"During Gen. Washington's administration, he almost daily attended his room, adjoining the Senate Chamber, and often arrived before the Senate organized. On one occasion, just before his arrival, Coverneur Morris and some other Senators were conversing upon various topics, and amongst them, the natural but majestic air of General Washington, when one observed there was no man living could take a liberty with him. The sprightly and bold Morris remarked, "I will bet a dozen of wine I can do that with impunity." The bet was accepted. Soon after Washington appeared, and commenced an easy and pleasant conversation with one of the gentlemen, at a little distance from the others. While thus engaged, Morris stepped up, tapped Washington on the shoulder in a very familiar manner and said, "Good morning, old fellow!" The General turned, and merely looked him in the face, without a word, when Morris, with all his assumed effrontey, stepped hastily back, in evident discomposure, and said, "Gentlemen, you have won the bet, I will never take such a liberty again!" The writer received this from one who was a member of the Senate and present."

Boiling the Tea-Kettle.-Which is the most trying to a woman-a greenhorn of a servant girl, or a stove that "won't draw" the day she expects company?

Mrs. Jones hired, the other day, a Miss McDermott, just from Cork. Miss McDermott was ordered to boil the teakettle.

"The what?"

"The teakettle."

"An' do you mane that?" "Certainly-if I did not, I would not have ordered you to do it-and be quiet about it."

"Yes, marm." Miss McDermott obeyelorders. In about half an hour afterwards Mrs. Jones resumed the conversation.

"Where's the teakettle, Bridget?" "In the dinner-pot, marm."

"In the dinner-pot!" .

"You told me to boil it, marm, and I've had a scald on it for nearly an hour." Mrs Jones could bear no more.

The guest complied, but in a few minutes was missed from the parlor. In half an hour he ap-

peared drenched with rain.
"Wherein heaven's name have you been?" asked the host, viewing the singular looking object like a dog about the paws, and like a weeping willow about the head.

"I," said he, quietly shaking off the water, "I've been home to tell my wife, that as it was such a bad night, I should not return.'

THOROUGHLY TANNED .- A few days ago, a man digging potatoes at Lynn, Mass., struck he hauled out a large quantity of tanned leather, in excellent condition. CHLOROFORM UPON ANIMALS.-It being necessary, a few days ago, to perform an operation upon a favorite horse belonging to Rev. A. W. Burnham, of Rindge, N. who discovers either Arsenic or Mercury in its com

prevent, for a season, the return of the chills, substitute in the system disenses far worse and more difficult to remove.

Use this valuable regatable production, and see for yourself that it will do all that a good medicine can do and all that can be desired. It purifies and circulates the blood, it ucts as a gentle purgative upon the bowels, thus enabling nature to perform the regulate exercise of her functions, and thus restoring the health, and bracing up the system. As a Preventive it is qually assisted and should be taken once or twice a day, which will tend to remove those diseased humors which often cause the above fevers.

The Proprietor states, without feur of contradiction that Parchall's Fever and Ague Mixture has effective ally cured more persons where it has been introduced than any other preparation now in use, to say mor is unnecessary, as the medicine is to stand or fall up on its own merits.

I was much astonished upon learning from your agents here of the large quantity sold this fall; and in every case, except one it had entirely cured the patient upon taking one coitle only, and some not that much. From what I can leaves, it would be as effectual as incuring. Where it once has been tried and taken according to directions, the question will never arise—what will cure the Chills and Fever! Atthough I have not been under the necessity of taking any of the Mixture; yet another of persons, known to me, have been cured by it, and whose markes I am at liberty to communicate to any persons interested.

ments, when on Friday last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the fall from its former elevated position in the third story. I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, i feel it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provide, against so frightful an element.

In order to afford every reasonable facility to Depositors who reside at a distance from the office, their deposits are permitted to be withdrawn by checks, after the manner customary with the Banks.
