## IS IT A SIN TO DANCE? PECTFULLY INSCRIBED TO THE GENERAL SYNOD SMOKING AND DANCING.

A man may puff his life away

- Upon a vile segar; May chew the vile tobacco weed.
- Yet be a shining star, A chosen one, whose ample head Has felt a brother's touch, Compared with whom in wisdom's way But if a girl should spend an hour
- In whirling in the dance, She's sentenced in advance. They wait not till the judgment day. These more than learned divines: While bugging their tobacco box,
- They sweep away her shrines. They bow down to their idol weed. She dreams her dancing dream, The mote is in the brother's eye,
- The sister has the beam.

  Some laymen with a curious mind,
  Though filled with little light, May see an inconsistency.

  And pick out wrong from right
  To such the drendful sentence pass'd
- By learn'd and gracious scers. Upon a sprightly jumping girl, Injustible rank appears;
- And one there is will yet defend And take the dancer's part, Whose only sin is to show out The feelings of the hear;
- He will maintain, the graver heads, Should look on him askance. The Scriptures it, no part proclaim
  It is a sin to dance!
- But all who glance again their page, These golden letters see-
- That mercy show to me,
- The Scriptures have no single work.
  The smoker can ad mace, While they record the cheering fact, There is a time to dance.

  The incense from a vite segar.
- Must reach some idol throne: How keen our cycs to others' faults' How be added to our own't

## ----THE MYSTERIES, MISERIES AND

DELIGHTS OF A TURKISH BATH. I alighted at the door of the head bathing establishment of Grand Cairo.

Behold me now in the vestibule of a genuine Eastern lammum. Two tell Numidian slaves assist me to disrobe, and in the place of my multiplied garments, attire me in a piece of loose cloth, buttoned just above the hips, thus denuded, I am mounted on a pair of wooden clegs, or pattens, about ten inchcs in height. I am then supported on either side, while I make way over the glassy marble floor to a bathing saloon, number one. Here I am stretched upon a plank, covered by a white cloth, and recline at an angle of forty-five. The room is then filled with vapor, and in about ten minutes I am perspiring profusely through every pore. I grow faint, the vapor is turned off, a few buckets of topid water are thrown over me a cup of coffee is administered, and a few whiffs at a chiboque. I am revived, and am straightway conducted into bathing saloan kinds number two.

Here, sitting on the side of a marble reservoir of het water, I am drenched with buckets of the scalding liquid. I am then laid down and scrubbed from head to foot with woolen gloves and a sort of fullers' earth; then drenched again. I am next FURNITURE; FURNITURE. submitted to the operation of peeling, a process which removes all accumulation of dirt and seruff upon the surface; which, in fact, seems to take of another skin. The pecling over, I am drenched again. The next stage is that of pumice-stoning-applied to the inside of the hands and the soles of the feet, and the heels, until all horny and hard parts are rubbed down to a delicate softness. Now comes a season of comparative leisure and repose. While I am on my back, the operator is cutting my finger and toc-nails, and carefully extracting from every part of my body whatever is extraneous, unsightly

my boly whatever is extraneous, unsigning or inconvenient.

I am next made to sit up, and in my sit importance or the cusion with what he fing posture am shavel—the hairs are carefully pulled out of my nostrils—my cars are pickel—my shir is cut—my whiskers and moustanded to the finished. The time has now come to be introduced m'o bathing saloon number three. The atmosphere of this is, after the temperature of . the last, gratefully cool, and here I am permitted to immerse my-elf in a large eletern of moderately cold water. Oh! how refreshing and restoring, after the sweatings rub- OF RICH AND ELECANT JEWELRY. bings, secubbings, scaldings, pullings, pinchings, kneadings, erackings, hair tweaking, belatherings and pimice-stonings of Nos. 1 and 2.

I am relactant to quit my pre-ent quarters, but am commanded to get out. I do so, and my ten ler and new-born-infant-likeekin, (as susceptable as the surface of a skinned cel,) is gently wheel down, and envelopen in a sheet-then, mounted once more on my lofty pattens, and supported as at first, I am led back to the robing saloon, where, laid upon a mattress on the flair, with my head raised by a pillow, and with a quilt over me. I am presented with a cup of coffee and a Persian Kulian. I sip, and puff, and dose; and dose, and puff, and sipand am of opinion that, after all I have undergone, my present bliss has been cheaply purchased. I am roused from my revery by a polite inquiry if I will be a second time shamnooned, to which I answer - Certainly not." In half an hour or thereabouts I rise and dress, and leave the hummum.

And now it is I feel the Lenefit of my bath. I seem to have gone back to the days of my childhood. My hody is lighter and more elastic than a feather. My spirits are exuberant. I am conscious of breathing the circumambient air through millions of pores. I am really to shake hands with the donkey, and care's the lay. The external world never looked so beautiful. The future never so cheering. I am ready to do anybody in the universe a good turn. So end my Turkish bath .- Cor. London Star.

