Columbia, March 8, 1856-21

AMBROTYPES: IIEPARD & CO. are now prepared to take Improved Ambrotypes—never fading and indestructible—hermetically senied between two glasses, which for life-like appearance, richness of tone and trumfulness, cannot be surpassed by any made in the city.

Stepard & Co have purchased the exclusive right to take Ambrotypes in Columbia, and ulthough prepared to take any other kind or style of pictures, would recommend Ambrotypes, because of their superiority—

18t. They are vicible in any angle of light, and when taken large for Portraits are much picferable for the parlot to Paintings, because cheaper and more accurate.

2nd. They possess more charm and beauty, because they are finer and more truthful than the finest Daguerreotype can possibly be

3rd. They are more durable than any other style of Picture, because they are hermetically scaled between two glasses, made air-tight and water proofficiates

GOOD PATENT AMBROTYPE.

will relain its beauty and truthfulness of expression for ages, except purposely multiated and disfigured by some one, jealous of the superior qualities they possess over other and older style of pictures, they possess over other and kinds of pictures taken, and satisfaction guaranteed, at prices ranging from 25 cts. to \$15.

South-east corner of Front and Locus 1 streets.

Columbia, March 8, 1820.

18 Farmers can load on two private alleys and avoid the crowded Wharf.

18 South States of the street of the state of erally recommended, and upon whose curative powers the most experienced of our profession almost solely depend, had proved entirely ineffectual. Dr. (Soxestates: "The first case in which I used inhalming was upon myself, and it may not be amiss to state, that for years I had given a fair and ample that to state, that for years I had given a fair and ample that to all such other means, as were considered appropriate." He adds, by regularly pursuing a course of treatment, (unhalation that he is, at the period of leaves the proof of

cum-tance which experience has shown to need the highest importance in many diseases to which these organs are liable."

Dr. Beddoer, in, an ablatification on inhalations of medicated vapors, thus, describes the effect of oxygen in astinan—No sooner-dock to mote the lurgs—timination respiration course, and the functions of all the thornete organs go on-easily and pleasantly again?

"Dr. Maddock's back on inhalations is one of the few which have been assued from the English pression this subject. Its respublication in this country with the judicious notes of Dr. Greene, will add to the medical interaction of the United States and, it is hoped, excite some interast in the addition of modern of the subject of inhalation as a means of treating pulmonary affections. With the addition of modern discasses should have districtly and some acongening manners should have districtly and some acongening manners should have districtly and some acongening the conditions of the large used the vapor of indine quite commonly in cases of bronchities, a disease to which he was binnelf very limble.

"Trof of Surg in Phila, Col. of bledring:

The late Dr. Morton. to our own personal knowledge, used the waper of iodine quite commonly in cases of bronchitis, a disease to which he was himself very hable.

Prof of Surg in Philm, Col. of Diedicine:

"Editor of Philadss. Med. and Surg. Journal."

Dr. Colterean, Or Paris, has seemmanicated, in the Journal Hebdomudsire, and the Arch. Gen. de Medecine; for 1830. several highly important cases of pulmonary consumption, in which perfect recovery ensed from the use of inhalmions. Mr. John Micray, in a most interesting and able work on pulmonary consumption, has also marriated numerous cases of pulmoine diseases, which had been cured in the same manner. Dr. Elitotson, in the london "Lancet," No 102, observes, it has admirable jegures, that he has seen many cases of subservedious consumption and disease of the alr-passages in which the more distressing symptoms were quickly relieved by inhalation.

Dr. Elliotton further remarks, that the medical profession have been much to "Bames for neglecting the inhalation of vorious substances, and allowing their patients to die under the old jegured. System well established as answedensatilf and that the duty they owe to themselves; and they, patients demands that they should not persist in alfording alleviations only, when there was showeightest possibility of accomplishing more goods than before by any new means. Dr. Elliottoon adds, that jis shows a very unrow mind o set one's face-samples attempts at improvement; and I therefore private the sample and my medical breithren who support anything alteriations on the conditions of the distribute relative to the sample and the remarks in the article consumption: "It striawes remarks in the article consumption; and thus remarks any beginned accomplise to the ore effective in discase of the base particle for the sound fearning to the c
