THE NORTH AND FREE STATES. An exchange notices as a singular fact which has not doubt struck the attention of many, that the common Robin-bird which has heretofore made its appearance here about quinox, has this year failed to visit us.

TO CORRESPONDENTS. The article entitled "Vindication No. 2," in consequence of its length we have been compelled to divide, reserving the conclusion for our next number.

THE BROOKS TESTIMONIAL. A case, designed for presentation to Hon. Preston S. Brooks, from many citizens of Charleston, who have had it prepared without formal concert or solicitation, and by limited subscriptions, may be seen at the jewelry store of Carrington & Co., King St. of Sullivan's Island, and the gold head piece bears simply the following inscription:

THE BROOKS TESTIMONIAL. This is a sample of a few more of the same sort, from the South. Why did they not state in their "programme" that on account of the low, cowardly and contemptible attack on a Senator of the North, born where slavery cannot exist, this testimonial was offered; or why not say in parentheses (on the gold head piece) that for his courageous encounter with a gentleman, who, unarmed, was waiting at his desk, a senator of the nation, and one who was known as a "peace man" for his valiant deed Southern chivalry applauds him, and makes him second to the gods.

THE BROOKS TESTIMONIAL. Out of a sincere regard for the opinions of our readers, Dr. Elder has requested us to republish some articles from one of his works—called "Enchanted Beauty"—one of which we give on our outside to-day, in which his views, as matured, are set forth. All interested in the controversy will be able to judge for themselves.

KANSAS AFFAIRS. The state of affairs in Kansas Territory, at this time, is most deplorable. A perfect Reign of Terror, civil war, murder, villainy of all kinds—renders the condition of Kansas most unenviable.

MR. FILLMORE'S ACCEPTANCE. Mr. Fillmore's letter accepting the nomination of the American party, appeared in the American Organ, on Thursday. It is long—occupying several pages. In closing he says:

Having the experience of past service in the administration of the Government, I am permitted to refer to that as the exponent of the future, and to say that should the choice of the Convention be sanctioned by the people, I shall, with the same scrupulous regard to the right of every section of the Union which influenced my conduct, endeavor to perform every duty enjoined by the Constitution and laws to the Executive.

THE BROOKS TESTIMONIAL. We have received from Messrs. W. & W. H. Freeman, Lancaster, the first two numbers of the *Pictorial Cyclopaedia of Biography*, embracing a series of original memoirs of the most distinguished persons of all times, edited by Francis L. Hawks D. D., L. L. D., with 600 engravings and steel plates.

THE BROOKS TESTIMONIAL. The letter approves entirely of the principles of the party which nominated him and is strongly national in sentiment.

THE BROOKS TESTIMONIAL. The Republican nominees will shortly be in the field when the battle will fairly open. Then the "lag of war" will be observable and the triangular fight will be highly interesting to dispassionate observers, like ourselves.

THE BROOKS TESTIMONIAL. According to the advice from California, Lynch law has become inaugurated again in San Francisco. An editor of a paper having been murdered, the Vigilance Committee again organized, took the murderer from jail, with the individual who is accused of having shot Col. Richardson, and were about to hang them both when the attorney stepped in.

THE BROOKS TESTIMONIAL. Their book is the ladies' favorite and so long as it holds this enviable position it will, of course, continue to prosper.

A young man, named Clemson, 19 years of age, was arrested at the Gap, and brought to West Chester last week, and placed in confinement, on a charge of purchasing a set of harness, the property of the Rev. Mr. Crowell, of Parkersburg. An application was made by his mother and Rebuben Chambers, yesterday, for his liberation on the ground of want of evidence.

THE BROOKS TESTIMONIAL. The Columbia Rolling Mill is making iron that commands the highest prices in the different markets throughout the country.

THE BROOKS TESTIMONIAL. The complete machinery and care taken in the selection of stock, has given the iron from this mill an L. No. 1 character that is worthy of those having it in charge, as well as of the reputation of the iron manufacturers of Columbia.

THE BROOKS TESTIMONIAL. We trust all the iron works in this vicinity will go forward "prospering and to prosper." There is no place in the country affording more facilities for the successful prosecution of the manufactures, and we hope before long to record other works as being in course of progress.
