THE ACKNOWLEDGEL CHAMPION.

The recent truls at Read have endorsed the current public opinion, and confirm the verdict of more than accidental fires, proving a clusvely that "flering's," the Only Safe that will not be Extract from the Commit Report on the Trial of J Safes at Reading:

Safes at Reading:

"On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them.) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on five inside, and the contents partially consumed, while the contents in the Safe of Messrs Errels & Herring were in good condition, and no fire inside."

A Farm Within the Reach of Every Man.

THOSE WHO WANT FARMS

A Farm Within the Reach of Every Man.

THE RIDGWAY FARM COMPANY has made arrangements by which all who destre to settle or purchase a home can do so. The farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk Connty, Penna., in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west, fever, is unknown. It also has an abundance of the best quality of coal and iron. The price to buy it out is from \$3 to \$20 per acre, payable by instalments, to be located at the time of purchasing, or a share of twenty-five acres entitling to locate the same for \$300, payable \$6 per month, or 12½ acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, a discount of \$5 per cent. will be allowed, and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality, the following are presented.

First—The soil is a rich innestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great

of raising the heaviest crops, owing to which this settlement has attained its present great

prosperity.
SECOND-It is the centre of the great northwest coal basin, and is destined soon to become one of the greatest business places in the state. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veins of the best bituminous coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestimable value.

The eminent state geologist, Dr. Chas. T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report, to-

FOURTH-Three railroads are laid out through FOURTH—Three railroads are laid out through this property. The Sunbury & Erie Railroad gives us a market for our coal to the lakes—it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of which has been raised—it will soon be finished. The Allegheny Valley Railroad connects us with New York, Boston and Pittsburg. The Venneya Road connects us with the West.

Venango Road connects us with the West.
There are already good turnpike roads running though this property, various other roads have been opened to accommodate the emigration and settlement which has already taken

place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever ever having been known to occur in this settlement. It is not like going to the backwoods of the west, among perhaps intolerant people, where there is no society, churches or schools, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement, having three But here is a thriving settlement, having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything desired. There is a cash market at hand.—The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will become still two hundred million feet of lumber. In a short time, owing to the coal, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made. Persons should make early application, apply or write should make early application, apply or write to E. Jeffries, Sec., No. 135 Walnut street, below Fifth, Philadelphia. Letters carefully

answered, giving full information.

Shares or tracts of land can be bought or secured by letter enclosing the first instalment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deeds given. Persons can also purchase from

our Agents.

CRAMPS, SCALDS, BURNS, &c. CURED in a short time by Cooper's Anti-Upan Tineture. As a pain alleviator, this Tineture, though not infailable, is not surpassed by any other ever offered to the inflicted, and takes the precedence of all others wherever it is used, inasmuch as a tis purely VEGETABLE, contains nothing POISONOUS, and may be used with SAFETY. One bottle has been known to cure six cases of Dysentery, besides a case or two of Gramp and Colic. It will relieve almost every variety of Pain, within from one minute to fit-teen minutes—even the most acute cases of Neuralgia, and Rheumatism, and is used, not only by Physicians, but by persons of every class and rank.
