UNITED STATES HOTEL, THE undersigned have taken the

management of the above thouse.

This house, capable of accommodating 400 guests, is unsurpassed by beauty of finish, size of rooms and convenience, by any house in this country.

The water used is from an "artesian well" on the premises, carnishing pure soft water, obviating the unpleasant effects of the well water of the sea coust. Tanks, holding 20,000 gallons of water, have been placed on the top of the heuse, which are supplied by a steam engine, and a sufficiency of hose to each floor, so that a fire would be completely under our control. A Table de thote will be set at a regular hour, and private tables for parties and families at any hour.