Contentment abides with truth. You will generally suffer for wishing to appear other than what you are: whether it be richer, or greater, or more learned. The mask soon becomes an instrument of torture.

bre in Ransteud Place, on the morning of the 111 instant.

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business mass are reliance against fire GEORGE, W. SIMONS & BRO.

Messrs, Evans & Watsov-I have to offer your PHILADELPHIA, April 12, 1856.

Mesars, Evars & Warson-I have to offer you my testimony in favor of the great security afforded to my entirestock of jewelry, books, papers, &c., during the recent dispartons confligration in Ran-tend place, from the tac' that the same were contained in two of the Salamander Safes manufacted by you. Having failen from the Fifth story of the Artisan Building, where they were previously placed and exposed to a vast heat for a long time, the pre-ervation of the valuable deposits seemed to every one who winessed the opening and interior examination, a matter of profound astonishment.

To all who may require a perfect programment. To all who may require a perfect protection from the rawages of fire, I shall not heating to recommend the use of your Safes, as I consider they have now un-dergone the most trying test. N. E. MORGAN.

PHILADELPHIA, April 12, 1956, Messrs, Evans & Warson-Gentlemen-No doub Mesers, Evans & Watson-Gentlemen.—No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock, and other valuable documents, when on Friday ia-iI opened the sufe made by your firm.

ments, when on Friday is all opened the safe made by your farm.

With my knowledge of its great exposure, both to the intervity of the heat from so hot a fire as thin which destroyed the Artisan Building, as also from the force of the fall from it for the the relevanted position in the third story. I could emertiant but lender hope from the interval inspection, that the content which to mee so highly prized would ever the of the wide to me, but a these ferrs are now happily removed, I feel it only due to say to you that I can I more forth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provides against so frightful an element. "Fenn'a R. R. Office, Phil'a Dec. 13, 1853

"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material benefit from the use of both your Pectoral and Cathartic Pills. I am never without them in my family, nor shall I ever consent to be, while my meass will procure them? Servens, M. D., of Wentworth N. H. writes.

"Having used your Cathartic Pills in my practice, I errify from experience that they are an invaluable purgative. In cases of disordered fanctions of the liver, causing headach, indigestion, costiveness, and the great variety of diseases that follow, they are a unre remedy than any other. In all cases where a purcative remedy than any other. In all cases where a purcative remedy than any other. In all cases where a purcative ever found. They are sure in their operation, and perfectly safe-qualties which make them an invaluable article for bubble use. I have for many years known your Cherry Pertoral as the best cought medicine in the world; and these Pills are in no wise inferior to that admirable preparation for the treatment of diseases."

Read this from the distinguished Solicitor of the Su-Read this from the distinguished Solicitor of the Superior Court, whose britiant abilities have made aum well-known, not only in this but neighboring States.

Sir: I have great salisfaction in assuring you that myself and lamily have been very much tienefated by your medicines. My wife was cured, two years either, of a severe and dangerous cough, by your medicine. My and since then has enjoyed perfect health. My children have several times been cured from attacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your Culturate Pills have entirely cured me from a dyspersa and co-tuveness, which has grown upon me for some years—nadeed, this cure is much more important from the fact that I had failed to get relief from the test Physicians which his section of the country allords, and from any of the numerous remedies I had taken.

HOLLOWAY'S Vegetable Vermifage Confections. This is a very palatable remedy in an agreeable form, such as chifden will crave. It is purely vegetable in its composition, and prepared according to the latest improvements in Pharmaceus teal Chemistry, by which we are able to separate the active principles of medicines from their nauveous and bulky accompaniments, and present them in a more concentrated and rehable from than in a crude state. More reliable, for in the crude state it is impossible to judge accurately of the propertie: of any medicine and often nau-cous doses are swillowed without producing the desired effect. In this confection we have the active principles of themest effectial Vermifuges, free from their unpleasant tasts and odors, and more safe and certain in its effects.

These Confections, while they are powerfully specific against worms, are mild and harmless in all other cases. For safe at

Reader. I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of the every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that I sold another; after a trial it always speaks for uself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite pientiful, and yet its value has never been known until discovered it in 1346—second, that it should cure all kinds of humor. In order to give some idea of the sudden rise and great popularity of the discovery. I will state that in April, 1853, I peddled it and sold about its bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a pril, 1854, I sold over one thousand bottles per day—in a trial the interest of it from all quarters.

In my own practice I always kept it strictly for hamors—but since it antroduction as a general family medicine, great said wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered meturable, have heen cared by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

Iknow of several cases of dropsy, all of them aged people, cured by it. For the various diseases of the Liver. Sick Headache. Dysepsiu, Asthma, Fever and Ague, Pain in the Side, Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.
