AYER'S PILLS.

For all the purposes of a Family Physic. THERE has long existed a public demand for an effective parameter plus winch could be relied on no sure and perfectly safe in its operation.—
This has been prepared to meet that demand, and an extensive tind of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical Phil, but not so easy to make the best of all Philosome which should have none of the disjections, but all the advantages of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient halberto that adaptive every pargative medicine is neutronomic and aritimize to the bowels.—
This is not. Many of them produce so much groung man and availation in the system as, to more than considerabilities the good to be derived from them.—
These Pills produce no irritation or pain, unless in arises from up previously existing obstraction or decreases them an arises from there are in may quantity, but it is better that any medicine should be taken judiciously. Minute duit crons for their use in the several diseases to which they are applicable are given on the loss. Among the complaints which have been speedily cared by them we may mention Liver Complaint in a various forms of Junifice, Indigestion, Langon and Loss of Appetite. Listlessness, Fritishing, Britons It hadache, Bilmos Fever, Fever and Azue. Pan in the side and Lonis; for in trink, ill these are but the consequence of diseased auton of the liver. The Household cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every loady and its confidently believed this pill will answer a better purpose than anything which has influcto been available to mankind—When their virtues are once known, the public will no longer doubt what refliedy to comploy when in need on a cathartic metherne.

Reader, I peddled over a thousand bottles of this first the vicinity of Boston. I know the effect of this every case. So sure as water will exinguish fire, so sure will this cure humor. I kever soid a bottle of it but it hat I soid another; after a trigl it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in or pastures, in former places quite printifuln and singular time that in some places quite printifuln and its value at the property of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles for any of it.

Some of the wholerale Druggists who have been in the annals of patent medicines was ever like it—there is a universal printed it from all quarters.

In my own practice I always kept it strictly for humors—but since its mirrodurion as a general family medicine, great and wonderful virtues have been found in that I never suspected.

Several cases of epileptic fit—a disease which was always considered incarable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful mindy—there are but few who have seen more of it than I have.

I know of several cases of dropy, all of them aged people, cured by it. For the various diseases of the Spine, and Ague, Pain in the Side, Disease of the Spine, and particularly in diseases of the kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you get and enough of it.
