I sever sold a bottle of it but that I sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite pientiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

Some of the wholetale Druggists who have been in business twenty and thirty years, say that nothing in the annuls of patent medicines was ever like it.

There is a universal praits of tif from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.
