LIGHTNING RODS. BMITAGE'S Patent.---The subscriber calls

A the attention of the public to his Superior ELEC-TRIC-MAGNET LIGHTNING RODS. It is now fully admitted on all hands, that every build-ing to be secure from the destructive influences of Light-ning, should be provided with a good conductor. The large number of worthless Rods that are put up makes it necessary for purchasers to examine the merits of the different rods offered for sale. I carneastly invite a rigid examination of the principles on which my Rods are constructed. I have put up nearly 6,000 Rods, and have never heard of the loss of one dollars's worth of property by Lightning, in any building, to which one of my rods has been at tached. I therefore, feel great confidence in recommende try attended at short police. He respectfully solicits a share of public patronage, confident that he can reider. April 2,1856. CASPAR SEIBERT.
