TDB. ISAAC THOMPSON'S much celebrated ETE WATER. "Its merits stand unrivalled." This old, tried and invaluable remedy for all diseases of the eyes, after having stood the test of over Fifty Years, and the demand for it still increasing, is now, and has been for the past two years, offered for sale in an entire new dress. Each bottle will have a Steel Plate Engraved Envelope, with a potratio of the inventor, Dr. Isaac Thompson, New London, Conn., and a fac simile of his signature, together with a fac simile of the signature of the present proprietor, John L Thompson, No. 101 and 163 River street, Troy, New York, and none other can be genuine. The proprietor has been compelled to make this change in the style of the wrapper, owing to the large quantity of counterfeit which for the past few years has been palmed upon the community, and especially at the west.

Purchasers are particularly requested to buy none but the allowed described, and as the red label hereto-face used has been called in, any tound in that form the proprietor does not hesitate to pronounce counterfeit.

Mixture—an effectual cure for Chills and Fever. Intermittent and Remittent Fever, Dumb Ague and Bilinus attacks.

This preparation contains nothing that can actinizationly upon the system, being composed entirely of vegetable substances. In proof of his ultegation, and to give more confidence to these taking this medicine, the Proprietor offers a reward, accompanying each hottle, which is to be given to any person who discovers either Arsente or Mercury in its composition, ingredients too often used in remedees for the above diseases; and which, while they often prevent, for a season, the return of the childs, substitute in the system diseases far worse and more difficult to remove.

Use this valuable vegetable production, and see for yourself that it will do all that a good medicine can do and all that can be desired. It purifies and circulates the blood, it used as a gentle purgative upon the bowels, thue enabling nature to perform the regular exercise of her functions, and thus restoring the health and bracing up the system. As a Preventive it is equally asseficiculal and should be taken once or twice a day, which will tend to remove those diseased humors which often cause the above fevers.

The Proprietor states, without fenr of contradiction, that Paschall's Fever and Age Mixture has effectual than any other preparation now in use, to say more is unnecessary, as the medicine is to stand or fall upon its own merils.

From the numerous letters and certificates receive dby the Proprietor from persons who have tried the above named medicine. The following are selectedlecture they are generally known in the locality which this newspaper ci reulates, and because of the rendy accassibility of the writers to any party inclined to do do not recepticism in regard to the efficacy of this medicine.
