I sever sold a bottle of it but that I sold another; after a trual it always speaks for needf. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite pientful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise rise great popularity of the discovery, I will state that in April, 1853, I peddled it and sold about six bottles per day of it.

April, 1803, I peddled it and sold about six bottles per day—in April, 1803, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it—There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great sand wonderfal virtues have been found in it that I never suspected.

Several cases of epileptic fils—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of, that awful mulndy—there are but few who have seen more of it than I have.

I know of several cases of dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pan in the Side, Diseases of the Spine, and particularly in diseases of the kidneys, &c., the discovery has done more good than any medicine ever known.
