HOLLOWAY'S Vegetable Vermifuge Confee-

HOLLOWAY'S Vegetable Vermifuge Confee-tions. This is a very palatable remedy in an ingreenile form, such as children will crave. It is purely vegetable in its composition, and prepared ac-cording to the latest improvements in Plasmaceat ical Chemestry, by which we are able to separate the ac-tive principles of medicines from their nauscous and bulky accompaniments, and present them in a more concentrated and reliable form their nauscous and bulky accompaniments, and present them in a more concentrated and reliable form their nauscous and bulky accompaniments, and present them in a more concentrated and reliable form than in a crude state. More reliable, for in the crude state, it is impossible to judge accurately of the properties of any medicine and often nauscous doses are swallowed without pro-ducing the desired effect. In this confection we have the active principles of themost effectual Vermifuges, free from their unplement taste and odors, and more sufe and certain in its effects. Threes Confections, while they are powerfully spe-cific against worms, are mild and hurmless in all other cases. For sale at her of the confection of odd Fellow's limit.
