing in Champersburg, while in his cellar recently was seized with an epileptic fit and fell into a nuddle containing a few feet of water which had collected there, and but for the timely arrival of his wife, would undoubtedly have been drowned.

WHAT is the matter with our waterworks? For several days, at intervals during the last two weeks, we had no water. This is beyond endurance. In dependent of the annoyance caused to our citizens, should a fire break out we would be at the mercy of the flames, and the entire town might be destroyed. Is the Water Company aware that it could be held responsible for all damages should stoutu see to u at once and fementers defect, cost what it may. Every citizen in town who has paid water rent can, if he desires, sustain a suit of damages

against the Water Company. This nuisance must be abated. DESIRES TO BE RELIEVED .- We learn, with regret, that the Rev. Dr. Wing, of the First Presbyterian Church of our town, has notified his congregation that he desires to retire from the pulpit. For many years Dr. W. has suffered from erysipelas, and he finds that his labors add to his sufferings. We believe no action has as yet been taken by the congregation in reference to his request, out we presume a new pastor will be called in due time. The many friends of Dr. Wing will deeply regret the necessity that compells him to abandon his charge, and none more than the members of his congregation, who are warmly attached to him. In the event of his equest being accepted, the good wishes of our entire community will follow him n his retirement.

KICKED BY A HORSE. - We learn from

the Shippensburg News that an accident of the most distressing nature, and which, in all probability, will prove fatal, occurred to Robert Piper, a wellknown horse dealer and liveryman, and a most respectable and upright citizen of Shippensburg, on Wednesday from his borse. It appears that he was horse entered the stable-door, he kicked out with his hind feet, one of them striking Mr. Piper on the head, cutting a deep gash behind the right ear, and fel ling him to the ground, senseless. Medical aid was forthwith summoned, and the injured man taken to his residence, where he yet remains in an unconscious state, (Thursday.) Doctors Stewart and Witherspoon gave the case the proper surgical attention, and found, upon examination, a deep fracture in the mastold process, with probably other injuries to the head and brain

A VILLAINOUS ASSAULT .-- The Harrisburg Patriot of Monday contains this

article: gles, for the faithful manner in which they performed their duties.

TRIAL OF STEAMERS.—On Saturday afternoon last a trial of the steamers belonging to the fire department of this borough took place on Pomfret street.

The object, we believe, was to learn how far the steamers could force water from the Letort Spring into town, in more than a few steps before one of his pursuers approached from behind and dealt him a violent blow on the head with a club, which rendered him insensible for control moments. sible for several moments. He was car-ried into S. S. Child's office, where the ried into S. S. Unito's office, where the wound was properly dressed by a physi-cian. The assailant made his escape by running through the crowd. And all this occurred in the presence of two po-lice officers! No arrests.

SAINT PATRICK.-Monday last was St. Patrick's day. No demonstration of any kind took place in our borough to distinpuish it from any other week day, and had it not been for a few shamous in the hats of some of our Irish citizens, the day would almost have been forgotten. was Saint Patrick who was sent by Pope Celestine, after his travels in Gaul and Italy, on an apostolical mission to convert the Irish. He penetrated into the remotest corners of that famous country-restoring health to the sick sight to the blind, and life to the departed, for upwards of forty years. He well deserved to be immortalized in song-Saint Patrick was a gentleman and came from decent people! No wonder that it is the delight of all those born in the Emerald Isle to keep watch over the day of his nativity with festive joy. On the anniversary of the native day of the Patron Saint, wherever beats an Irish heart, thoughts of the "Green Isle" are uppermost, and a feeling of home love for the moment at least finds a lodg ment in each Celtic breast. Without a land or a government be can call bis own, the Irishman has been, and is, the statesman, poet and soldier of every land under the sun. 'But he never forgets the sunny side of his fathers, that for seven long, weary centuries has groaned under a more relentless, cruel and exacting tyranny than the children of Israel endured at the hands of their Egyptian task masters. And so he lives and hopes that some day the right will come uppermost, and the blood of Emmett and Fitzgerald, of Wolf Tone and larsfield be avenged. And that day will

Here's health to good old Ireland,
The fairest land e're seen;
And a double health to all that band
Who are fighting for the green.
May heaven smile on that country,
And freedom give to all;
For, by the great Saint Patrick,
The tyrant yet shall fall!

A MOVING ADVICE. - Clinker, who

has had some experience in such matters says: If it is your good fortune to "flit" this Spring, go off without clean ing house, and leave it in, if possible, a nastier condition than when you first went in. Throw all the old bones, shoes, hoop skirts, slops and broken lamp chimneys just where they can be raked on a pile—but don't do any raking. The ncoming family won't know what it is o make garden. If a door or gate is nearly off its binges, give it a kick to help it off-it pleases the proprietor to fix such things up about this time of the year. Tell your oldest hopeful to throv the old dead cat into the well, because it imparts a delicious taste to the water, and, you know, the doctors can't always e idle. If you have a surfeit of rusty stove pipe, broken bottles and rotten cabbage in the cellar leave it-it shows a neighborly spirit. When you pull out the spikes upon which your pictures and looking glasses depended, be careful to draw about a square foot of plaster with each—it gives a pleasing appearance in a deserted room. And, above all, don't commence to "tear up" until the other family has arrived, and are filling the entry and stairs with their things. It is such fun to get around and over them, and the strangers are in no hurry to come in. If you only move half a square down town, do it on a wheelbarrow, its cheaper, and when left standing on the pavement nobody will fall over it. When your last load moves off, it don't matter if you do throw an axe, a basket of canned fruit or a few old hams in. The new occupants will think they were "lost in moving." Don't say good bye to the other family, or they might think your friendliness is only put on, but pick up their best door mat and scoot!
