[COMMUNICATED.] For the Volunteer. At a meeting of the Silver Spring-emperance Association, held in St. tempera Lutheran church, New Kingsteinen a Interest entrolle 18 24 h ult., the following resolution was unanimously adopted:
Resolved, That in view of the successions of the polls at Resolved, That in view of the success of the temperance cause at the polls at the recent election, that we should give praise to God who hath "given as the victory," and that the Chairman of the standing Committee of Local Option of the County has instructed to reconst victory," and that the Chairman of the Standing Gommittee of Local Option of this County be instructed to request (od's people throughout this County to join in thanksgiving at an early day.

Therefore, The Chairman of the above Committee sould call upon all the churches of Cumberland County to set apart some portion of Sabbath, the 13th inst., in observance of thanksgiving to (fod who bath caused his people, to triumph; that He, in answer to devont prayer, may vouchsate unto them His, hlessing upon the good work of Temperance throughout the world and that the recent victory here, and 'in adjoining Counties may be abundantly blessed in the happy fruition of joy and peace to thousands of heart broken mothers, weeping wives and beggared children whose hearts shall be gladdened by the removal of temptation and the healthful dawn of a new era.

But, friends of Temperance, our work did not end in victory at the poils. That was but the real beginning. United effort is still demanded of us in carrying forward this beneficent work so well began. for its still demolicent work so well begui. We have the victory but not yet its fruits. For these we must labor. The law must not be made a mockery and our glorious victory an empty thing. Are we in ernest? Then must we see that the law is executed. We must be ready to show that "the way of the transgressor is hard."

A large portion of our State still under the curse of the banoful license system will look to us for a demonstration of the reforms expected from prohibition. Let us show beyond a doubt that the "no license system" has worked successfully here. We owe this to our defeated friends in other counties who will look to us for succer in the example of our good works and thus victory will be crowned with success. torward this beneficent work so well be rowned with success.
S. M. WHISTLER,
Chairman Standing Committee PAIN KILLER.—There can be no ne cesity, at this late day, for the press to speak in commendotary terms of this remarkable medicine, in order to promote its sale; for it is a medicine that is known and sppreciated the wide world through. Whenever we speak of the Pain-Killer, as in the present instance, we do so in behalf of the afflicted, rather than with the view of advancing the interests of its as in the present instance, we do so in behalf of the afflicted, rather than with the view of advancing the interests of its proprietors. For various diseases, such as rheumatism, cholera, cholera-morbus, burns, sprains, bruises, and so on to the end of the catalogue, we are convinced that there is no remedy before the people equal to Davis' Vegetable "Pain Killer," and we know that thousands upon thousands entertain the same belief. Certainly, we cannot refer to the history of any medicine which equals that of the Pain Killer. It was introduced in 1840, and from that time to this its sale both at home and abroad, has constantly and rapidly increased, and we rejoice at the high reputation it has achieved, because this reputation shows that it has been the means of relieving a vast amount of human suffering. We hope the present proprietors of Davis' Vegetable "Pain Killer" will long live to enjoy the prosperity they have so fairly won. GRAND JURORS. APRIL TERM, 1873. lyne Solomin W

TWENTY YEARS YOUNGER.—To say that hundreds o' malds, wives and widows look 20 years younger than they are in consequence of the complexional treshness derived from the use of tingan's Magnotia Balm, is simply to state an absolute fact, which might be promptly verified by direct testimony if ladies were as willing to till their ages as to use the best means of making themselves lovely.
