READNO, March 4. The undersigned, members of the committee, do respectfully report, that we saw the two Naies origi-nally agreed upon by Farrel & Herring, and Evans & Watson, pinced side by side in a furnace, viz 7. The Safe in use by the Paymaster of the Philadel-phia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lautz, in his store, manu-factured by Evans & Watson, and put in books pre-cisely alike.

the Safe in use by H. A. Laniz. in his store, manuf-factured by Evans & Watson, and put in books pre-ciely alike.
The fire was started at Si o'clock A. M., and kept up unil four cords of green bickory, two cords dry onk and hair chestnut top wood were entirely con-sumed, the whole under the superintendence of the subscribers, members of the committee. The Safes were opened, and the books and papers taken out by the committee and sent to H. A. Laniz's store for public examination, after they were first examined, and marked by the Committee. The books and papers while those taken from the Safe manufactured by Farrie and Herring were in our judgment dam-aged fully fifteen per cent, more than those taken from Evane & Watson's Safe.
We believe the above to have been a fair and im-partial trial of the respective qualities of both safes. JACOB H. D'NHER.
Having been absent during the burning, we fully concide with the above stakement of the condition of the papers and books taken out of the respective Safes.
