P. T. Barnum, the celebrated Show inan, is seriously involved in the recent failure of the Jerome Clock Manufacturing Company, of Bridgeport, Connecticut. The paper out with his name on it is over \$450, 000, to pay which would require the sacrifice of nearly one million worth of such property as he owns. The whole affair is in the hands of the lawyers, who will no doubt make a good thing out of the lucky, but in this instance unfortunate Showman. Who would have supposed that Barnum could be caught in such a "fiscal" entanglement.

A strange suicide was committed in the city of Leeds, England, recently, by a man in the prime of life, whose appearance betokened poverty and misery. He went into an inn, took a pipe, and after sitting moodily by the fire for ten minutes, put the end of a poker into the stove. When it became red hot he took it out, and deliberately put the hot end down his throat. The persons present caught hold of him and reized the poker, but not until he had burned his throat and mouth so badly as to rause his subsequent death.

DISCOVERY OF A NEW ISLAND .- On the buter voyage to Australia of the Ben Nevis, Capt. Heron, in latitude 44° 41' south; and in the same longitude as the Crozets, cameunexpectedly upon land. Supposing it was the Crozets, he steered 120 miles south, and was istonished to find himself at the Crozets.-He describes the new island as the highest he had ever seen, for the mountain ridge on it seemed to be as high as the Andes. The Crozets are in a line with Prince Edward's Island, Marian and Kerquelin's Island.

A FATAL OCCURRENCE .-- A young man named Elisha Bogle, was found dead on the ice, slongside the sloop Dusty Miller, at Keyport dock, N. J., on the 4th instant. The sloop had been robbed on Friday night, and 2d Common the captain, Wm. Crane, had set a loaded gun in such a position that the opening of Hemlock Boards and Scantling, 11 00

MUNNIES.—The mummies of Egypt are sometimes quarried by the Arabs for fuel, and, whether those of the Pharaohs, their wives, their priests or their slaves, are split open and chopped up with the same indifference as so many pine logs. The gums and balsams used in embalming them have made them a good substitute for bituminous coal; and thus the very means employed to preserve them have become the active agents for their dissipation.

Holloway's Ointment and Pills, astonishing Remedies for Scrofula.—Mr. Henry Judd, of Detroit, Michigan, was in a most alarming state of health, he had been a great sufferer from scrofula for a number of years, and finally all parts of his body broke out into sores, rendering him an object of horror to sores, rendering him an object of horror to every one; he tried some of the most reputed remedies known, but they did not touch his complaint, and in the greatest alarm he consulted a friend as to what course he ought to adopt, when Holloway's Ointment and Pills, were recommended, which he commenced using, and by persevering with these remedies for a short-time, he was perfectly cured, after every other remedy had failed.

The short time, he was perfectly cured, after every other remedy had failed.

TFOR BRONCHITIS, Throat Diseases, Hack-lag Cough, and the effects of imprudent use of Mer-cury, no medicine has ever been discovered which has effected such cures as Carter's Spanish Mixture. Throat diseases produced by salivation, Hacking Cough. Bronchial Affections, Liver Disease, Neura-gia and Rheumaism, have all been relieved and cured in a wonderful manner, by the great purifier of the blood, Carter's Spanish Mixture. The case of T. H. Rameey alone should salisfy any who doubt. Call on the Agent and procure a pamph-let containing cures, which will astound you.

After talking a short time on the general topics, Greely exclaimed—"Governor, you are not quite such a looking man as I expected to see:" "If you are more disappointed in my appearance than I am in yours, I commiserate you," replied the governor.
