A Most Minaculous Core of Bar Leus, artendard A3 Yeans' Suffering.

LXTRACT of a letter from Mr. William Galpin, of 70 St. Mary's street, Weymouth, dated May 15th, 1551.

To Professor Holloway:

Sir—At the age of 18, my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly infiamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and its state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ontinent; and as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a feelow creature. "And by the river, upon the bank thereof, shall grow I trees for meat, whose leaf shall not fade and the nit thereof shall be for meat, and the leaf thereof for first thereof shalt be for ment, and the leaf thereof for medicine."

Here was hope for the sick recorded long ago, and every year adds new proof to the assurance that there promises shall not full.

As medical science discovers and designates the remedies nature has given, one by one, the diseases that affict our race yield to the control of art. Of all the nallaces we suffer from, none has carried more vicinus to an untimely grave than Consumption of the Lung. Subjoined we give some evidence that this too may be cured, and that Pulmonary Complaints, in all their forms, may be removed by Cherry Pectoral.

If you have an appeade continually cl angenthe from one kind of food to another, had breath, pain in the stomach, picking at the nost, hardness and fullness of the belty, dry cough, slow fever, pulse irregular—remember that all these denote Worms, and you should at ouce apply the remedy:

HOBENSACK'S WORM SYRUP. HOBENSACK'S WORM SYRUP.

THE TAPE WORM!

THE TAPE WORM!

A Person 70 Years of Age, Cured of a Bad Leg of 30 Years' Standing.

May 31st, 1851:

To Professor Holloway:

Sin—I suffered for a period of thirty years from a bad
leg, the result of two or three different/accidents at Gas
leg, the result of two or three different/accidents at Gas
Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving
any benefit, and was even told that the leg must be
amputated; yet, in opposition to that opinion, your Pills
and Ontment have effected a complete cure in so short
a time, that few who had not witnessed it would credit
the fact. (Signed,)
The truth of this statement can be verified by Mr. W.

hurst, Kent, dated December 13th, 1530:

To Professor Holloway:

DEAR SIR—My wife had suffered from had breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before heated an awind wound in my own leg by your prils and Omtunent, and therefore gave them a trail in her case; and fortunate it was I did so, for in less than a month a perfect cure was effected; and the benefithat various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.
